My Macquarie Work:

Working as Indigenous Archaeologists George Nicholas, Joe Watkins, 2024-09-30 Working as Indigenous Archaeologists explores the often contentious relationship between Indigenous and other formerly colonized peoples and Archaeology through their own voices Over the past 35 plus years the once novel field of Indigenous Archaeology has become a relatively familiar part of the archaeological landscape It has been celebrated criticized and analyzed as to its practical and theoretical applications and its political nature No less important are the life stories of its Indigenous practitioners What has brought some of them to become practicing archaeologists or heritage managers What challenges have they faced from both inside and outside their communities And why haven't more pursued Archaeology as a vocation or avocation This volume is a collection of 60 autobiographical chapters by Indigenous archaeologists and heritage specialists from around the world some community based some academic some in other realms who are working to connect past and present in meaningful and especially personal ways As Archaeology continues to evolve there remain strong tensions between an objective science oriented evidentiary based approach to knowing the past and a more subjective relational humanistic approach informed by local values traditional knowledge and holistic perspective While there are no maps for these new territories hearing directly from those Indigenous individuals who have pursued Archaeology reveals the pathways taken Those stories will provide inspiration and confidence for those curious about what lies ahead This is an important volume for anyone interested in the present state and future of the archaeological discipline

Foucault, Buddhism and Disciplinary Rules Malcolm Joyce, 2016-12-01 This book suggests that previous critiques of the rules of Buddhist monks Vinaya may now be reconsidered in order to deal with some of the assumptions concerning the legal nature of these rules and to provide a focus on how Vinaya texts may have actually operated in practice Malcolm Joyce utilizes the work of Foucault and his notions of power and subjectivity in three ways First he examines The Buddha's role as a lawmaker to show how Buddhist texts were a form of lawmaking that had a diffused and lateral conception of authority While lawmakers in some religious groups may be seen as authoritative in the sense that leaders or founders were coercive or charismatic the Buddhist concept of authority allows for a degree of freedom for the individual to shape or form themselves Second he shows that the confession ritual acted as a disciplinary measure to develop a unique sense of collective governance based on self regulation self governance and self discipline Third he argues that while the Vinaya has been seen by some as a code or form of regulation that required obedience the Vinaya had a double nature in that its rules could be transgressed and that offenders could be dealt with appropriately in particular situations Joyce shows that the Vinaya was not an independent legal system but that it was dependent on the Dharma for some of its jurisprudential needs and that it was not a form of customary law in the strict sense but a wider system of jurisprudence linked to Dharma principles and precepts

strategy if we saw one The Asian Century is challenging many of the traditional assumptions at the heart of Australian defence policy and strategy Defence scholars have risen to the challenge of these transformational times and have collectively produced a smorgasbord of alternatives for policy makers The problem is that these recommendations all point in very different directions How should we evaluate these options Adam Lockyer tackles this question and develops a novel conceptual framework for evaluating defence strategies By doing so this book breaks new theoretical ground and makes an important contribution to our understanding of strategy in general and defence strategy in particular Lockyer then applies this analytical tool to the leading arguments in Australia s defence debate and finds that there is still substantial work to be done Lockyer concludes by proposing a new Australian defence strategy for a contested Asia that would pass the test for a good defence strategy The result is essential reading for anyone interested in strategy or the future of Australian defence policy **The Greatest Works of French Literature** Stendhal,Jules Verne,Gustave Flaubert,Émile Zola,Victor Hugo,Guy
