specific topics from abortion to world systems theory In addition nine major entries cover each of the major disciplines political economy management and business human geography politics sociology law psychology organizational behavior and the history and development of the social sciences in a broader sense Theory and Method in Religious Studies Frank Whaling,2012-10-25 This paperback edition contains selected articles from the original clothbound editions of Contemporary Approaches to The Study of Religion Vol I The Humanities Vol II The Social Sciences Religion and Reason 27 28 *Christian Couples Coping with Childlessness* Auli Vahakangas,2009-06-01 Children are the focus of marriage in African cultures Marriage is considered full and functional only if the couple has children in many cultures preferably a boy Becoming a parent also contributes to one s full adulthood in the sense that childlessness blocks ascent towards full personal dignity as an adult person in the community As a result childlessness is often a major disaster for both of the spouses It has social economical and personal consequences quite often including divorce This book explores in depth how childlessness is perceived dealt with and coped with in two Christian communities in Machame on the slopes of Mt Kilimanjaro Childlessness is approached through narratives of the spouses concerned and the members of their communities Their stories reveal pain and courage brokenness and strength faithfulness and betrayal Christianity presents itself in an ambiguous light on one hand pressuring spouses to keep up facades supporting oppressive structures On the other hand Christian faith provides childless couples with personal hope in the afterlife that the African traditional culture offers only to those with children This study proves that childlessness is not only a personal but also a communal problem Childlessness and the fear of having no children contribute to family structures and sexual behavior In this way they have a considerable impact on the spread of HIV AIDS in Africa However this study reveals that the attitudes and practices towards marriage and children need not be petrified but rather that traditions can and do change **Essential Concepts in Sociology** Anthony Giddens,Philip W. Sutton,2021-05-04 Social life is in a constant process of change and sociology can never stand still As a result contemporary sociology is a theoretically diverse enterprise covering a huge range of subjects and drawing on a broad array of research methods Central to this endeavour is the use of core concepts and ideas which allow sociologists to make sense of societies though our understanding of these concepts necessarily evolves and changes This clear and jargon free book introduces a careful selection of essential concepts that have helped to shape sociology and continue to do so Going beyond brief dictionary style definitions Anthony Giddens and Philip W Sutton provide an extended discussion of each concept which sets it in historical and theoretical context explores its main meanings in use introduces relevant criticisms and points readers to its ongoing development in contemporary research and theorizing Organized in ten thematic sections the book offers a portrait of sociology through its essential concepts ranging from capitalism identity and deviance to the digital revolution environment postcolonialism and intersectionality It will be essential reading for all those new to sociology as well as anyone seeking a reliable route map for a rapidly changing world The Humanities Frank Whaling,2019-10-08 No detailed
