Evangelism as Storytelling Oinike Natalia Harefa, 2024-06-13 Problems of patriarchy and colonialism that have left traces in the history of evangelism and Christian missions have contributed to perpetuating marginalization and discrimination against women in church life in Asia This book offers a reconstruction of evangelism that acknowledges and respects women's roles and thoughts For this purpose the author uses a postcolonial missiological feminist perspective that pays attention to the processes models roles and understanding of evangelism and mission and encourages women's voices in witnessing the trinitarian God in the world This study confronts evangelism with discourses of power leadership gender and understanding of evangelism and mission This book uses the historical narrative constructive missiological method by combining several theories to show the complexity of missionary women's narratives the marginalization of their narratives and constructive missiological efforts to reclaim their narratives as a model of embodied evangelism These theories are the social women mission theory postcolonial feminist mission theory martyrdom theology the biblical reconstructive approach to Matthew and narrative theology The author offers the idea of evangelism as storytelling namely witnessing the trinitarian God through embodied storytelling of the gospel which encourages the rediscovery of witness narratives in the form of testimonials that contain the voices roles experiences and understandings of women in witnessing the gospel Subject Guide to Books in Print ,1983 Religious Books and Serials in Print ,1982 Directory of American Scholars: Philosophy, religion and law ,1999 **Powers, inequalities and vulnerabilities** Johannes J. Knoetze, Valentin Kozhuharov, 2020-12-31 This research addresses the gap that is present in both missiology and family and youth ministry Missiology does not focus on children and youth specifically while this is the largest population in the developing world On the other hand family and youth ministry has a more pastoral than missional approach not always taking cognisance of contexts like globalisation Thus the purpose of the book is to address the sometimes unintended and unnoticed influence of globalisation on the mission of the church with a specific focus on children youth and family For this purpose the International Association for Mission Studies study group for children youth and families coming from different parts of the world decided to describe the powers inequalities and vulnerabilities of children youth and families in a globalised world from their specific contexts Although the most prominent research methodology was critical literature studies methods like autoethnographic and empirical methods
