Magical Realism Theory History Community:

Magical Realism Lois Parkinson Zamora, Wendy B. Faris, 1995 On magical realism in literature *Magical Realism* Lois Parkinson Zamora, Wendy B. Faris, 1997 Ordinary Enchantments Wendy B. Faris, 2004 Ordinary Enchantments investigates magical realism as the most important trend in contemporary international fiction defines its characteristics and narrative techniques and proposes a new theory to explain its significance In the most comprehensive critical treatment of this literary mode to date Wendy B Faris discusses a rich array of examples from magical realist novels around the world including the work not only of Latin American writers like Gabriel Garcia Marquez but also of authors like Salman Rushdie Gunter Grass Toni Morrison and Ben Okri Faris argues that by combining realistic representation with fantastic elements so that the marvelous seems to grow organically out of the ordinary magical realism destabilizes the dominant form of realism based on empirical definitions of reality gives it visionary power and thus constitutes what might be called a remystification of narrative in the West Noting the radical narrative heterogeneity of magical realism the author compares its cultural role to that of traditional shamanic performance which joins the worlds of daily life and that of the spirits Because of that capacity to bridge different worlds magical realism has served as an effective decolonizing agent providing the ground for marginal voices submerged traditions and emergent literatures to develop and create masterpieces At the same time this process is not limited to postcolonial situations but constitutes a global trend that replenishes realism from within In addition to describing what many consider to be the progressive cultural work of magical realism Faris also confronts the recent accusation that magical realism and its study as a global phenomenon can be seen as a form of commodification and an imposition of cultural homogeneity And finally drawing on the narrative innovations and cultural scenarios that magical realism enacts she extends those principles toward issues of gender and the possibility of a female element within magical realism *Magical Realism in Twenty-First-Century Transnational Fiction* D. Chichester, 2025-09-25 *Magical Realism in Twenty First Century Transnational Fiction* The Global Supernatural offers a much needed re evaluation of magical realism moving beyond traditional postcolonial frameworks to explore its vibrant evolution in the 21st century Analysing the works of contemporary authors like Helen Oyeyemi Mohsin Hamid Preeta Samarasan and Junot Diaz this book explores how magical realism has been adapted to depict the complex fluid identities and experiences of migrants and their children in a globalised world By employing the psychoanalytic concept of relationality it examines the intricate interplay between cultures beliefs and personal narratives Challenging outdated notions of magic versus realism this study reveals how the supernatural is used to express the disorientation paradox and trauma of transnational lives This book is essential for anyone seeking to understand the enduring creative power of magical realism **Magical Realism and the History of the Emotions in Latin America** Jerónimo Arellano, 2015-05-21 Iconoclastic in spirit *Magical Realism and the History of the Emotions in Latin America* is the first study of affect and emotion in magical realist literature Against the grain of a vast body of

scholarship it argues that magical realism is neither exotic commodity nor postcolonial resistance but an art form fueled by a search for spaces of wonder in a disenchanted world Linking the rise and fall of magical realism and kindred narrative forms to the shifting value of wonder as an emotional experience this thought provoking study proposes a radical new approach to canonical novels such as One Hundred Years of Solitude Received as one of the most convincing manifestations of the turn to affect in contemporary Latin American critical thought Magical Realism and the History of the Emotions draws on affect theory the history of emotions and new materialism to reframe key questions in Latin American literature and culture
