

MARTHA MOULSWORTH

"My Name Was Martha": A Renaissance Woman's Autobiographical Poem. Martha Moulsworth

Martha Moulsworth is known as a writer from a single autobiographical poem which is analyzed from feminist perspective. The fact that it is by a woman adds to its importance. Her poem also suggests a highly complex attitude toward her status in a rigidly patriarchal society, including her relations with her God, her father, and her three successive husbands.

Martha opens her chronological account of her life by presenting herself as part of the male academic tradition when she elaborates on the education that she received from her father.

Chapter 2 talks about of the various roles and experiences of Renaissance women. This chapter focuses on women's roles as daughters, wives, and widows, and it also looks at the status and limits of women's education during the early modern period. Chapter 3 attempts to view the poem specifically as a piece of autobiographical writing, since Moulsworth's work seems important as one of the earliest examples of such writing by anyone in England, male or female. Finally, Chapter 4 tries to view the poem in light of recent feminist theories about the nature and features of writing by women.

Viewing the poet from a modern feminist perspective highlights several aspects of the enduring female experience and thus may also help us further comprehend the evolution of women's social roles. Moulsworth relates her experiences as a young gentlewoman whose father taught her not "godlie pietie" – modestly and sobriety – all of these being traits that are in tune with the contemporary ideals of virtuous femininity. The father whom Martha loved so much seems to be partly creation of her imagination. The identification of her with father makes possible her entry into the patriarchal symbolic order. In her work, it can be seen that Martha mentions only the name of father and not of mother.

My Name Was Martha A Renaissance Woman's Autobiographical Poem:

My Name was Martha Martha Moulsworth, 1993 The poem offers a complicated mixture of self assertion and deference of shrewdness and wisdom of self respect and selfless love Essays placing the Memorandum in its historical literary and theoretical contexts follow the text of the poem itself **The Muses Females are** Robert C. Evans, Anne C. Little, 1995 This volume offers diverse perspectives on the recently published Memorandum of Martha Moulsworth a fascinating woman who in 1632 wrote one of the first autobiographical poems in the English language Moulsworth's poem which issues a startlingly early and radical call for educational equality provides one of our best inside views of the life of a Renaissance woman and the poem is also one of the few writings about widowhood written by an early modern widow Yet the poem is also highly sophisticated as a work of art and it has already proven its appeal to a wide variety of readers including both beginning students and noted scholars and critics The present book builds on the first edition of Moulsworth's poem My Name Was Martha A Renaissance Woman's Autobiographical Poem Locust Hill 1993 The new volume offers extensive additional biographical information about Moulsworth herself and it also presents readings of the poem as a poem and as a piece of autobiography The book also considers such broader issues as the myth of the muses the role of education in the Renaissance the status of wives and widows and the ideals and realities of early modern marriage Moulsworth's poem emerges as an even richer work when viewed from so many different perspectives Moulsworth however is hardly the only Renaissance woman writer examined in this volume Many essayists use Moulsworth as a touchstone for discussing numerous other authors including such figures as Roger Ascham Anne Bradstreet Margaret Cavendish the Duchess of Newcastle Lady Anne Clifford An Collins Queen Elizabeth I Elizabeth Grymston Lady Elizabeth Langham Aemilia Lanyer Bathsua Makin Elizabeth Melville Richard Mulcaster Katherine Philips Mary Sidney the Countess of Pembroke Rachel Speght Hester Wiat and Lady Mary Wroth to name a few Renaissance Literature John C. Hunter, 2009-05-18 This extensively revised anthology makes available the most important poetry and prose from the period between the accession of Henry VIII in 1509 and the English Revolution of 1640 Responding to the broadening of the canon in recent years it balances the work of familiar Renaissance figures with important texts by women writers supported by helpful introductions and annotations A new edition of this popular anthology which includes many writings from women and from lesser known writers alongside established Renaissance figures Includes work by prominent writers of the period such as Spenser Shakespeare and Donne alongside important texts by women including Queen Elizabeth I Lady Mary Wroth and Elizabeth Cary Brings together a variety of key works of the period along with introductions and annotations to the texts reflecting developments in critical and cultural theory and the latest Renaissance scholarship Extensively revised corrected and expanded to increase the level of annotation and to make the volume more user friendly Now includes a thematic table of contents and timeline and a substantially expanded introduction to enable students to consider entries more easily in the social cultural and historical

context of the period *Poetry and Autobiography* Jo Gill, Melanie Waters, 2013-12-16 This collection makes a critical and creative intervention into ongoing debates about the relationship between poetry and autobiography Drawing on recent theories of life writing the essays in the first part of this volume provide new analyses of works by a range of poets dating from the early modern period to the present day Exploring the autobiographical resonances of poems by Martha Moulsworth Mina Loy Anne Sexton Joe Brainard Edward Kamau Braithwaite and Gwyneth Lewis the authors here examine the extent to which discourses of truth and authenticity have been implicated in traditional interpretations of lyric poetry In doing so they endeavour to illuminate the complex intersections and divergences of poetry and autobiography asking what these forms might learn from each other about issues of shared concern from questions of identity and textuality to those of reference and audience The creative reflections which form the second part of the collection develop and respond to these questions in various suggestive and original ways here poetry and prose are used in order to test the relationship between poetry and life writing and to explore issues of memory time place subjectivity and voice This book was published as a special issue of *Life Writing*

Elizabethan Women and the Poetry of Courtship Ilona Bell, 1998 This 1999 book offers an original study of lyric form and social custom in the Elizabethan age Ilona Bell explores the tendency of Elizabethan love poems not only to represent an amorous thought but to conduct the courtship itself Where studies have focused on courtiership patronage and preferment at court her focus is on love poetry amorous courtship and relations between Elizabethan men and women The book examines the ways in which the tropes and rhetoric of love poetry were used to court Elizabethan women not only at court and in the great houses but in society at large and how the women responded to being wooed in prose poetry and speech Bringing together canonical male poets and women writers Ilona Bell investigates a range of texts addressed to written by read heard or transformed by Elizabethan women and charts the beginnings of a female lyric tradition

'Bethinke Thy Selfe' in Early Modern England Ulrike Tancke, 2010 Studying a variety of literary forms autobiographical writings diaries mothers advice books poetry and drama this book approaches early modern women's strategies of identity formation The author argues for an interpretation of these texts as attempts to establish a coherent stable and convincing subjectivity in spite of the constraints the authors encountered as women Drawing on social and cultural history feminist theory psychoanalysis and the study of discourses she makes close reading of the women's texts and other sources She questions interpretations of early modern women's writing as voices from the margin or as a counter discourse to patriarchy
