*The Heart of the World* Ian Baker,2006-05-02 The myth of Shangri la originates in Tibetan Buddhist beliefs in beyul or hidden lands sacred sanctuaries that reveal themselves to devout pilgrims and in times of crisis The more remote and inaccessible the beyul the vaster its reputed qualities Ancient Tibetan prophecies declare that the greatest of all hidden lands lies at the heart of the forbidding Tsangpo Gorge deep in the Himalayas and veiled by a colossal waterfall Nineteenth century accounts of this fabled waterfall inspired a series of ill fated European expeditions that ended prematurely in 1925 when the intrepid British plant collector Frank Kingdon Ward penetrated all but a five mile section of the Tsangpo s innermost gorge and declared that the falls were no more than a religious myth and a romance of geography The heart of the Tsangpo Gorge remained a blank spot on the map of world exploration until world class climber and Buddhist scholar Ian Baker delved into the legends Whatever cryptic Tibetan scrolls or past explorers had said about the Tsangpo s innermost gorge Baker determined could be verified only by exploring the uncharted five mile gap After several years of encountering sheer cliffs

maelstroms of impassable white water and dense leech infested jungles on the last of a series of extraordinary expeditions Baker and his National Geographic sponsored team reached the depths of the Tsangpo Gorge They made news worldwide by finding there a 108 foot high waterfall the legendary grail of Western explorers and Tibetan seekers alike The Heart of the World is one of the most captivating stories of exploration and discovery in recent memory an extraordinary journey to one of the wildest and most inaccessible places on earth and a pilgrimage to the heart of the Tibetan Buddhist faith *The Roots of Transcendence* Edward Bruce Bynum,2006-09-01 Critical Acclaim for The Roots of Transcendence From the Scholars This is a powerful book A true picture of the cross fertilization of human history and culture A major book one of the signposts of the time Molefi Kete Asante PhD Chairman Department of African American Studies Temple University Author Afrocentricity and Rhythms Unity From the Psychiatrists A PIONEERING TEXT in Transego Psychology The author envisions the next step in the development of human psychology He raises the new question that the self is not localized in the mind but is non local a field of interconnected relations A valuable model is presented to define psychopathological diagnostic issues and therapeutic treatment issues Truly wonderful Richard D King MD From the Preface Author African Origin of Biological Psychiatry From the Consciousness Researchers A daring leap involving new conceptual models Discusses the anxieties and stresses of our time while IT PROVIDES READERS THE TOOLS BY WHICH ANXIETIES AND STRESSES CAN BE ADDRESSED Stanley Krippner PhD Distinguished Professor of Psychology California Institute of Integral Studies Author Dreamtime and Dreamwork and Your Personal Mythology A mighty synthesis of knowledge and feeling science and poetry clinical observation and spiritual insight which SPEAKS POWERFULLY TO LAY AND PROFESSIONAL PEOPLE ALIKE An important contribution to our understanding of the mind and its operation in the world John White MAT Author Future Science and Kundalini Evolution and Enlightenment Here is the epic adventure of the rise and unfolding of human consciousness from its earliest days millennia ago on through the first civilizations and down to contemporary times The mythic Mitochondrial DNA mother of humanity of 10 000 generations ago is used to personalize this journey for readers a journey seen to be an integral part of each of us This includes not only her shared African gene pool but also the neuro biologically interwoven evolutionary impulse How different personalities deal with this intelligent and luminous current is the primary thrust of this groundbreaking book that readers will find of extraordinary value in the exploration of human consciousness Edward Bruce Bynum PhD is a clinical psychologist family therapist and Director of the Behavioral Medicine and Biofeedback Clinic University of Massachusetts Health Services He is the author of The Family Unconscious and Families and the Interpretation of Dreams He has published widely in both popular and professional journals Some of his work has been translated into German Japanese and Russian He is a student and a practitioner of Kundalini Yoga **On Becoming Aware** Nathalie Depraz,Francisco J. Varela,Pierre Vermersch,2003-03-20 This book searches for the sources and means for a disciplined practical approach to exploring human experience The spirit of this book is pragmatic and relies on a

Husserlian phenomenology primarily understood as a method of exploring our experience The authors do not aim at a neo Kantian a priori new theory of experience but instead they describe a concrete activity how we examine what we live through how we become aware of our own mental life The range of experiences of which we can become aware is vast all the normal dimensions of human life perception motion memory imagination speech everyday social interactions cognitive events that can be precisely defined as tasks in laboratory experiments e g a protocol for visual attention but also manifestations of mental life more fraught with meaning dreaming intense emotions social tensions altered states of consciousness The central assertion in this work is that this immanent ability is habitually ignored or at best practiced unsystematically that is to say blindly Exploring human experience amounts to developing and cultivating this basic ability through specific training Only a hands on non dogmatic approach can lead to progress and that is what animates this book Series B

**Platonic Mysticism** Arthur Versluis,2017-08-16 Restores the Platonic history and context of mysticism and shows how it helps us understand more deeply the humanities as a whole from philosophy and literature to art In Platonic Mysticism Arthur Versluis clearly and tautly argues that mysticism must be properly understood as belonging to the great tradition of Platonism He demonstrates how mysticism was historically understood in Western philosophical and religious traditions and emphatically rejects externalist approaches to esoteric religion Instead he develops a new theoretical critical model for understanding mystical literature and the humanities as a whole from philosophy and literature to art A sequel to his Restoring Paradise this is an audacious book that places Platonic mysticism in the context of contemporary cognitive and other approaches to the study of religion and presents an emerging model for the new field of contemplative science An important work on the mystical experience delving deep into its history particularly from the Platonic perspective An essential text for anyone interested in mysticism and its relationship to philosophy and creative expression Andrew Newberg author of How Enlightenment Changes Your Brain The New Science of Transformation The present work the latest from the pen of Arthur Versluis provides a trenchant learned and illuminating analysis of the origins of Western mysticism in the Platonist tradition relayed through such figures as Plotinus and Dionysius the Areopagite down through Meister Eckhart and others while suitably excoriating the attempts of certain modern philosophers and sociologists of religion to deconstruct it from a materialist perspective I found it a rattling good read John Dillon author of The Heirs of Plato A Study of the Old Academy 347 274 BC
