Native Plants of Commercial Importance Richard Alan Miller, 1988. Miller answers the problem of supplementing rural incomes for any region of North America. Many of the plants discussed have long been used in medicinal, cosmetic, food and floral industries in sufficient quantities to make them commercially important. This book describes these and other forest products, dividing North America into five regions. Each region contains a description of ten common crops now being harvested with details and a special appendix on marketing. Forest farming is stressed to make each crop renewable and self-generating as a natural resource.

700 Conscientiology Experiments Waldo Vieira, 2018-08-22. A reference work on conscientiology, this treatise with more than 5 000 entries in the bibliography, first published in Portuguese in 1994, presents the reader with the bases of the neoscience conscientiology. The author proposes 300 tests for self-application dealing with topics of great relevance such as assistance, the theory of thought, sentiment and energy and the theories of inversion and existential recycling among others. The work presents conscientiology as the science applied to the study of consciousness, ego, personality in an integral approach with all its vehicles of manifestation, bodies, previous existences and attributes. The content is deepened and presented in a theoretical and practical way so a reader understands the importance of this knowledge to their life. The science of conscientiology utilizes the best of the main lines of human knowledge: common sense, religion, philosophy, political ideology and conventional science, and is based on multidimensional self-experience, having consciousness as both the instrument and object of research.

Secrets of Western Sex Magic U. D. Frater, U. D. (Frater), 2001. HARNESS THE MOST POWERFUL ENERGIES YOU HAVE EVER EXPERIENCED. Unlock the powerful energies raised during the sex act and use them to manifest your deepest desires. During the sex act, your attention becomes focused into a laser beam of concentration. This power of concentrated thought is the foundation of all magical systems. Sex Magic's secret is that it is a tremendously powerful and easily learned way to consciously direct sexual energy and accomplish material and personal goals. Male and female energies are often

entirely different and it would be folly to deny this but experience shows that female magicians can be particularly successful in using and developing Sex Magic Consequently this book is aimed at both male and female readers unlike more traditional teachings written for men Of all secret lore Sex Magic has been reputed through the centuries to be the most dangerous Today we know that this attitude was largely a reflection of the hostility held towards the flesh held by repressive religions If we learn one thing from the shamanic cultures it is the strong emphasis upon the role of the body in magic Mind and Body are two facets of the One Thing in which Will Imagination and Gnostic Trance are the three pillars of success Contrary to the principles of Eastern Tantra Western Sex Magic emphasizes the importance of actual orgasm both male and female Orgasm is the moment when the walls between consciousness and subconsciousness are sundered and direct access to the deeper levels of the psyche become possible freeing up possible paranormal powers Orgasm itself is sufficient to achieve gnostic trance provided that control is maintained and one does not simply lose consciousness as most people do at the moment of ecstasy Secrets Western Sex Magic teaches one of the oldest disciplines of this secret lore It is a complete system of Sex Magic in theory and practice with exercises to develop related abilities for visualization concentration breath control psychic energy arousal and flow along with full instructions on the projection of sexual energies for healing and manifestation their use in Sigil Magic and the charging of Amulets Talismans Group Ritual and the assumption of god forms when working as a priestly couple and the divine Chymical Marriage of ultimate union This book is also an introduction to the entire field of practical magic using our natural interest and involvement in sexual pleasure to illustrate and develop magical abilities and techniques
