Renaissance Florence In The Rhetoric Of Two Popular Preachers:

Renaissance Florence in the Rhetoric of Two Popular Preachers Nirit Ben-Aryeh Debby, 2001 The central purpose of this study is to examine the response of the preachers Giovanni Dominici 1356 1419 and Bernardino da Siena 1380 1444 to the changes the alternatives they offered and their attempts to direct the life of the laity [The Jewish-Christian Encounter in Medieval Preaching](#) Jonathan Adams, Jussi Hanska, 2014-10-03 This book explores the complexity of preaching as a phenomenon in the medieval Jewish Christian encounter This was not only an encounter as physical meeting or confrontation such as the forced attendance of Jews at Christian sermons that took place across Europe but also an imaginary or theological encounter in which Jews remained a figure from a distant constructed time and place who served only to underline and verify Christian teachings Contributors also explore the Jewish response to Christian anti Jewish preaching in their own preaching and religious instruction [In the Mirror of the Prodigal Son](#) Pietro Delcorno, 2017-09-25 In the Mirror of the Prodigal Son provides a comprehensive history of the function of the parable of the prodigal son in shaping religious identity in medieval and Reformation Europe By investigating a wealth of primary sources the book reveals the interaction between commentaries sermons religious plays and images as a decisive factor in the increasing popularity of the prodigal son Pietro Delcorno highlights the ingenious and multifaceted uses of the parable within pastoral activities and shows the pervasive presence of the Bible in medieval communication The prodigal son narrative became the ideal story to convey a discourse about sin and penance grace and salvation In this way the parable was established as the paradigmatic biography of any believer **Voices from the Italian Renaissance** Lisa Kaborycha, 2024-03-25 The Italian Renaissance was a period of intense cultural transformations when the ancient world was being rediscovered and a New World had been literally discovered Between the thirteenth and the seventeenth centuries traditional beliefs were being challenged as people across the Italian Peninsula explored new ways of thinking about religion politics and society and introduced startling innovations in the arts This book contains more than hundred selections of primary sources the historian's raw material in the form of memoirs letters treatises sermons stories poems drawings paintings and sculpture Here are eyewitness accounts of cold blooded murders lavish court pageants the Sack of Rome and the Black Death first views of Michelangelo's Sistine frescoes and glimpses of the surface of the moon through Galileo's telescope These sources bring the reader into direct contact with the creators of the great Renaissance works of art literature philosophy and science as well as lesser known people who in their own words express emotions of love loss and spiritual yearning Selected to accompany and supplement A Short History of Renaissance Italy the primary sources in this book make it an ideal course reader for students of history or art history Yet this volume can be equally read well on its own each selection is clearly introduced annotated and provided with references for further reading These sources reach out to an audience beyond the classroom the general reader or the traveler to Italy anyone curious to learn more about the Italian Renaissance will find themselves swept into conversation with these vibrant

voices from the past *The Cult of St Clare of Assisi in Early Modern Italy* Nirit Ben-Aryeh Debby, 2017-07-05

Notwithstanding the wealth of material published about St Clare of Assisi 1193-1253 in the context of medieval scholarship and the wealth of visual material regarding her there is a dearth of published scholarship concerning her cult in the early modern period. This work examines the representations of St Clare in the Italian visual tradition from the thirteenth century on but especially between the fifteenth and the mid-seventeenth centuries in the context of mendicant activity. Through an examination of such diverse visual images as prints, drawings, panels, sculptures, minor arts, and frescoes in relation to sermons of Franciscan preachers starting in the thirteenth century but focusing primarily on the later tradition of early modernity, the book highlights the cult of women saints and its role in the reform movements of the *Osservanza* and the Catholic Reformation and in the face of Muslim-Christian encounter of the early modern era. Debby's analyses of the preaching of the times and iconographic examination of neglected artistic sources makes the book a significant contribution to research in art history, sermon studies, gender studies, and theology. **Entertaining Ambiguities** Ralph J.

Hexter, 2025-12-02 *Entertaining Ambiguities* explores the intersections of male-male sexual activities, subcultures, and coded language with classical reception, university culture, and Italian humanism. Through his excavation of a pair of Latin comedies, *Janus the Priest* and *The False Hypocrite*, written and performed by law students at the University of Pavia in 1427 and 1437 respectively, Ralph Hexter shows how these plays expand our understanding of the range of contemporary attitudes to male-male sexual behavior beyond previously studied registers, whether legal, ecclesiastical, or natural scientific. The plot of the two plays, one of which is an adaptation of the other, involves the entrapment of a priest who is eager for sexual activity with men. Digging deeply into precisely how the student ringleader of the entrapment plot persuades the priest to visit him in his rooms for an assignation, Hexter uncovers the coded language that the student uses to seemingly establish himself as a member of a network of like-minded men, convincing the priest to let his guard down. Hexter reads this coded language within his examination of the context of the plays' performance and circulation, including careful reading of a range of Italian and Latin sources such as Boccaccio's *Decameron*, Apuleius's *Golden Ass*, comedies by Plautus and Terence, and Beccadelli's *Hermaphroditus*, among others. In doing so, he demonstrates how passages throughout both plays disrupt received ideas about the period's sexual conventions and sexual possibilities. Reading against the grain, against orthodox expectations, Hexter reveals the plays' seemingly moralizing endings to be more suggestive and more ambiguous than they appear. Including an appendix presenting the first published English translations of both plays, *Entertaining Ambiguities* offers a new account of the history of sexuality, changing social mores, and intellectual exchange at the dawn of the Renaissance. **Saints,**

Miracles, and Social Problems in Italian Renaissance Art Diana Bullen Presciutti, 2023-05-04 In this book, Diana Bullen Presciutti explores how images of miracles performed by mendicant saints—reviving dead children, redeeming the unjustly convicted, mending broken marriages, quelling factional violence, exorcising the demonically possessed—actively shaped

Renaissance Italians' perceptions of pressing social problems related to gender, sexuality and honor. She argues that depictions of these miracles by artists both famous (Donatello, Titian) and anonymous played a critical role in defining and conceptualizing threats to family honor and social stability. Drawing from art history, history, religious studies, gender studies and sociology, Presciutti's interdisciplinary study reveals how miracle scenes, whether painted, sculpted or printed, operated as active agents of lived religion and social negotiation in the spaces of the Renaissance Italian city.

The Visual Culture of Baptism in the Middle Ages Harriet M. Sonnede Torrens, 2017-07-05 Under the guidance of the leading experts on baptismal fonts and the co-directors of the *Baptisteria Sacra* Index, the world's only iconographical inventory of baptismal fonts, a research project at the University of Toronto, this collection of essays by a group of European and North American scholars extends the traditional boundaries associated with the study of baptismal fonts. The visual is privileged, whether it is in the metaphysical, literary or empirical realms of scholarship, offering a rich understanding of the powerful role of baptism played in medieval and Renaissance society. In the quest for a holistic understanding of the vessels, the settings and contexts, the rituals and the spiritual significance of the font itself, the contributors have turned to a range of sources: folkloric tales, baptismal records, liturgical sermons, civic records, literary accounts, hagiographies and historical documents about local families, communities and ecclesiastical developments. Previous scholarship about baptismal fonts has often focused on the purely stylistic, iconographical and liturgical perspectives, using primarily ecclesiastical and liturgical documentation. This collection of essays shows the wealth of new information that baptismal fonts can offer when scholars adopt interdisciplinary approaches and engage in readings that question traditional assumptions inherited in scholarship.

Franciscans and Preaching Timothy Johnson, 2012-12-19 Francis of Assisi, whose Gospel performance captured the imagination of his day, fostered a movement which was fascinated by the transformative power of the embodied Word. This book offers an extensive English language study of medieval Franciscan preaching.

Representing Infirmary John Henderson, Fredrika Jacobs, Jonathan K. Nelson, 2020-11-17 This volume is the first in-depth analysis of how infirm bodies were represented in Italy from c. 1400 to 1650. Through original contributions and methodologies, it addresses the fundamental yet undiscussed relationship between images and representations in medical, religious and literary texts. Looking beyond the modern category of disease and viewing infirmity in Galenic humoral terms, each chapter explores which infirmities were depicted in visual culture, in what context, why and when. By exploring the works of artists such as Caravaggio, Leonardo and Michelangelo, this study considers the idealized body altered by diseases including leprosy, plague, goitre and cancer. In doing so, the relationship between medical treatment and the depiction of infirmities through miracle cures is also revealed. The broad chronological approach demonstrates how and why such representations change both over time and across different forms of media. Collectively, the chapters explain how the development of knowledge of the workings and structure of the body was reflected in changed ideas and representations of the metaphorical, allegorical and symbolic meanings of infirmity and disease. The

interdisciplinary approach makes this study the perfect resource for both students and specialists of the history of art medicine and religion and social and intellectual history across Renaissance Europe
