Single Blessedness Observations On The Single Status In Married Society:

Single Blessedness Margaret Adams, 1978 **Singleness in Britain, 1960-1990: Identity, Gender and Social Change** Emily Priscott, 2020-07-07 This book contributes to an emerging field of research looking at the significance of marital status to debates about identity and gender. It examines representations and experiences of single men and women between 1960 and 1990 using a wide variety of sources including digitized British newspapers, social research films and lifestyle literature. Whilst much existing work focuses on the early to mid 20th centuries such as Katherine Holden's ground-breaking work *The Shadow of Marriage* (1914), this book alternatively examines the impact of the 1960s and the aftermath of changing attitudes to singleness. While Holden and others such as Virginia Nicholson in *Singled Out* focus largely on social status and lived experience often through oral testimony, the author is just as interested in finding new ways of looking at gender and sexuality. This work starts from the premise that a distinct double standard existed in attitudes towards single men and women which continued even after the wave of legislation to improve women's status during the 1960s. Examining these often vastly different expectations reveals a complex web of progress, continuity and contradictions, highlighting the uneven pace of social change and its frequent compromises and limitations. Using theoretical approaches such as feminism and queer theory, this work explores the impact of changing gender norms on issues including single fatherhood, old maid stereotypes and experiences of homelessness. It can be used as a study aid for 20th century British history and gender studies courses and might also interest both established academics and intellectually curious non-academic readers. The author has made efforts where possible to clearly explain her theoretical approaches and interventions for those who might be unfamiliar with them.

Redeeming Singleness Rev. HyoJu Lee Ph.D, 2017-02-16 Have you made a New Year's resolution to get married out of nowhere? Did it work? When the author turned thirty, she put getting married on her New Year's resolution list not because she wanted to get married or had a boyfriend but because of social pressure in which she lived. Social pressure made her think that if she wanted to ever get married, it was better to do so sooner than later. For three consecutive years, she prayed about it and made efforts to form relationships. After three years passed by, she was still single and unhappy. As she reflected on her unhappiness, she finally realized that she was not happy because she was not able to accomplish a goal that was ultimately out of her control. How absurd it was to put get married on my New Year's resolution. As she eliminated marriage from her New Year's resolutions and focused on what she really wanted to do with her life, her energy level was boosted. Although she did not have any tool to frame her singleness, she happened to choose the best course for her. Only if she knew the socially constructed characteristics of marriage, the first three years of her thirties would have been different. The author hopes ministers and never married single women can learn what we think is normal is a very contextual product. The author invites never married single women to own their own stories instead of being owned by metanarratives in their lives.

Handbook of Marriage and the Family Marvin B. Sussman, Suzanne K. Steinmetz, Gary

W. Peterson, 2013-06-29 To know where we are going as scholars educators and practitioners in the field of marriage and family life we first need to know where we have been A perusal of early texts on marriage and family life provides some thought provoking insights into the accuracy of the saying what goes around comes around It is interesting to note who has been considered to be in a position to provide information on marriage and family life Included in the eclectic collection of texts we reviewed were ministers whose focus was on spirituality doctors who emphasized medical aspects of child and adult health and public health professionals and home economists concerned with fighting disease who emphasized cleanliness order fighting germs and eliminating rodents and insects There are also philosophers who drew from ancient texts when discussing family life and a count who assembled a group of German intellectual elites to address various topics An insightful essay of this type is by Marta Karlweis 1926 in which she notes There is no other fetish that society holds to so firmly as the conception woman with all its usual associations of infantilism and dependence The child requires protection is a minor and consequently a serf but above all it possesses no spiritual existence Neither doctorates or other distinctions nor the right to vote have as yet been able to dispel this sweet idea of the childishness of woman which man cherishes p

Women's Progress Jeanne Spurlock, Carolyn B. Robinowitz, 2013-06-29 Now 25 years into our country's most recent women's movement for equality it is appropriate to reexamine the social and cultural experiences of women Thanks to the media researchers clinicians and the general public all are aware that women have been unable to realize many of their goals At times distress rather than satisfaction and rejection and disappointment rather than contentment have been the result of the ongoing struggle of women to achieve change the change in attitudes behavior and values necessary to broaden the personal choices and work options open to women Nationally recognized authorities on several of the sociocultural issues addressed in this volume the editors invited noted scholars and clinicians to study some of those issues particularly relevant to women These include frequently neglected topics such as the multiplicity of responsibilities of single women and the spectrum of mothering roles and those more commonly discussed such as the various roles and patterns in the family work options and burdens and interpersonal relationships The volume provides insightful detail on two prominent and poignant problems of the 1980s the causes and repercussions of homelessness and sexual life styles Such material may facilitate understanding and serve as a catalyst for positive action
