Remarks And Inventions Skeptical Essays About Kinship:

Remarks and Inventions Rodney Needham, 1974 *Review of Remarks and Inventions* Lee Sackett, 1976 **Remarks and Inventions** Rodney Needham, 2013-11-05 This volume scrutinizes the questions of conceptualization method and history in the fields of kinship social anthropology and structuralism It puts forward a radical revision of the conventional approaches and criteria Exploring analysis and method in the disparity between relative age and kinship categories as means of social classification the book makes theoretical readjustments largely inspired by the precepts of Wittgenstein Originally published in 1971 The Ethics of Kinship James Faubion, 2001-12-13 What need is there for kinship What good is it anyway The questions are as old as anthropology itself but few answers have been enduringly persuasive Kinship systems can contribute to our enslavement but more often they permit channel and facilitate our relations with others and our further fashioning of ourselves as kin but also as subjects of other kinds When they do they are among the matrices of our lives as ethical beings Each contributor to this innovative book treats his or her own alterity as the touchstone of the exploration of an ethnographically and historically specific ethics of kinship Together the chapters reveal the irreducible complexity of the entanglement of the subject of kinship with the subject of nation class ethnicity gender desire The chapters speak eloquently to the sometimes liberating stories that we cannot help but keep telling about our kin and ourselves **Anthropological Perspectives On Kinship** Ladislav Holy, 1996-10-20 This authoritative introductory text takes into account the changes in the conceptualisation of kinship brought about by new reproductive technologies and the growing interest in culturally specific notions of personhood and gender Holy considers the extent to which Western assumptions have guided anthropological study of kinship in the past In the process he reveals a growing sensitivity on the part of anthropologists to individual ideas of personhood and gender and encourages further critical reflection on cultural bias in approaches to the subject **The Future of Marriage (Easyread Large Edition)** David Blankenhorn, 2010 With precision and passion David Blankenhorn offers a bold new argument in the debate over same sex marriage that it would essentially deny all children not just the children of same sex couples their birthright to their own mother and father If we change marriage we change parenthood for all families Altering marriage to accommodate same sex couples would mean weakening in culture and eliminating in law the idea that children need both their mother and their father The Future of Marriage analyzes recent survey data from 35 countries offering the first scientific evidence that support for marriage is weakest in those nations where support for gay marriage is strongest Blankenhorn explains how same sex marriage would transform our most pro child social institution into a purely private relationship an expression of love between adults defined by each couple as they wish Changing marriage laws to include same sex couples he argues would require us to deinstitutionalize marriage amputating from the institution one after another of its core ideas until the institution itself is like a room with all the furniture removed and everything stripped from the walls For Blankenhorn the main question concerning the future of

marriage in the United States is not whether we will adopt gay marriage The main question is whether the social institution of marriage will become stronger or weaker If we wish to strengthen marriage on behalf of children there is no shortage of ideas for doing so What matters is whether we as a society regard this as a worthy and urgent goal *Evolution 2.0* Martin Brinkworth, Friedel Weinert, 2011-10-07 These essays by leading philosophers and scientists focus on recent ideas at the forefront of modern Darwinism showcasing and exploring the challenges they raise as well as open problems This interdisciplinary volume is unique in that it addresses the key notions of evolutionary theory in approaches to the mind in the philosophy of biology in the social sciences and humanities furthermore it considers recent challenges to and extensions of Neo Darwinism The essays demonstrate that Darwinism is an evolving paradigm with a sphere of influence far greater than even Darwin is likely to have imagined when he published *On the Origin of Species* in 1859 **Other Tribes, Other Scribes** James A. Boon, 1982 In this book James A Boon investigates the history dialectics and practice of the symbolic analysis of cultural diversity His aim is to formulate a general comparative approach to the study of symbolic processes integrating the major different theories about symbolic forms that have been developed by other writers **Theory in Social and Cultural Anthropology** R. Jon McGee, Richard L. Warms, 2013-08-28 Social and cultural anthropology and archaeology are rich subjects with deep connections in the social and physical sciences Over the past 150 years the subject matter and different theoretical perspectives have expanded so greatly that no single individual can command all of it Consequently both advanced students and professionals may be confronted with theoretical positions and names of theorists with whom they are only partially familiar if they have heard of them at all Students in particular are likely to turn to the web to find quick background information on theorists and theories However most web based information is inaccurate and or lacks depth Students and professionals need a source to provide a quick overview of a particular theory and theorist with just the basics the who what where how and why In response SAGE Reference is publishing the two volume *Theory in Social and Cultural Anthropology An Encyclopedia Features Benefits* Two volumes containing approximately 335 signed entries provide users with the most authoritative and thorough reference resource available on anthropology theory both in terms of breadth and depth of coverage To ease navigation between and among related entries a Reader's Guide groups entries thematically and each entry is followed by Cross References In the electronic version the Reader's Guide combines with the Cross References and a detailed Index to provide robust search and browse capabilities An appendix with a Chronology of Anthropology Theory allows students to easily chart directions and trends in thought and theory from early times to the present Suggestions for Further Reading at the end of each entry and a Master Bibliography at the end guide readers to sources for more detailed research and discussion *De Kebar 1855-1980* J. Miedema, 2022-07-18 The author studied the culture particularly social life of a tribal society of the Kabar plain in the inland area of the Kepala Burung Vogelkop in Irian Jaya The focus was on constants variants and changes in the field of kinship and religion Ch 1 gives a historical survey of the

Kabar plain Ch 2 pays attention to environment and demographic data To determine the influences of processes of state formation in the East Indonesian archipelago on the Kebar chapters 3 and 4 look at the intra and intertribal kinship relations including changes occurring in them and the Kebar man and worldview Ch 5 discusses the connection between social historical and ecological influences on the culture of the Kebar in particular in the fields of kinship and religion
