The Economic Rise of China

Zhihua Wang, Eleftherios Giovanis, Nikolaos Karagiannis, 2022-08-08 This book seeks to reinvigorate debates on the growing forces influencing China's social and economic evolution. It draws attention to several neglected areas in the discussion of China's rapid economic expansion such as unbalanced growth, mass internal migration, international labour flows and disparities in access to education, public health and housing. China's rapid economic development has attracted the interest of many scholars following its emergence as the world's second largest economy and stimulated research into the underlying factors that have made this development unique. In advancing research, the chapters included in this edited book help with refining our understanding of the forces that have been driving China's social, economic, political, institutional and technological developments, addressing the related issues, thus advancing the social economic literature within the China context. This book serves the interests of scholars who seek to understand more fully the development of China as well as of other emerging economies. One of the chapters in this volume was originally published in the *Review of Evolutionary Political Economy*. Other chapters were originally published in the *Forum for Social Economics*. *The Transition to Socialism in China (Routledge Revivals)* Mark Selden, Victor Lippit, 2016-07-01 First published in 1982. The dramatic changes in policy and theory following the death of Chairman Mao in 1976 and the publication of the most extensive official and unofficial data on the Chinese economy and society in twenty years both necessitated and made possible a thorough reconsideration of the full range of issues pertaining to the political and economic trajectory of the People's Republic in its first three decades. The contributors to this volume initiated a comprehensive effort to address fundamental problems of China's socialist development and to reassess earlier perspectives and conclusions. Contemporary China Review □ 2024 Spring/Summer Issue □ Journal Editors, 2024-07-25 As the Year 2024 has already passed half, I sincerely hope and pray for world peace and for people to live and work in peace. But looking ahead, I believe the future will still not be peaceful. The Russian-Ukrainian war is still raging and the people are suffering. The Israeli-Hamas conflict seems to have no signs of stopping and the US election is surging. As I said before, the three major divisions facing the world are presented at the same time this year: the Russian-Ukrainian war is a major division between the democratic and dictatorial camps; the US election is a major left-right division; and the Israeli-Hamas conflict has surpassed the left-right division and the democracy-dictatorship division. Is the world heading for doomsday? We wait and see. Social Ties, Resources, and Migrant Labor Contention in Contemporary China Jeffrey Becker, 2014-07-22 The growth of China's internal migrant labor population is one of the most important issues emerging from the Hu Jintao regime. As China continues to undergo an urbanization process as profound as any in modern history, there is little doubt migrant workers are affecting economic and political decision making at the central and local levels. Relying on interviews with over 250 Chinese migrant workers, peasant farmers who have moved to the cities in search of work, as well as interviews with Chinese labor activists, this book explores the evolution of migrant labor protest in China over the past three decades. It examines how migrant workers engage in protest today and how they choose from available

protest strategies While past studies of Chinese rural to urban migration have long acknowledged the importance of traditional rural ties between family members this book demonstrates how new urban ties help migrant workers learn of new protest options navigate the legal system connect with others sharing similar disputes and identify additional resources The book also examines the growth and importance of Chinese migrant labor rights organizations and the role of information communication technology in migrant labor protest activity The findings presented here shed new light on Chinese state society relations and economic development Moreover the findings from this book which demonstrate how economic reforms create opportunities for protest and how migrant workers take advantages of these opportunities have implications for our understanding of contentious politics in other authoritarian states undergoing similar economic and demographic transition

Discourse and Socio-political Transformations in Contemporary China Paul Chilton, Hailong Tian, Ruth Wodak, 2012-09-05 China's opening up to the West its extraordinary economic rise and the subsequent internal and global issues are an object of huge interest and concern *Discourse and Socio-political Transformations in Contemporary China* focuses on one aspect of the contemporary Chinese phenomenon one that is so obvious that it is generally ignored in the mainstream academic departments that politics society and transformation are the product of myriad collective linguistic interchanges some stabilized some competing some agonistic some new and emerging As an outcome of dialogue between Chinese and Western scholars the present volume contains case studies that offer a survey of the discourse aspect of Chinese society in social stratification government service policy consultancy higher education foreign policy and TV The conceptual reflections on discourse and critique in different cultures offer new considerations for discourse analysis including critical discourse analysis in the context of Chinese society today This volume was originally published as a special issue of *Journal of Language and Politics* 9 4 2010
