Scholars Guide To Geographical Writing On The American And Canadian Past:

A Scholar's Guide to Geographical Writing on the American and Canadian Past Michael P. Conzen, Thomas A. Rumney, Graeme Wynn, 1993 More than 9 000 books dissertations and articles from 1850 to 1990 are listed in this comprehensive bibliography of the historical geography of North America The entries are grouped by region and ordered by date of publication creating an especially useful tool for tracing the development of research on any region and suggesting avenues for future work Entries are easily accessed through author subject and locality indexes essays by Michael Conzen and Graeme Wynn survey the development of geographical writing in the United States and Canada **American Capitals** Christian Montès, 2014-01-10 State capitals are an indelible part of the American psyche spatial representations of state power and national identity Learning them by heart is a rite of passage in grade school a pedagogical exercise that emphasizes the importance of committing place names to memory But geographers have yet to analyze state capitals in any depth In *American Capitals* Christian Montès takes us on a well researched journey across America from Augusta to Sacramento Albany to Baton Rouge shedding light along the way on the historical circumstances that led to their appointment their success or failure and their evolution over time While all state capitals have a number of characteristics in common as symbols of the state as embodiments of political power and decision making as public spaces with private interests Montès does not interpret them through a single lens in large part because of the differences in their spatial and historical evolutionary patterns Some have remained small while others have evolved into bustling metropolises and Montès explores the dynamics of change and growth All but eleven state capitals were established in the nineteenth century thirty five before 1861 but rather astonishingly only eight of the fifty states have maintained their original capitals Despite their revered status as the most monumental and historical cities in America capitals come from surprisingly humble beginnings often plagued by instability conflict hostility and corruption Montès reminds us of the period in which they came about an era of pioneer and idealized territorial vision coupled with a still evolving American citizenry and democracy International Encyclopedia of Human Geography, 2009-07-16 The International Encyclopedia of Human Geography provides an authoritative and comprehensive source of information on the discipline of human geography and its constituent and related subject areas The encyclopedia includes over 1 000 detailed entries on philosophy and theory key concepts methods and practices biographies of notable geographers and geographical thought and praxis in different parts of the world This groundbreaking project covers every field of human geography and the discipline's relationships to other disciplines and is global in scope involving an international set of contributors Given its broad inclusive scope and unique online accessibility it is anticipated that the International Encyclopedia of Human Geography will become the major reference work for the discipline over the coming decades The Encyclopedia will be available in both limited edition print and online via ScienceDirect featuring extensive browsing searching and internal cross referencing between articles in the work plus

dynamic linking to journal articles and abstract databases making navigation flexible and easy For more information pricing options and availability visit http://info.sciencedirect.com/content/books/ref_works coming Available online on ScienceDirect and in limited edition print format Broad interdisciplinary coverage across human geography Philosophy Methods People Social Cultural Political Economic Development Health Cartography Urban Historical Regional Comprehensive and unique the first of its kind in human geography

Shapers of Urban Form Peter Larkham, Michael Conzen, 2014-06-27 People have designed cities long before there were urban designers In *Shapers of Urban Form* Peter Larkham and Michael Conzen have commissioned new scholarship on the forces people and institutions that have shaped cities from the Middle Ages to the present day Larkham and Conzen collect new essays in urban morphology the people centered predecessor to contemporary theories of top down urban design *Shapers of Urban Form* focuses on the social processes that create patterns of urban forms in four discrete periods Pre modern early modern industrial era and postmodern development Featuring studies of English American Western and Eastern European and New Zealand urban history and urban form this collection is invaluable to scholars of urban design and town planning as well as urban and economic historians

Geography in America at the Dawn of the 21st Century Gary L. Gaile, Cort J. Willmott, 2005 *Geography in America at the Dawn of the 21st Century* surveys American geographers current research in their specialty areas and tracks trends and innovations in the many subfields of geography As such it is both a state of the discipline assessment and a topical reference It includes an introduction by the editors and 47 chapters each on a specific specialty The authors of each chapter were chosen by their specialty group of the American Association of Geographers AAG Based on a process of review and revision the chapters in this volume have become truly representative of the recent scholarship of American geographers While it focuses on work since 1990 it additionally includes related prior work and work by non American geographers The initial *Geography in America* was published in 1989 and has become a benchmark reference of American geographical research during the 1980s This latest volume is completely new and features a preface written by the eminent geographer Gilbert White

Observing the Outports Jeff Webb, 2016-01-27 The years after Newfoundland's confederation with Canada were ones of rapid social and economic change as provincial resettlement and industrialization initiatives attempted to transform the lives of rural Newfoundlanders At Memorial University in St John's a new generation of faculty saw the province's transformation as a critical moment Some hoped to solve the challenges of modernization through their rural research Others hoped to document the island's traditional culture before it disappeared Between them they created the field of Newfoundland studies In *Observing the Outports* Jeff A Webb illustrates how interdisciplinary collaborations among scholars of lexicography history folklore anthropology sociology and geography laid the foundation of our understanding of Newfoundland society in an era of modernization His extensive archival research and oral history interviews illuminate how scholars at Memorial University created an intellectual movement that paralleled the province's cultural revival

Frontier Democracy Silvana R. Siddali, 2016 Frontier Democracy examines the debates over state constitutions in the antebellum Northwest Indiana Illinois Iowa Michigan Minnesota Ohio and Wisconsin from the 1820s through the 1850s This is a book about conversations in particular the fights and negotiations over the core ideals in the constitutions that brought these frontier communities to life Silvana R Siddali argues that the Northwestern debates over representation and citizenship reveal two profound commitments the first to fair deliberation and the second to ethical principles based on republicanism Christianity and science Some of these ideas succeeded brilliantly within forty years the region became an economic and demographic success story However some failed tragically racial hatred prevailed everywhere in the region in spite of reformers passionate arguments for justice and resulted in disfranchisement and even exclusion for non white Northwesterners that lasted for generations

Geographers Charles W. J. Withers, Hayden Lorimer, 2015-12-14 This twenty sixth volume of Geographers Biobibliographical Studies brings together essays on leading figures in time geography and regional theory on GIS on regional cultural and political geography on scriptural geography historical geography and methodology and on African exploration Each essay engages with the individual s contribution to geography their works and their lives and the intellectual and social contexts in which they worked and which helped shape them In addition and to mark the new co editorial pairing leading the series the volume has an essay on the history of GBS on the importance of biographical work in the history of geography and on issues to be addressed by the scholarly communities engaged in promoting this vital area of geographical research

Understanding Ordinary Landscapes Paul Groth, Paul Erling Groth, Todd W. Bressi, 1997-01-01 How does knowledge of everyday environments foster deeper understanding of both past and present cultural life Traditional studies in this field have been of rural life Here contributors explore aspects of the emergent field of urban cultural landscape studies with the challenging issues of class race ethnicity and subculture to demonstrate the value of investigating the many meanings of ordinary settings 67 illustrations

Social Memory and Heritage Tourism Methodologies Stephen P. Hanna, Amy E. Potter, E. Arnold Modlin, Perry Carter, David L. Butler, 2015-02-11 The examination of social memory and heritage tourism has grown considerably over the past few decades as scholars have critically re examined the relationships between past memories and present actions at international national and local scales Methodological innovation and reflection have accompanied theoretical advances as researchers strive to understand representations experiences thoughts emotions and identities of the various actors involved in the reproduction of social memory and heritage landscapes Social Memory and Heritage Tourism Methodologies describes and demonstrates innovations including qualitative quantitative and mixed method approaches for analysing the process and politics of remembering and touring the past through place An introductory chapter looks at the history of social memory and heritage tourism research and the particular challenges posed

by these fields of study In subsequent chapters the reader is lead through the varying methodologies employed by presenting them in the context of an in depth case study from range of geographical locations The resulting volume showcases innovative research in social memory and heritage tourism and provides the reader with insights into how they can successfully conduct their own research while avoiding common pitfalls This title will be useful reading for scholars professionals and students in tourism geography anthropology and museum studies who are preparing to conduct research on the reproduction of social memory in particular landscapes and places or are interested in investigating heritage tourism practices and representations

Place and Politics in Modern Italy John A. Agnew,2002-10 How do the places where people live help structure and restructure their sociopolitical identities and interests John A Agnew presents a theoretical model that addresses the relation of place to politics and applies it to a series of case studies set in modern Italy

Dividing the Land Edward T. Price,1995-04-15 Many property lines drawn in early America still survive today and continue to shape the landscape and character of the United States Surprisingly though no one until now has thoroughly examined the process by which land was divided into private property and distributed to settlers from the beginning of colonization to early nationhood In this unprecedented study Edward T Price covers most areas of the United States in which the initial division of land was controlled by colonial governments the original thirteen colonies and Maine Vermont Kentucky West Virginia Tennessee Louisiana and Texas By examining different land policies and the irregular pattern of property that resulted from them Price chronicles the many ways colonies managed land to promote settlement develop agriculture defend frontiers and attract investment His analysis reveals as much about land planning techniques carried to America from Europe as innovations spurred by the unique circumstances of the new world Price s analysis draws on his thorough survey of property records from the first land plans in Virginia in 1607 to empresario grants in Texas in the 1820s This breadth of data allows him to identify regional differences in allocating land assess the impact of land planning by historical figures like William Penn of Pennsylvania and Lord Baltimore of Maryland and trace changes in patterns of land division and ownership through transfers of power among Britain the Netherlands France Spain Mexico and the Republic of Texas

Time and a Place Edward MacDonald,Joshua MacFadyen,Irené Novaczek,2016-06-01 With its long and well documented history Prince Edward Island makes a compelling case study for thousands of years of human interaction with a specific ecosystem The pastoral landscapes red sandstone cliffs and small fishing villages of Canada s garden province are appealing because they appear timeless but they are as culturally constructed as they are shaped by the ebb and flow of the tides Bringing together experts from a multitude of disciplines the essays in *Time and a Place* explore the island s marine and terrestrial environment from its prehistory to its recent past Beginning with PEI s history as a blank slate a land scraped by ice and then surrounded by rising seas this mosaic of essays documents the arrival of flora fauna and humans and the different ways these inhabitants have lived in this place over time The collection offers policy insights for the province while also informing broader questions

about the value of islands and other geographically bounded spaces for the study of environmental history and the crafting of global sustainability Putting PEI at the forefront of Canadian environmental history Time and a Place is a remarkable accomplishment that will be eagerly received and read by historians geographers scholars of Canadian and island studies and environmentalists **North America** Thomas F. McIlwraith, Edward K. Muller, 2001-08-01 This classic text retains the superb scholarship of the first edition in a thoroughly revised and accessibly written new edition With both new and updated essays by distinguished American and Canadian authors the book provides a comprehensive historical overview of the formation and growth of North American regions from European exploration and colonization to the second half of the twentieth century Collectively the contributors explore the key themes of acquisition of geographical knowledge cultural transfer and acculturation frontier expansion spatial organization of society resource exploitation regional and national integration and landscape change With six new chapters redrawn maps a new introduction that explores scholarly trends in historical geography since publication of the first edition and a new final chapter guiding students to the basic sources for historical geographic enquiry North America will be an indispensable text in historical geography courses **Challenging Nature**

Philip W. Porter, 2006-03 Tanga Region Tanzania is an area of persistent rural poverty with a long history of drought floods food shortages famine and social and economic disruption Though farmers have been cultivating the land there for hundreds of years they have consistently been unable to supply adequate food for the region's inhabitants In Challenging Nature Philip Porter examines eighteen farming communities to understand what the farmers there know about their environment and which historical and economic factors play into the lack of food security Porter first began work on this project in 1972 asking 250 farmers in the region about life history environmental and agricultural changes types of crops grown and methods of planting environmental assessments agricultural practices food and water supplies training and education and attitudes toward nature Twenty years later he returned and reinterviewed as many farmers as could be found from the first survey The result contextualizes the environmental history of the region while informing current and future agricultural development
