Training can be a particular challenge at large multi-branch library systems because it can be difficult to ensure all staff are able to receive the relevant information. Written for library managers and training leaders, *A Complete Guide to Training Library Staff* presents a comprehensive lifecycle for staff development with a focus on tools and techniques to build a sustainable training program, set staff up for success in their positions, and develop a positive and supportive community across the library. Authors Emily Leachman and A Garrison Libby spearheaded their library's movement to largely online trainings which are inclusive of staff at all branch locations. This practical guidebook helps managers and trainers develop a comprehensive plan that allows new staff to quickly become acquainted with the operations of the library, provides ongoing training to make staff aware of new procedures and services, and creates a collaborative and supportive training environment to empower staff to learn and lead.
