genetics and artificial intelligence gone awry Implicit in all of these is a fear and an indictment of the power of science to invade our minds and bodies replacing the individual soul with a mechanical machine made one Focusing his analysis on sixty five popular films from Frankenstein and Metropolis to Invasion of the Body Snatchers The Terminator and Blade Runner Per Schelde brings his command of traditional folklore to this serious but eminently readable look at SF movies decoding their curious and often terrifying images as expressions of modern man's angst in the face of a rapidly advancing culture he cannot control Anyone with an interest in popular culture folklore film studies or science fiction will enjoy this original and comprehensive study
