Rise Of The French Novel:

The Other Rise of the Novel in Eighteenth-Century French Fiction Olivier Delers, 2015-09-01 The rise of the novel paradigm and the underlying homology between the rise of a bourgeois middle class and the coming of age of a new literary genre continues to influence the way we analyze economic discourse in the eighteenth century French novel Characters are often seen as portraying bourgeois values even when historiographical evidence points to the virtual absence of a self conscious and coherent bourgeoisie in France in the early modern period Likewise the fact that the nobility was a dynamic and diverse group whose members had learned to think in individualistic and meritocratic terms as a result of courtly politics is often ignored The Other Rise of the Novel calls for a radical revision of how realism the language of self interest and commercial exchanges and idealized noble values interact in the early modern novel It focuses on two novels from the seventeenth century Furetiere's Roman bourgeois and Lafayette's Princesse de Clèves and four novels from the eighteenth century Prevost's Manon Lescaut Graffigny's Lettres d'une Pruvienne Rousseau's La Nouvelle Héloïse and Sade's Les infortunes de la vertu It argues that eighteenth century French fiction does not reflect material culture mimetically and that character action is best analyzed by focusing on the social and discursive exchanges staged by the text rather than by trying to create parallels between specific behavior and actual historical changes The novel produces its own reality by transforming characters and their stories into alternative social models different articulations of how individuals should define their economic relations to others The representation of interpersonal relations often highlights personal conceptions of private interest that cannot be easily reconciled with the traditional narrative of a transition towards economic modernity Realism then is not only about verisimilar storytelling and psychological depth it is an epistemological questioning about the type of access to reality that a particular genre can give its readers

The Rise of the French Novel Martin Turnell, 1978

Martin Turnell's The Rise of the French Novel is a successor to his highly praised earlier books The Novel in France 1951 and The Art of French Fiction 1959 His aim now however is somewhat different as can be seen from the title It is well known that the reputations of many writers novelists especially diminish for a period following their deaths Although in the eighteenth century Marivaux Crillon fils and Rousseau all enjoyed a great deal of popularity during their lifetimes it is only recently that they have been subject to truly searching studies Yet they remain little read in English speaking countries Turnell emphasizes that in spite of the hostility of French critics and the fact that the novel did not reach its supremacy even in France until the nineteenth century the beginning of its great rise was indeed with such writers as these Their strong influence led such nineteenth century novelists as Stendhal and Flaubert to all kinds of changes related to style the enormous increase in the range of subject matter and the marked development of language Flaubert is the most striking example It was pointed out some time ago by Eisenstein that Madame Bovary anticipates cinematic technique One of Turnell's most interesting chapters explores the connections between the novel and film in general and Madame Bovary in particular In our

own time two of the most popular French novelists in both the United States and England are Alain Fournier and Radiguet. They are given enthusiastic appreciations in Turnell's thoughtful book [Dangerous Truths and Criminal Passions](#) Thomas DiPiero, 1992-07-01. This book challenges several traditional assumptions about the development of the French novel, notably that the novel is a bourgeois art form that rose and flourished along with the rise of the bourgeoisie and that the novels of the seventeenth and eighteenth centuries were inevitable stepping stones on the road to the apotheosis of realism realized in the novels of Balzac, Flaubert, and Zola. Instead, the author argues that the early French novel articulated the French aristocracy's claims to natural ascendancy against an encroaching middle class. But like any other literary form, the novel produces and is a product of ideology, and it reveals the contradictions lying beneath the surface of an apparently seamless social structure. After the death of Louis XIV and the resulting social and political redefinition of the aristocracy, the ideological rifts in the novel's form enabled it to shift its class affiliations with the changing times. French cultural life was increasingly tinged with values determined by new configurations in the control and transmission of property, including new constraints on women's sexual behavior. Fiction that claimed for itself a rightful place in the real world began to appear. As it had during the seventeenth century, fiction continued to negotiate complex social contradictions and label as malevolent any person or group that seemed to threaten social order, notably the immoderate woman who flouted traditional conceptions of virtue and threatened to read the social fabric. This new account of the rise of the French novel is enriched throughout by close readings of both well-known and obscure novels, including d'Urfé's *L'Astre e Gomberville's* *Polexandre*, Furetière's *Le Roman bourgeois*, Prevost's *Manon Lescaut*, Diderot's *La Religieuse*, and Sade's *Justine*. [The Cambridge History of the Novel in French](#) Adam Watt, 2021-02-25. This History is the first in a century to trace the development and impact of the novel in French from its beginnings to the present. Leading specialists explore how novelists writing in French have responded to the diverse personal, economic, socio-political, cultural, artistic, and environmental factors that shaped their worlds. From the novel's medieval precursors to the impact of the internet, the History provides fresh accounts of canonical and lesser-known authors, offering a global perspective beyond the national borders of the Hexagon to explore France's colonial past and its legacies. Accessible chapters range widely, including the French novel in Sub-Saharan Africa, data analysis of the novel system in the seventeenth century, social critique in women's writing, Sade's banned works, and more. Highlighting continuities and divergence between and within different periods, this lively volume offers routes through a diverse literary landscape while encouraging comparison and connection making between writers' works and historical periods. In France between 1641 and 1782, the romance developed into the novel. Mr. Showalter's intensive study of the novel, particularly during the critical period 1700

1720 shows that an important movement toward nineteenth century realism was taking place To trace this development the author has selected five phenomena time space names money and the narrator and follows their treatment throughout the period to show why romance tended toward the novel To show the working out of these ideas there is a detailed analysis of one novel Robert Challe s *Les Illustres Francoises* which can be precisely located in the chain of literary influence Its central theme of the individual in conflict with society was well suited to the forms available to the eighteenth century novelist Consequently it appears repeatedly in important novels of the period showing that the evolutionary process worked to some degree even on subject matter Originally published in 1972 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 The Facts on File Companion to the French Novel Karen L. Taylor,2006 French novels such as *Madame Bovary* and *The Stranger* are staples of high school and college literature courses This work provides coverage of the French novel since its origins in the 16th century with an emphasis on novels most commonly studied in high school and college courses in world literature and in French culture and civilization The Colonial Comedy: Imperialism in the French Realist Novel Jennifer Yee,2016-08-12 Nineteenth century French Realism focuses on metropolitan France with Paris as its undisputed heart Through Jennifer Yee s close reading of the great novelists of the French realist and naturalist canon Balzac Flaubert Zola Maupassant The Colonial Comedy reveals that the colonies play a role at a distance even in the most apparently metropolitan texts In what Edward Said called geographical notations of race and imperialism the presence of the colonies off stage is apparent as imported objects colonial merchandise and individuals whose colonial experience is transformative Indeed the realist novel registers the presence of the emerging global world system through networks of importation financial speculation and immigration as well as direct colonial violence and power structures The literature of the century responds to the last decades of French slavery and direct colonialism notably in Algeria but also economic imperialism and the extension of French influence elsewhere Far from imperialist triumphalism in the realist novel exotic objects are portrayed as fake or mass produced for the growing bourgeois market while economic imperialism is associated with fraud and manipulation The deliberate contrast of colonialism and exoticism within the metropolitan novel and ironic distancing of colonial narratives reveal the realist mode to be capable of questioning its own epistemological basis The Colonial Comedy argues for the existence in the nineteenth century of a Critical Orientalism characterized by critique of its own discursive foundations Using the tools of literary analysis within a materialist approach The Colonial Comedy opens up the domestic Paris Provinces axis to signifying chains pointing towards the colonial space **The Oxford Handbook of the Eighteenth-Century Novel** J. Polish Literature as World Literature Piotr Florczyk, K. A. Wisniewski, 2022-12-15. This carefully curated collection consists of 16 chapters by leading Polish and world literature scholars from the United States, Canada, Italy, and of course Poland. An historical approach gives readers a panoramic view of Polish authors and their explicit or implicit contributions to world literature. Indeed, the volume shows how Polish authors from Jan Kochanowski in the 16th century to the 2018 Nobel laureate Olga Tokarczuk have engaged with their foreign counterparts and other traditions, active participants in the global literary network and the conversations of their day. The volume features views of Polish literature and culture within theories of world literature and literary systems, with a particular attention paid to the resurgence of the idea of the physical book as a cultural artifact. This perspective is especially important since so much of today's global literary output stems from Anglophone perceptions of what constitutes literary quality and tastes. The collection also sheds light on specific issues pertaining to Poland, such as the idea of Polishness and global phenomena including social and economic advancement as well as ecological degradation. Some of the authors discussed, like the Romantic poet Adam Mickiewicz or the 1980 Nobel laureate Czesław Miłosz, were renowned far beyond the borders of their country, while others like the contemporary travel writer and novelist Andrzej Stasiuk embrace regionalism, seeing as they do in their immediate surroundings a synecdoche of the world at large. Nevertheless, the picture of Polish literature and Polish authors that emerges from these articles is that of a diverse cosmopolitan cohort engaged in a mutually rewarding relationship with what the late French critic Pascale Casanova has called the world republic of letters.

The Literary Channel Margaret Cohen, Carolyn Dever, 2009-02-14. The Literary Channel defines a crucial transnational literary zone that shaped the development of the modern novel. During the first two centuries of the genre's history, Britain and France were locked in political, economic, and military struggle. The period also saw British and French writers, critics, and readers enthusiastically exchanging works, codes, and theories of the novel. Building on both nationally based literary history and comparatist work on poetics, this book rethinks the genre's evolution as marking the power and limits of modern cultural nationalism. In the Channel zone, the novel developed through interactions among texts, readers, writers, and translators that inextricably linked national literary cultures. It served as a forum to promote and critique nationalist clichés, whether from the standpoint of Enlightenment cosmopolitanism, the insurgent nationalism of colonized spaces, or the non-nationalized culture of consumption. In the process, the Channel zone promoted codes that became the genre's hallmarks, including the sentimental poetics that would shape fiction through the nineteenth century. Uniting leading critics who bridge literary history and theory, *The Literary Channel* will appeal to all readers attentive to the future of literary studies as well as those interested in the novel's development, British and French cultural history, and extra-national patterns of cultural exchange.
