*Seeing Children, Seeing God* Pamela D. Couture, 2000 In *Seeing Children Seeing God* Pamela Couture explores the actual and potential relation of the church and the theological school to economically and socially relationally poor children She argues that the solution to the problem of child poverty requires the shared responsibility of individuals families neighborhoods congregations governments businesses and international organizations because children develop within these multiple systems With their unique access to these multiple systems churches and theological schools are in a wonderful position to transform the social ecology within which children develop and to assist in children s flourishing Concretely what would it mean for the caring ministries of the church and those who teach and learn about them in seminary to make the issue of children and poverty central to what we do How would this change the way we live Pamela Couture argues from a Wesleyan perspective that caring for poor children is a means of grace a grace that deepens our experience as the adopted children of God She draws explicitly on recent writings that have updated the Wesleyan theological tradition *Seeing Children Seeing God* will be of particular interest to everyone who is concerned about children and poverty especially from a Wesleyan perspective Key Features Brief and accessible Offers a constructive theologically sound response to the problem of children and poverty Recognizes and shares responsibility for solutions across society but especially with the church and the seminary Key Benefits Readers will understand the dynamics and extent of the problem of children living in poverty today Readers will understand ways in which theology has undergirded efforts to deal with this problem in the past Readers will understand and identify with the specifically Christian imperative to respond to this problem Readers will understand how various groups can contributed to a concerted effort to deal with the problem Readers will understand how the church has failed to deal with this problem in the past

that undermine that well being Themes in the tradition of Catholic social teaching can move us beyond the tensions between children s rights activists and those who propose a return to family values and can inform practices of resistance participation and transformation Roche argues that children are full interdependent members of the communities of which they are a part They have a claim on the fruits of our common life and are called to participate in that life according to their age and ability The principle of the common good forms the benchmark for analyzing children s participation in the market and the ways in which market logic shapes other institutions of civil society particularly educational institutions The Cristo Rey Network of schools is highlighted as an example of institutional transformation which shapes children s participation in education and the economic life of their families and communities in a spirit of solidarity **Children, Youth, and**
