Seminar, John Ardussi, 2002-01-01 The proceedings of the seminars of the International Association for Tibetan Studies IATS have developed into the most representative world wide cross section of Tibetan Studies They are an indispensable reference work for anyone interested in Tibet and capture the cutting edge of Tibet related research This volume is the second of three volumes of general proceedings of the Ninth Seminar of the IATS It presents a careful selection of scholarly and academic articles on Tibetan Buddhist and Bon religious culture including a sizeable section of anthropological contributions The complete series covers ten volumes The other seven volumes are the outcome of expert panels Of special interest to readers of this book are the edited volumes by Katia Buffetrille Hildegard Diemberger anthropology territory and identity Helmut Eimer David Germano Buddhist canon Toni Huber anthropology Amdo cultural revival Christiaan Klieger anthropology presentation of self identity and Deborah Klimburg Salter and Eva Allinger art history Religions Of Tibet Tucci, 2012-11-12 Very little is known in the West about Tibetan Buddhism in comparison with other eastern religions This is partly because the vast literature which it has produced and which illuminates its history is still far from accessible In addition there exists a deep division between monastic Lamaism and religion as it is lived by the people the former is fragmented into many schools while the latter shows numerous regional variations The first comprehensive account of Tibetan Buddhism to be published in English since Waddell's Buddhism of Tibet appeared in 1894 this translation is certain to become the standard reference work on the subject *Identity, Ritual and State in Tibetan Buddhism* Martin A. Mills, 2013-11-05 This is a major anthropological study of contemporary Tibetan Buddhist monasticism and tantric ritual in the Ladakh region of North West India and of the role of tantric ritual in the formation and maintenance of traditional forms of state structure and political consciousness in Tibet Containing detailed descriptions and analyses of monastic ritual the work builds up a picture of Tibetan tantric traditions as they interact with more localised understandings of bodily identity and territorial cosmology to produce a substantial re interpretation of the place of monks as ritual performers and peripheral householders in Ladakh The work also examines the central and indispensable role of incarnate lamas such as the Dalai Lama in the religious life of Tibetan Buddhists Food issues Miriam Castorina, Diego Cucinelli, 2022-04-28 Food issues Interdisciplinary Studies on Food in Modern and Contemporary East Asia concentrates on the relationship among food culture literature and language in a comparative transcultural or literary perspective The contributions investigate these aspects from different approaches historical sociological anthropological religious linguistic and want to deepen issues such as the symbolic value of food food as an essential element for the construction of individual identity and a sign of belonging to a community food as an intercultural medium food as language and the language of food The articles included in the volume are organized in a Japanese and a Chinese section and

use different approaches within humanities disciplines to explore topics ranging from classical and contemporary East Asian literature to present day issues focusing on Food Culture and its declinations

Prisoners of Shangri-La Donald S. Lopez Jr.,2012-12-31 Prisoners of Shangri La is a provocative analysis of the romance of Tibet a romance that even as it is invoked by Tibetan lamas living in exile ultimately imprisons those who seek the goal of Tibetan independence from Chinese occupation Lopez lifts the veil on America s romantic vision of Tibet to reveal a country and a spiritual history more complex and less ideal than popular perceptions allow Lively and engaging Lopez s book raises important questions about how Eastern religions are often co opted assimilated and misunderstood by Western culture Publishers Weekly Proceeding with care and precision Lopez reveals the extent to which scholars have behaved like intellectual colonialists Someone had to burst the bubble of pop Tibetology and few could have done it as resoundingly as Lopez Booklist Fascinating A provocative exploration Lopez conveys the full dizziness of the Western encounter with Tibet and Tibetan Buddhism Fred Pheil Tricycle The Buddhist Review A timely and courageous exploration Lopez s book will sharpen the terms of the debate over what the Tibetans and their observers can or should be doing about the place and the idea of Tibet And that alone is what will give us all back our Shambhala Jonathan Spence Lingua Franca Book Review Lopez s most important theme is that we should be wary of the idea that Tibet has what the West lacks that if we were only to look there we would find the answers to our problems Lopez s book shows that on the contrary when the West has looked at Tibet all that it has seen is a distorted reflection of itself Ben Jackson Times Higher Education Supplement

The Politics of Language Oppression in Tibet Gerald Roche,2024-11-15 In The Politics of Language Oppression in Tibet Gerald Roche sheds light on a global crisis of linguistic diversity that will see at least half of the world s languages disappear this century Roche explores the erosion of linguistic diversity through a study of a community on the northeastern Tibetan Plateau in the People s Republic of China Manegacha is but one of the sixty minority languages in Tibet and is spoken by about 8 000 people who are otherwise mostly indistinguishable from the Tibetan communities surrounding them Recently many in these communities have switched to speaking Tibetan and Manegacha faces an uncertain future The author uses the Manegacha case to show how linguistic diversity across Tibet is collapsing under assimilatory state policies He looks at how global advocacy networks inadequately acknowledge this issue highlighting the complex politics of language in an inter connected world The Politics of Language Oppression in Tibet broadens our understanding of Tibet and China the crisis of global linguistic diversity and the radical changes needed to address this crisis
