

A serene sunset scene over a calm body of water. The sun is a bright, glowing orb in the upper left, casting a long, shimmering reflection down the center of the water. A small, dark boat is visible on the water, positioned near the reflection of the sun. The horizon is a dark, silhouetted line of land or trees. The sky is a gradient of warm orange and yellow tones.

Memory Cultures Susannah Radstone, Katharine Hodgkin, In recent years memory has attracted increasing attention From analyses of electronic communication and the Internet to discussions of heritage culture to debates about victimhood and sexual abuse memory is currently generating much cultural interest This interdisciplinary collection takes a journey through memory in order to contextualize this current memory boom

Memory Cultures focuses on memories outside in the many fields within which understandings of memory have been

produced It focuses less on memory as an object whose inner workings are to be studied and more on memory as a concept It traces the genealogies of our contemporary Western understandings of memory through studies of the early modern arts of memory It also discusses nineteenth century evolutionary museums and the modernist explorations of artists and writers Here it explores the differences between Western and non Western concepts of the lived past and compares understandings of memory in history psychoanalysis and anthropology The volume is divided into five parts Believing the Body Propping the Subject What Memory Forgets Models of the Mind What History Forgets Memory and Time and Memory Beyond the Modern Individual essays by many of the foremost international scholars in memory studies trace memory s intimate association with identity and recognition with cities with lived time with the science of the mind with fantasy and with the media Memory Cultures will be of essential interest to those working in the fields of cultural studies history and also anthropology Susannah Radstone and Katharine Hodgkin teach in the School of Cultural and Innovation Studies at the University of East London

Volume 11, Tome I: Kierkegaard's Influence on Philosophy Jon Stewart, 2016-12-05 Kierkegaard s relation to the field of philosophy is a particularly complex and disputed one He rejected the model of philosophical inquiry that was mainstream in his day and was careful to have his pseudonymous authors repeatedly disassociate themselves from philosophy But although it seems clear that Kierkegaard never regarded himself as a philosopher there can be no doubt that his writings contain philosophical ideas and insights and have been profoundly influential in a number of different philosophical traditions The present volume documents these different traditions of the philosophical reception of Kierkegaard s thought and the articles featured demonstrate the vast reach of Kierkegaard s writings in philosophical contexts that were often quite different from his own Tome I is dedicated to exploring the reception of Kierkegaard in Germanophone and Scandinavian philosophy Kierkegaard has been a major influence for such different philosophical projects as phenomenology hermeneutics dialogical thinking critical theory Marxism logical positivism and ordinary language philosophy Similarly in Denmark and Norway Kierkegaard s writings have been more or less constantly discussed by important philosophers despite the later dominance of analytic philosophy in these countries The present tome features articles on the leading Germanophone and Scandinavian philosophers influenced by Kierkegaard s thought *The Dialectics of Music* Joseph Weiss, 2021-05-20 Combining the philosophy and musicology of T W Adorno Walter Benjamin and Gilles Deleuze alongside an exploration of the dialectical character of music production Joseph Weiss exposes the unresolved contradictions of contemporary music By following the outermost mediations between nature history and technology the book reflects on how advanced music critically responds to the ongoing catastrophe of both the Middle Passage and Auschwitz Following what the author calls the categorical imperative of music Weiss investigates the significance of a wide range of musical phenomena including the territorialization of the lullaby the improvisation and sorrow song of the blues and jazz as well as the cosmological limits of the electroacoustic avant garde In the era of commodity production racialized violence and dispossession the author defends critical music as a

singular index of political possibilities Selected Writings, Volume 2 Okwui Enwezor, 2025-08-05 Selected Writings is a landmark two volume set of writings by the transformational art curator Okwui Enwezor that demonstrates his tireless efforts to decolonize the global contemporary art world *The Afterlife of Texts in Translation* Edmund Chapman, 2019-11-14 *The Afterlife of Texts in Translation* Understanding the Messianic in Literature reads Walter Benjamin's and Jacques Derrida's writings on translation as suggesting that texts exist within a process of continual translation Understanding Benjamin's and Derrida's concept of afterlife as overliving this book proposes that reading Benjamin's and Derrida's writings on translation in terms of their wider thought on language and history suggests that textuality itself possesses a messianic quality Developing this idea in relation to the many rewritings and translations of Don Quixote particularly the multiple rewritings by Jorge Luis Borges Edmund Chapman asserts that texts consist of a structure of potential for endless translation that continually promises the overcoming of language history and textuality itself The Aesthetic Ground of Critical Theory Nathan Ross, 2015-08-27 Walter Benjamin and Theodor W Adorno are considered today to be the two most significant early theorists in founding critical theory In their works and correspondence both thinkers turn to art and the aesthetic as a vital way for understanding modern society and developing philosophical methods This volume of original essays seeks to understand how they influenced each other and disagreed with each other on fundamental questions about art and the aesthetic The book deals with a variety of key philosophical questions such as How does art involve distinctive modes of experience What is the political significance of modern art What does aesthetic experience teach us about the limitations of conceptual thought How is aesthetic experience implicated in the very medium of thought language Ultimately the book presents a systematic argument for the foundational significance of the aesthetic in the development of the early critical theory movement Kafka and the Universal Arthur Cools, Vivian Liska, 2016-07-25 Kafka's work has been attributed a universal significance and is often regarded as the ultimate witness of the human condition in the twentieth century Yet his work is also considered paradigmatic for the expression of the singular that cannot be subsumed under any generalization This paradox engenders questions not only concerning the meaning of the universal as it manifests itself in and is transformed by Kafka's writings but also about the expression of the singular in literary fiction as it challenges the opposition between the universal and the singular The contributions in this volume approach these questions from a variety of perspectives They are structured according to the following issues ambiguity as a tool of deconstructing the pre-established philosophical meanings of the universal the concept of the law as a major symbol for the universal meaning of Kafka's writings the presence of animals in Kafka's texts the modernist mode of writing as challenge of philosophical concepts of the universal and the meaning and relevance of the universal in contemporary Kafka reception This volume examines central aspects of the interplay between philosophy and literature
