Seeking Common Ground

Jack Schafer, Joe Navarro

Seeking Common Ground:

Seeking Common Ground Andrew Fiala, Peter Admirand, 2021-08-26 *Seeking Common Ground* is a dialogue between an atheist philosopher and a Catholic theologian. It is about religion and nonreligion as well as about dialogue itself. The book provides a framework for dialogue grounded in seven key values: Harmony, Courage, Humility, Curiosity, Honesty, Compassion, and Honor. Unlike typical debates about religion and atheism, Fiala and Admirand show that atheists and theists can work together on projects of mutual understanding. They explore the terrain of religion and nonreligion, discussing a range of sources, topics, issues, and concerns, including adventures in interfaith dialogue, challenging ethical issues, problems interpreting biblical texts, the growth of secularism, and the importance of ritual and community. The authors show that it is possible to disagree about religion while also seeking common ground. The book includes a foreword by Rabbi Jack Moline, president of the U.S. Interfaith Alliance.

Seeking Common Ground Donna Gabaccia, 1992-10-30 This book is the first interdisciplinary reader focusing on immigrant women in the United States. Part I includes three chapters by a historian, a sociologist, and an anthropologist summarizing the way research on immigrant women has developed in the three disciplines. Parts II and III focusing on Immigrant Women of the Past and Immigrant Women Since 1920 provide empirical and interpretive essays on immigrant women from Europe, Latin America, and Asia. The chapters explore such themes as women in the migration process, the role of gender in the creation of American ethnic identities, and the comparability of today's immigrant women with those of the past. *Seeking Common Ground* is the first interdisciplinary reader focusing on immigrant women in the United States. By providing a basis for comparison between both different ethnic groups and different disciplinary approaches, the volume aims to encourage interdisciplinary communication and research. After the editor's introduction, the volume begins with three chapters: Part I by a historian, a sociologist, and an anthropologist summarizing the way research on immigrant women has developed in the three disciplines; Parts II and III focusing on Immigrant Women of the Past and Immigrant Women Since 1920, providing empirical and interpretive essays on immigrant women from Europe, Latin America, and Asia. The chapters explore such themes as women in the migration process, the role of gender in the creation of American ethnic identities, and the comparability of today's immigrant women with those of the past. The work will be of interest to individuals from all disciplines who are concerned with women's studies in general and immigrant women in particular.

Seeking Common Ground David B. Tyack, 2003 The American republic will survive only if its citizens are educated; this was an article of faith of its founders. But seeking common civic ground in public schools has never been easy in a society where schoolchildren followed different religions, adhered to different cultural traditions, spoke many languages, and were identified as members of different races. In this wise and enlightening book filled with vivid characters and memorable incidents that make history but don't always make history books, David Tyack describes how each American generation grappled with the knotty task of creating political unity and social diversity. *Seeking Common Ground* illuminates puzzles

about democracy in education and chronic conflicts that continue to make news Americans mistrusted government yet they entrusted the civic education of their children to public schools American history textbooks were notoriously dull but they were also highly controversial Although the people liked local control of schools educational experts called it democracy gone to seed and campaigned to take the schools out of politics Reformers argued about whether it was more democratic to teach all students the same subjects or to tailor curriculum to individuals And what was the best way to Americanize immigrants asked educators by forced fed assimilation or by honoring their ethnic heritages With a broad perspective and an eye for telling detail Tyack lets us see that debates about the civic purposes of schools are an essential part of a democratic culture and integral to its future
