Jury, State, and Society in Medieval England J. Masschaele, 2008-10-27 This book portrays the great variety of work that medieval English juries carried out while highlighting the dramatic increase in demands for jury service that occurred during this period

Credit and Debt in Medieval England c.1180-c.1350 Phillipp Schofield, Nicholas Mayhew, 2002-08-07 The essays in this volume look at the mechanics of debt the legal process and its economics in early medieval England Beneath the elevated plane of high politics affairs of the Crown and international finance of the Middle Ages lurked huge numbers of credit and debt transactions The transactions and those who conducted them moved between social and economic worlds merchants and traders clerics and Jews extending and receiving credit to and from their social superiors equals and inferiors These papers build upon an established tradition of approaches to the study of credit and debt in the Middle Ages looking at the wealth of historical material from registries of debt and legal records to parliamentary roles and statutes merchant accounts rents and leases wills and probates Four of the six papers in this volume were given at a conference on Credit and debt in medieval and early modern England held in Oxford in 2000 The other two papers draw upon new important postgraduate theses Contents Introduction Phillipp Schofield Aspects of the law of debt 1189 1307 Paul Brand Christian and Jewish lending patterns and financial dealings during the twelfth and thirteenth centuries Robin R Mundill Some aspects of the business of statutory debt registries 1283 1307 Christopher McNall The English parochial clergy as investors and creditors in the first half of the fourteenth century Pamela Nightingale Access to credit in the medieval English countryside Phillipp Schofield Creditors and debtors at Oakington Cottenham and Dry Drayton Cambridgeshire 1291 1350 Chris Briggs

Yarnall Library of Theology of St. Clement's Church, Philadelphia Philadelphia. St. Clement's church. Yarnall library of theology, 1933

Reputation and Defamation Lawrence McNamara, 2007-12-13 The proposition that the tort of defamation protects reputation has long been axiomatic in the law The axiom's endurance is surprising it has long been observed that the law is riddled with inconsistencies and moreover the courts and the scholarly literature have rarely discussed exactly what reputation is and how judgments about reputation are made Reputation and Defamation develops a theory of reputation and uses it to analyze evaluate and propose a revision of the law It is the first book to present a comprehensive study of what reputation is how it functions and how it is and should be protected under the law Reputation it argues is best understood in terms of the moral judgments a community makes about its members Viewed in this way it becomes apparent contrary to the legal orthodoxy that defamation law did not really aim and function to protect reputation until the early nineteenth century A revised legal framework is proposed It rethinks how and why different criteria for moral judgment should or should not be recognized when courts determine whether an attack on reputation will be actionable as defamation It is argued that the

right thinking person should be associated with an inclusive liberal premise of equal moral worth and a shared commitment to moral diversity The proposed framework demands that when courts recognize values at odds with that premise then such recognition must be justified on sound and expressly stated ethical grounds That demand serves to protect reputation appropriately and effectively in an age of moral diversity

The Baronial Opposition to Edward II James Conway Davies,2014-04-03 Originally published in 1918 this book analyses the baronial opposition to Edward II whose reign is considered to have been one of the most disastrous for England James Conway Davies examines the features of the administrative system against which the barons eventually rebelled and details the various attacks by the barons against the royal position This book will be of value to anyone with an interest in Plantagenet history

The King's Council in England During the Middle Ages James Fosdick Baldwin,1913

Imprisonment in England and Wales Christopher Harding,Bill Hines,Richard Ireland,Philip Rawlings,2023-10-25 Originally published in 1985 Imprisonment in England and Wales is an account of the changing functions and conditions of imprisonment in England and Wales from the Medieval period to the present day It is designed both as a text for students and teachers of history law and social science and as an introduction to the subject for more general readers and is one of the few attempts to provide an overall view of the institution of imprisonment in this country over a period of several centuries The authors have made use of original sources and other research to provide an accessible account of the subject combining essential factual detail with an analysis of the use of imprisonment It is therefore particularly of interest to those approaching the subject for the first time and is also intended to provide guidance for further research into particular areas of the subject The authors draw upon their respective knowledge of four main periods to show how imprisonment has performed a number of different functions the punishment and reform of convicted offenders the coercion of debtors the custody of persons awaiting trial and more generally the containment of society's undesirables At the same time the institution of imprisonment is put into the context of wider social political and economic forces and related to the development of an increasingly centralised and incursive system of criminal law as well as to the use and disuse of other forms of punishment and legal control This discussion is supported by an account of the characteristics of prisons the problems of administration and the implementation of penal and reformatory policy

Literature and Complaint in England 1272-1553 Wendy Scase,2007-03-29 Literature and Complaint in England 1272 1553 gives an entirely new and original perspective on the relations between early judicial process and the development of literature in England Wendy Scase argues that texts ranging from political libels and pamphlets to laments of the unrequited lover constitute a literature shaped by the new and crucial role of complaint in the law courts She describes how complaint took on central importance in the development of institutions such as Parliament and the common law in later medieval England and argues that these

developments shaped a literature of complaint within and beyond the judicial process She traces the story of the literature of complaint from the earliest written bills and their links with early complaint poems in English French and Latin through writings associated with political crises of the fourteenth and fifteenth centuries to the libels and petitionary pamphlets of Reformation England A final chapter which includes analyses of works by Chaucer Hoccleve and related writers proposes far reaching revisions to current histories of the arts of composition in medieval England Throughout close attention is paid to the forms and language of complaint writing and to the emergence of an infrastructure for the production of plaint texts and many images of complaints and petitions are included The texts discussed include works by well known authors as well as little known libels and pamphlets from across the period **Journal of the Society for Army Historical Research** ,1923

Apportionment in Private Law Kit Barker,Ross Grantham,2018-12-13 This collection of essays investigates the way in which modern private law apportions responsibility between multiple parties who are or may be responsible for the same legal event It examines both doctrines and principles that share responsibility between plaintiffs and defendants on the one hand and between multiple defendants on the other The doctrines examined include those originating doctrines which operate to create shared liabilities in the first place such as vicarious and accessorial liability and more centrally those doctrines that operate to distribute the liabilities and responsibilities so created These include the doctrine of contributory comparative negligence joint and several solidary liability contribution reimbursement and proportionate liability as well as defences and principles of equitable allowance that permit both losses and gains to be shared between parties to civil proceedings The work also considers the principles which apportion liability between multiple defendants and insurers in cases in which the cause or timing of a particular loss is hard to determine The contributions to this volume offer important perspectives on the law in the UK USA Canada Australia and New Zealand as well as a number of civilian jurisdictions They explicate the main rules and trends and offer critical insights on the growth and distribution of shared responsibilities from a number of different perspectives historical comparative empirical doctrinal and philosophical **Cambridge Studies in Criminology** ,1960 Surrey Record Society ,1929 **Reference Catalogue of Current Literature** ,1928
