**A Sociology of Seeking** Kieran Flanagan, 2023-01-30 A response to the depletion of the rhetoric of sociology and the spiritual capital of theology this volume explores the remains of Christianity that still lurk as portents in a progressively de Christianised society seeking replacements for belief With the sociologist set in the role of an oracle seeking traces of Christianity in a discipline in which

the intrusion of theological understandings has become harder to resist it offers a narrative of belief following the direction of an exemplary portent the finger Through the exploration of broad trends in culture and modern history this study informed by interactionist thought examines both the place of sociology in Christian theology and the failure of theology to connect to its surrounding culture asking how the two disciplines might meld profitably together As such it will appeal to social theorists and theologians as well as sociologists with interests in religion culture and secularisation      Sociological Noir Kieran Flanagan,2016-10-04 Contrary to secular claims regarding the expulsion of religion modernity does in fact produce unprecedented forms whose understanding re casts the relationships between sociology and theology This book explores irruptions which disturb modernity from without fragments or deposits of history that have spectral or noir properties whether ruins collective memories or the dark Gothic or the Satanic as manifested in culture The study investigates what irrupts from these depths to unsettle our understanding of modernity so as to reveal its theological roots A ground breaking and extensive work Sociological Noir explores literature history and theology to re cast the sociological imagination in ways that inspire reflection on new configurations in modernity As such it will have wide spread appeal to sociologists and social theorists with interests in religion theology and debates on postsecularism and culture      *Communicating Faith* John Sullivan,2011 This book enriches appreciation of the many ways that Christian faith is communicated It casts light on the sensitivities skills and qualities necessary for the effective communication of faith where justice is done both to the seed to be sown and to the soil being cultivated      *Liquid Sociology* Mark Davis,2016-05-13 Zygmunt Bauman s liquid sociology confronts the awesome task of reminding individual men and women that an alternative way of living together is within our eminent capabilities if only we start to think differently about our world The metaphor of liquidity which has become such a prominent feature of his writings since 2000 provides us with just such a new interpretation with a novel way of seeing Each chapter in this unique collection takes seriously Bauman s analysis of modernity as liquid throwing new light upon global social problems as well as opening up a space for assessing the nature of Bauman s contribution to sociology and for understanding what may be gained and lost by embracing an artistic sensibility within the social sciences With contributions from internationally renowned scholars this book will appeal to all those interested in Bauman s work especially within sociology social political and cultural theory and to anyone curious about the value of metaphor in interpreting the social world      The New Visibility of Religion Graham Ward,Michael Hoelzl,2008-10-09 Since the late 1980s sociologists have been drawing our attention to an international surge in the public visibility of religion This has increasingly challenged two central aspects of modern western European culture first the assumption that as we became more modern we would become more secularised and religion would disappear and secondly that religion and politics should occupy radically differentiated spheres in which private conviction did not exert itself within the public realm The new visibility of religion is not simply a matter of what Keppel famously called The Revenge of God that is the resurgence of Christian Islamic and Jewish

fundamentalism Religion is permeating western culture in many different forms from contemporary continental philosophy the arts and the media to the rhetoric of international politicians This collection of essays brings together a unique collection of voices from theology aesthetics social and political science philosophy and cultural theory in an exploration of four major aspects of this new visibility of religion the revision of the secularisation thesis the relationship between religion and violence the new re enchantment of reality and the return of metaphysics The exploration is conducted through essays by and interviews with figures at the forefront of reflecting upon this major cultural shift and its implications It is distinctively multidisciplinary examining the phenomenon of the rise of religion in Western Europe from a number of interrelated perspectives
