Religious Challenge To The State:

State and Politics in Religious Peacebuilding Tale Steen-Johnsen, 2016-11-16 In this book Tale Steen Johnsen explains how religious peacebuilders are limited by both formal and more subtle political strategies aimed at regulating civil society Political authorities have a vested interest in keeping social and religious movements under control which limits the opportunities religious leaders have to diminish violent conflicts between religious groups This volume offers empirical examples of these connections in Ethiopia Kenya Zanzibar and Tanzania It is a valuable resource for both scholars and development practitioners interested in how politics and religion become conflated when religious actors engage to build peace

Global Rebellion Mark Juergensmeyer, 2008-05-16 A new religious activism has seized the imaginations of political rebels around the world In providing a road map through this complex terrain the author bases his discussion on interviews with militant activists and case studies of rebellious movements

Transnational Religion And Fading States Susanne H Rudolph, 2018-02-07 Focusing on the dilution of state sovereignty this book examines how the crossing of state boundaries by religious movements leads to the formation of transnational civil society Challenging the assertion that future conflict will be of the clash of civilization variety it looks to the micro origins of conflicts which are as likely to arise between states sharing a religion as between those divided by it and more likely to arise within rather than across state boundaries Thus the chapters reveal the dual potential of religious movements as sources of peace and security as well as of violent conflict Featuring an East West North South approach the volume avoids the conventional and often ethnocentric segregation of the experience of other regions from the European and American Contributors draw examples from a variety of civilizations and world religions They contrast self generated movements from below such as Protestant sectarianism in Latin America or Sufi Islam in Africa with centralized forms of organization and patterns of diffusion from above such as state certified religion in China Together the chapters illustrate how religion as bearer of the politics of meaning has filled the lacuna left by the decline of ideology creating a novel transnational space for world politics Women of the Midan Sherine Hafez, 2019-04-03 An exploration of gender the Arab

Spring and women's experiences of revolution including firsthand accounts In *Women of the Midan* Sherine Hafez demonstrates how women were a central part of revolutionary process of the Arab Spring Women not only protested in the streets of Cairo they demanded democracy social justice and renegotiation of a variety of sociocultural structures Women's resistance to state control Islamism neoliberal market changes the military establishment and patriarchal systems forged new paths of dissent and transformation Through firsthand accounts of women who participated in the revolution Hafez illustrates how the gendered body signifies collective action and the revolutionary narrative Using the concept of rememory Hafez shows how the body is inseparably linked to the trauma of the revolutionary struggle While delving into the complex weave of public space government control masculinity and religious and cultural norms Hafez sheds light on women's relationship to the state in the Arab world today and how the state in turn shapes individuals and marks gendered bodies

Messianism, Zionism, and Jewish

Religious Radicalism Aviezer Ravitzky, 1996-09 The Orthodox Jewish tradition affirms that Jewish exile will end with the coming of the Messiah How then does Orthodoxy respond to the political realization of a Jewish homeland that is the State of Israel In this cogent and searching study Aviezer Ravitzky probes Orthodoxy's divergent positions on Zionism which range from radical condemnation to virtual beatification Ravitzky traces the roots of Haredi ideology which opposes the Zionist enterprise and shows how Haredim living in Israel have come to terms with a state to them unholy and therefore doomed Ravitzky also examines radical religious movements including the Gush Emunim to whom the State of Israel is a divine agent He concludes with a discussion of the recent transformation of Habad Hassidism from conservatism to radical messianism This book is indispensable to anyone concerned with the complex confrontation between Jewish fundamentalism and Israeli political sovereignty especially in light of the tragic death of Israeli Prime Minister Yitzhak Rabin **Religion and Society**

Robert Cummings Neville has been a consistent advocate for the necessity of global theology Early in his career he realized that the philosophical framework of the West alone was inadequate for a truly global theology Since then he has sought to develop theology creatively and responsibly within the world context The original essays in this volume written in his honour by fellow theologians participate in and model the kind of dialogical global theology embodied in Neville's work The

Emancipation of Europe's Muslims Jonathan Laurence, 2011-12-19 The Emancipation of Europe's Muslims traces how governments across Western Europe have responded to the growing presence of Muslim immigrants in their countries over the past fifty years Drawing on hundreds of in depth interviews with government officials and religious leaders in France Germany Italy the Netherlands the United Kingdom Morocco and Turkey Jonathan Laurence challenges the widespread notion that Europe's Muslim minorities represent a threat to liberal democracy He documents how European governments in the 1970s and 1980s excluded Islam from domestic institutions instead inviting foreign powers like Saudi Arabia Algeria and Turkey to oversee the practice of Islam among immigrants in European host societies But since the 1990s amid rising integration problems and fears about terrorism governments have aggressively stepped up efforts to reach out to their Muslim communities and incorporate them into the institutional political and cultural fabrics of European democracy The Emancipation of Europe's Muslims places these efforts particularly the government led creation of Islamic councils within a broader theoretical context and gleans insights from government interactions with groups such as trade unions and Jewish communities at previous critical junctures in European state building By examining how state mosque relations in Europe are

linked to the ongoing struggle for religious and political authority in the Muslim majority world Laurence sheds light on the geopolitical implications of a religious minority's transition from outsiders to citizens This book offers a much needed reassessment that foresees the continuing integration of Muslims into European civil society and politics in the coming decades

Religion and Democratizations Jeffrey Haynes, 2013-09-13 This book examines key debates on religion and democratization from three main perspectives Religious traditions have core elements which are more or less conducive to democratization and democracy Religious traditions may be multi vocal but at any moment there may be dominant voices more or less receptive to and encouraging of democratization Religious actors rarely if ever determine democratization outcomes However they may in various ways and with a range of outcomes be of significance for democratization The contributions are divided into two sections 1 Religion democratization and democracy and 2 Secularization democratization and democracy Overall they examine the three assertions in the bullet points above The book's starting point is that in general around the world religions have left their assigned place in the private sphere This means they have in many cases become recognisably politically active in various ways and with assorted outcomes This re emergence from political marginality dates back until at least the 1980s At that time the US sociologist Jose Casanova noted that what was new and became news was the widespread and simultaneous refusal of religions to be restricted to the private sphere This involved a remodelling and re assumption of public roles by religion which theories of secularisation had long condemned to social and political marginalisation This book was published as a special issue of Democratization

Religion in the 21st Century Lisbet Christoffersen, 2010 Religion in the 21st century is a phenomenon that cannot be taken for granted and is undergoing transformations that present us with new challenges both from a scholarly and societal perspective The nuanced and multifaceted way in which these features are analyzed in this book should be welcomed by all who are interested and concerned with the role of religion on the contemporary scene The combination of accessible scholarship and challenging positions makes this a book for everyone who is interested in religion in the secularized parts of the world The volume contributes to an understanding of how it is not after all a contradiction to be both fully modern and religious Jan Olav Henriksen Norwegian School of Theology Oslo Norway
