Ring Of The Nibelung:

Nibelung's Ring, The Peter Bassett, 2003 This accessible text guides novice and seasoned opera listeners alike through Richard Wagner's renowned Ring cycle To aid in understanding this complex and often contradictory work a modern day prose translation of its four component operas is provided as is an explanation of The Nibelung's Ring's mythological background Wagner's creative process and the ideas conveyed throughout each component A section reviewing its numerous musical themes and how they bind the cycle together musically is also included Rarely seen lithographs by artist Hugo Braune illustrate the story *An Introduction to Richard Wagner's Der Ring Des Nibelungen* William O. Cord, 1995 Today more than a century after its first performance Richard Wagner's The Ring of Nibelung endures as one of the most significant artistic creations in the history of opera This monumental work not only altered previously accepted concepts of music and drama but also inspired creative and intellectual efforts far beyond the field of opera Previous studies of the Ring have appealed only to those already acquainted in some way with the Wagnerian art For the uninitiated Wagner and his landmark creation have seemed forbidding and those eager to learn about the masterpiece have faced a vast and frequently esoteric body of commentary Professor Cord addresses the interests of the non specialist by taking the reader first into Wagner's unique intent and then through the complete history of the Ring Cord who has attended forty performances of the Ring considers the conception of the poem its development into a music drama exemplifying Wagnerian thought its introduction to the world and the reactions and interpretation it elicits *The Ring of the Nibelung* Richard Wagner, 2018-07-26 A superb new translation of one of the greatest nineteenth century poems the libretto to Wagner's Ring cycle The scale and grandeur of Wagner's The Ring of the Nibelung has no precedent and no successor It preoccupied Wagner for much of his adult life and revolutionized the nature of opera the orchestra the demands on singers and on the audience itself The four operas The Rhinegold The Valkyrie Siegfried and Twilight of the Gods are complete worlds conjuring up extraordinary mythological landscapes through sound as much as staging Wagner wrote the entire libretto before embarking on the music Discarding the grand choruses and bravura duets central to most operas he used the largest musical forces in the context often of only a handful of singers on stage The words were essential he was telling a story and making an argument in a way that required absolute attention to what was said The libretto for The Ring lies at the heart of nineteenth century culture It is in itself a work of power and grandeur and it had an incalculable effect on European and specifically German culture John Deathridge's superb new translation with notes and a fascinating introduction is essential for anyone who wishes to get to grips with one of the great musical experiences The Ring of the Nibelung Alice Leighton Cleather, Basil Woodward Crump, 1903 The Ring of Nibelung P.
