Single Combat:

Single Combat and Warfare in German Literature of the High Middle Ages Rachel E. Kellett, 2008 Combat is one of the central themes of Middle High German narrative literature and of significant interest to medievalists in general Nevertheless few studies to date have attempted a detailed analysis of the depiction of combat in literary texts Rachel Kellett uses an inclusive approach to the details of combat descriptions in order to analyse minutely the scenes of single combat and battle presented in two major narrative works by Der Stricker the epic Karl der Grosse and the Arthurian romance Daniel von dem Bluhenden Tal written between 1220 and 1250 The author compares these works with a wide range of other texts both French and German and investigates the relationship between Stricker's depiction of combat and that found in the works of Hartmann von Aue and Wolfram von Eschenbach among others She also draws on historical research into medieval warfare tournament and the tradition of the judicial combat which adds valuable depth to her analysis of literary texts Overall this study provides new insights into the depiction of combat in Middle High German literature as a whole while at the same time highlighting hitherto unnoticed aspects of the writings of Der Stricker as an individual author and bringing a new perspective on the ambiguous role played by combat in the equally ambiguous Daniel von dem Bluhenden Tal **The Duello, Or, Single Combat: from Antiquity Derived Into this Kingdom of England; with Several Kinds and Ceremonious Forms Thereof from Good Authority Described** John Selden, 1711* **The Dvello Or Single Combat** John Selden, 1610

Battles and Generals: Combat, Culture, and Didacticism in Procopius' Wars Conor Whately, 2016-03-17 In Battles and Generals Combat Culture and Didacticism in Procopius Wars Whately reads Procopius descriptions of combat through the lens of didacticism arguing that one of Procopius intentions was to construct those accounts not only so that they might be entertaining to his audience but also so that they might provide real value to his readership which was comprised in part of the empire's military command In the course of this analysis we discover that the varied battles and sieges that Procopius describes are not generic rather they have been crafted to reflect the nature of combat as understood by Procopius on the three fronts of Justinian's wars the frontier with Persia Vandal north Africa and Gothic Italy **The Right Stuff** Tom Wolfe, 2008-03-04 Tom Wolfe at his very best The New York Times Book Review The Right Stuff is the basis for the 1983 Oscar Award winning film of the same name and the 8 part Disney TV mini series From America's nerviest journalist Newsweek a breath taking epic a magnificent adventure story and an investigation into the true heroism and courage of the first Americans to conquer space Millions of words have poured forth about man's trip to the moon but until now few people have had a sense of the most engrossing side of the adventure namely what went on in the minds of the astronauts themselves in space on the moon and even during certain odysseys on earth It is this the inner life of the astronauts that Tom Wolfe describes with his almost uncanny empathetic powers that made The Right Stuff a classic *Index des motifs narratifs dans les romans arthuriens français en vers* Anita Guerreau-Jalabert, 1992 **Structures of Epic Poetry**

Christiane Reitz, Simone Finkmann, 2019-12-16 This compendium 4 vols studies the continuity flexibility and variation of structural elements in epic narratives It provides an overview of the structural patterns of epic poetry by means of a standardized stringent terminology Both diachronic developments and changes within individual epics are scrutinized in order to provide a comprehensive structural approach and a key to intra and intertextual characteristics of ancient epic poetry
