The Mapmakers' Quest David Buisseret,2003-05-22 In 1400 Europe was behind large parts of the world in its understanding of the use of maps For instance the people of China and of Japan were considerably more advanced in this respect And yet by 1600 the Europeans had come to use maps for a huge variety of tasks and were far ahead of the rest of the world in their appreciation of the power and use of cartography The Mapmakers Quest

seeks to understand this development not only to tease out the strands of thought and practice which led to the use of maps but also to assess the ways in which such use affected European societies and economies Taking as a starting point the question of why there were so few maps in Europe in 1400 and so many by 1650 the book explores the reasons for this and its implications for European history It examines inter al how mapping and military technology advanced in tandem how modern states territories were mapped and borders drawn up the role of maps in shaping the urban environment and cartography s links to the new sciences

Sea Monsters Joseph Nigg, 2020-03-04 The mythic creature expert and author of Phoenix takes readers through a bestiary of sea monsters featured on the famous 16th century map Carta Marina In the sixteenth century sea serpents giant man eating lobsters and other monsters were thought to swim the waters of Norther Europe threatening seafarers who ventured too far from shore Thankfully Scandinavian mariners had Olaus Magnus who in 1539 charted these fantastic marine animals in his influential map of the Nordic countries the Carta Marina In Sea Monsters mythologist Joseph Nigg brings readers face to face with these creatures and other magnificent components of Magnus s map Nearly two meters wide in total the map s nine wood block panels comprise the largest and first realistic portrayal of the region But in addition to its important geographic significance Magnus s map goes beyond cartography to scenes both domestic and mystic Close to shore Magnus shows humans interacting with common sea life boats struggling to stay afloat merchants trading children swimming and fisherman pulling lines But from the offshore deeps rise some of the most terrifying sea creatures imaginable like sea swine whales as large as islands and the Kraken In this book Nigg draws on Magnus s own text to further describe and illuminate these inventive scenes and to flesh out the stories of the monsters Sea Monsters is a stunning tour of a world that still holds many secrets for us land dwellers who will forever be fascinated by reports of giant squid and the real life creatures of the deep that have proven to be as bizarre and otherworldly as we have imagined for centuries It is a gorgeous guide for enthusiasts of maps

monsters and the mythic A beautiful new exploration of the Carta Marina Wired The Races of Europe Richard McMahon, 2016-11-15 This book explores a vital but neglected chapter in the histories of nationalism racism and science It is the first comprehensive study of the transnational scientific community that in the nineteenth and early twentieth centuries attempted to classify Europe's biological races Anthropological race classifiers produced parallel geographies histories and hierarchies of European peoples that were crucial to the creation of national identities and to the overtly political race discourses of eugenics and popular racist ideologues They lent nationalism the invaluable prestige of natural science and traced the histories conflicts and relationships of national races back into prehistory Racial national character stereotypes meanwhile supported competing political ideologies The book examines the interplay between class gender and national identity narratives and the tensions and interactions between the scientific and political agendas of classifiers Within the elaborate transnational networks of scientific communities for example they had to reconcile competing national narratives

How European Citizens Understand the Economy Dorian Alt, 2023-06-02 This book argues that the European public sphere functions to help citizens understand complex economic issues and discuss them meaningfully across borders Through original research conducted on citizens' perceptions of European economic issues it explores a mechanism that allows people to make sense of such complex issues national anchoring and shows that the way issues are politicized today in a national public sphere will shape citizens' understandings of novel issues tomorrow The book demonstrates that debates in the European public sphere spread knowledge to the population just as national debates do thus allowing transnational deliberation to function in the EU and potentially advance a European identity The book thus draws optimistic conclusions with regard to EU legitimacy with the European public sphere functioning rather well and problems of complexity and compatibility seeming less pronounced than often expected in public opinion research and European studies This book will be of key interest to scholars and students of public opinion European studies political attitudes austerity politics and more broadly to political science sociology and social psychology

Atlas of European Values Loek Halman, Ruud Luijkx, Marga van Zundert, 2005-07-15 Who are the Europeans How do they think What values do they hold dear What binds them and what divides them This atlas summarizes the outcomes of the European Values Study combined with results from the World Values Survey two projects that have measured values over the past three decades The European Values Study project is run by researchers from 33 countries and is administered by Tilburg University the

Netherlands The Atlas presents European ideas and beliefs in the form of graphs charts and maps Values such as democracy freedom equality human dignity and solidarity are held by almost all Europeans but the survey points to differing views about marriage religion work and such topics as euthanasia happiness sexuality and death This unique Atlas covers all European nations from Iceland to Turkey from Portugal to the Ukraine It graphically illustrates the rich diversity that is Europe
