Jenkins, 2015-04-27 A History of Modernist Poetry examines innovative anglophone poetries from decadence to the post war period The first of its three parts considers formal and contextual issues including myth politics gender and race while the second and third parts discuss a wide range of individual

Writers Directory NA NA, 2016-03-05 **Resistance to Science in Contemporary American Poetry** Bryan

Walpert, 2011-09-26 This book examines types of resistance in contemporary poetry to the authority of scientific knowledge tracing the source of these resistances to both their literary precedents and the scientific zeitgeists that helped to produce them Walpert argues that contemporary poetry offers a palimpsest of resistance using as case studies the poets Alison Hawthorne Deming Pattiann Rogers Albert Goldbarth and Joan Retallack to trace the recapitulation of romantic arguments inherited from Keats Shelly and Coleridge which in turn were produced in part in response to Newtonian physics modernist arguments inherited from Eliot and Pound arguments influenced in part by relativity and quantum theory and postmodernist arguments arguments informed by post structuralist theory e g Barthes Derrida Foucault with affinities to arguments for the limitations of science in the philosophy sociology and rhetoric of science Some of these poems reveal the discursive ideologies of scientific language reveal in other words the performativity of scientific language In doing so these poems themselves can also be read as performative acts and therefore as forms of intervention rather than representation Reading Retallack alongside science studies scholar Karen Barad the book concludes by proposing that viewing knowledge as a form of intervention rather than representation offers a bridge between contemporary poetry and science British Literature in Transition, 1920-1940: Futility and Anarchy Charles Ferrall, Dougal McNeill, 2018-12-20 Literature from the political 1930s has often been read in contrast to the aesthetic 1920s This collection suggests a different approach Drawing on recent work expanding our sense of the political and aesthetic energies of interwar modernisms these chapters track transitions in British literature The strains of national break up class dissension and political instability provoked a new literary order and reading across the two decades between the wars exposes the continuing pressure of these transitions Instead of following familiar markers 1922 the Crash the Spanish Civil War or isolating particular themes from literary study this collection takes key problems and dilemmas from literature in transition and reads them across familiar and unfamiliar cultural works and productions in their rich and contradictory context of publication Themes such as gender sexuality nation and class are thus present throughout these essays Major writers such as Woolf are read alongside forgotten and marginalised voices
