Renee Sintenis 2nd Edition:

A Cultural History of the Soul Kocku von Stuckrad, 2022-02-15 The soul which dominated many intellectual debates at the beginning of the twentieth century has virtually disappeared from the sciences and the humanities Yet it is everywhere in popular culture from holistic therapies and new spiritual practices to literature and film to ecological and political ideologies Ignored by scholars it is hiding in plain sight in a plethora of religious psychological environmental and scientific movements This book uncovers the history of the concept of the soul in twentieth century Europe and North America Beginning in fin de siècle Germany Kocku von Stuckrad examines a fascination spanning philosophy the sciences the arts and the study of religion as well as occultism and spiritualism against the backdrop of the emergence of experimental psychology He then explores how and why the United States witnessed a flowering of ideas about the soul in popular culture and spirituality in the latter half of the century Von Stuckrad examines an astonishingly wide range of figures and movements ranging from Ernest Renan Martin Buber and Carl Gustav Jung to the Esalen Institute deep ecology and revivals of shamanism animism and paganism to Rachel Carson Ursula K Le Guin and the Harry Potter franchise Revealing how the soul remains central to a culture that is only seemingly secular this book casts new light on the place of spirituality religion and metaphysics in Europe and North America today

Modernist Aesthetics in

Transition Deborah Ascher Barnstone, Donna West Brett, 2025-01-23 How did German aesthetic values change during the Weimar Republic and after its immediate collapse at the beginning of the National Socialist period Contrary to conventional narratives that depict modernist aesthetics as static shaping principles of modern art and design this volume argues for their complexity and ever shifting nature Illuminating the vital exchanges that occurred across multiple art forms during a period of unmatched cultural activity this multi disciplinary volume explores the cultural transition between Weimar and National Socialist era Germany and offers a fresh perspective on the fate of modernism during a time of censorship and social stigma Featuring essays on architecture painting photography film sculpture cabaret typography and commercial design the volume explores competing and comparable themes across German art from 1919 1945 and addresses how modern approaches like New Vision coexisted with more traditional and established artistic modes Such visual complexity is evident from the volume

s eclectic coverage these include sexology and eroticism visual grammar in typography and architecture the reception of Weimar art in the National Socialist period and the formation and transformation of queer and Jewish identities The volume encompasses subjects as different as shadow in the animated films of Lotte Reininger filmic adaptations of Heinrich Zille s social commentary in the 1920s the photography of L szl Moholy Nagy and depictions of female sexuality in Magnus Hirschfeld s oeuvre By bridging multiple artistic fields this highly interdisciplinary work provides a fresh perspective on the ever changing art and aesthetic principles of early 20th century Germany

Dynamics of Ancient Prose Thea S. Thorsen, Stephen Harrison, 2018-05-22 Ancient prose is intriguingly diverse This volume explores the dynamics of the Latin and Greek prose of the Roman empire in the forms of biography novel and apologetics which have historically lacked recognition as uncanonical genres and yet appear vital today Focusing on the sophistication in thought and artistic texture to be found within these literary kinds this volume offers a collection of stimulating essays for students and scholars of literature and culture in antiquity and beyond

Art and Social Change Klare Scarborough, Susan Dixon, 2015-10 The scholarly essays in this book focus on the theme of art and social change in Western art from the Renaissance to about 1950 The edited volume includes contributions by scholars with a range of professional backgrounds and affiliations Their essays address some aspect of the theme and engage with one or more artworks in the collection of La Salle University Art Museum Topics include religious iconography portraiture landscape journal illustrations and Modernist abstraction These essays on the collection add to the body of scholarship which situates works of art in contexts that help reveal and explain changes in social political or cultural values The book is lavishly illustrated with 104 color illustrations

Women in World History Anne Commire, 2002 Presents biographical profiles of significant women from throughout the history of the world each with birth and death dates when known a time line quotation and references Arranged alphabetically from Schu Sui

Concise Dictionary of Women Artists Delia Gaze, 2001 The Concise Dictionary of Women Artists provides an alternative history of Western art from the Middle Ages to the present day In 200 entries it examines the lives working conditions and most of all the work of a remarkable group of artists

Collecting and Provenance Andrea M. Gáldy, Ronit Sorek, Netta Assaf, Gal Ventura, 2021-06-21 This collection of essays highlights the enduring significance of provenance and its implications for historians and art historians as well as students and researchers engaged in museum studies It also offers an opportunity to demonstrate its relevance to other fields of expertise such as conservation visual culture studies aesthetics authentication and connoisseurship versus technology as a means of establishing attributions and detecting forgeries Provenance is still of vital importance to jurisdiction whether it concerns property law or ownership It also remains topical because of the ongoing debates over looted art in the 1930s and 1940s and the illicit trade in antiquities conducted from Iraq and Syria by terrorist groups
