Hedderman, 2011-02-15 Preparing Your Children For Goodbye is a supportive guidebook for parents who are terminally ill This book is divided into three parts End of life issues to consider How children cope with death A Life Review workbook The book will help you plan for your own end of life care prepare your children for your death and record memories of your life The book includes a Bibliography and a list of Places to Turn To for Help Your most important role as a parent is raising your

child All along you are attempting to impart into them your values as well as teach them the skills that they will need to be successful as they grow into adulthood No parent expects to leave a child to journey through life without his or her direct guidance As that day approaches and you begin to accept that you will not have the time that you thought you would the pressure mounts to prepare your child for the future The process of looking back over your life and thinking about what has mattered most to you is a natural part of facing death There is a formal discipline called Life Review in which people are encouraged to discuss and write down aspects of their past This Life Review workbook is specifically designed for use by parents of children and teenagers It includes questions to help you consider issues relating to your children as well as more general questions that will trigger memories about other parts of your life This Life Review process can be used by anyone who is interested in thinking about their own past even if they do not have children You can use the workbook on your own or with someone else It s a nice activity for two people to do together using a conversational approach An adult child could use the conversational method with an elderly parent It can be an enjoyable way to reminisce about the past and capture memories This type of conversational approach can be helpful as a tool to use with older people who are having memory problems The workbook can be used in hospice settings by hospice volunteers to use with patients who want to reflect on their lives If someone is too sick to take on a major writing project the volunteer can ask questions from the workbook to help the person recall anything that they want to have remembered A volunteer could also work with family members to explain life review ideas and introduce the workbook as something they can use on their own Any parent who wants to record family history can also use this book Perhaps you have a high risk profession in an area such as law enforcement firefighting or serve in the military and are concerned about the future Who hasn t thought What if Experiential Activities for Intercultural Learning H.
