Handbook of Regional Growth and Development Theories Roberta Capello, Peter

Nijkamp,2019 Regional economics an established discipline for several decades has undergone a period of rapid change in the last ten years resulting in the emergence of several new perspectives At the same time the methodology of regional economics has also experienced some surprising developments This fully revised and updated Handbook brings together contributions looking at new pathways in regional economics written by many well known international scholars The aim is to present the most cutting edge theories explaining regional growth and local development The authors highlight the recent advances in theories the normative potentialities of these theories and the cross fertilization of ideas between regional and mainstream economists It will be an essential source of reference and information for both scholars and students in the field

Entrepreneurship, Innovation and Regional Development Jay Mitra,2013-03 Entrepreneurship Innovation and Regional Development is unique in that it addresses the central factors in economic development entrepreneurship innovation and organizational learning as regional phenomena This definitive text focuses on different types of organizations to illustrate the value of entrepreneurship and innovation both for businesses and for regional development Establishing a firm link between entrepreneurship innovation and economic regeneration the book also examines the factors contributing to their success Replete with international case studies empirical evidence of concepts and practical examples this is an ideal text to support postgraduate teaching and research related to entrepreneurship innovation management and regional economic development

Re-framing Regional Development Philip Cooke,2013-01-17 Turbulence characterises the current global scene This book uses complementary theoretical approaches to understand and help prescribe policies to re frame the regional development problem in turbulent times These approaches are evolutionary complexity evolutionary economic geography emergence theory and resilience theory From below they address the four major crises creating a perfect storm for societies and economics involving the climate change crisis the energy crisis the banking and financial crisis and the global economic crisis This book analyses and proposes ways in which regional economies in particular are having to be reframed to address these crises First many must evolve in new ways possibly moving back from the service economy towards a new greener form of manufacturing of goods as well as services Accordingly regional economies are innovating in new ways Amongst these are the quest for relatedness within their own regional orbits and promoting modularity as a mode of analysis and a policy stance to stimulate innovation across industry and geographical borders Finally regional economies and societies are discovering that from a resilience perspective they must find answers to the higher levels of governance with which they increasingly struggle In this respect regional economies are in transition and regional processes are emergent The transition seeks to address the four crises involving re balancing re directing and re framing future policy and practice This book describes many of the novel framings involved in understanding the new ways in which this major task is being addressed in theory policy and everyday practice

Regional Development and Planning for the 21st Century Allen G. Noble, Frank J. Costa, Ashok K. Dutt, Robert B. Kent, 2018-12-20 Published in 1998 Regional

Development and Planning for the 21st Century examines a number of related themes including the traditional approach of local and regional planning initiatives developed within the context of national goals the current decline of bi polar political and ideological blocs political decentralization and concurrent economic centralization including the growth of multi national corporations devolution of centralized planning powers to regions and localities and the rise and acceptance of sustainable development concepts The book is divided into five parts addressing 1 adjustments to political economic and social change 2 the problems of urban housing and housing and health 3 adjustments to environmental change development policies and sustainability 4 the problem of rapid urban growth and mega cities 5 adjustments of changing urban networks The contributors are from several countries worldwide and the chapters examine the issues at a global level Protected Areas and Regional Development in Europe Ingo Mose,2012-11-28 While originally created as reserves for beautiful landscapes and endangered species protected areas in Europe were subsequently used as a means to preserve whole ecosystems with restrictions on human activities and impacts More recently protected areas are also being considered as instruments for regional development particularly in marginal regions facing severe economic and socio cultural problems Contrary to previous conservation focused policies new approaches aim to blend conservation and development functions making protected areas real living landscapes and integrating activities such as agriculture forestry handicrafts tourism and education with the conservation and sustainability aspects The past decade has seen a marked increase in these innovative and dynamic types of protected areas However the policies of individual European countries are very varied This volume provides a comprehensive overview of the relationship between protected areas and regional development policies both in theory and practice Illustrated with a wide range of case studies from across Europe it compares the different concepts strategies and instruments being used In conclusion it suggests the most innovative and successful ways to use protected areas for regeneration and sustainable regional development **Strategic Planning for Regional Development in the UK** , Regional Development Planning and Practice Mukunda Mishra,R. B. Singh,Andrews José de Lucena,Soumendu Chatterjee,2021-11-16 This book through a bunch of systematic and analytical notes and scientific commentaries acquaints the readers with the innovative methods of regional development measurement of the development in regional scale regional development models and policy prescriptions Conceptualizing development as a regional process is a geographer s brainchild and the sense of region has long been rooted deeply in the fundamental research practices that geographers are accustomed to The geographical perspective of regions entails conceptualizing them nested horizontally as the formal region and hierarchical relationships in space with spatial flows or interactions as the functional region In geographical research the region works as a tool by serving as a statistical unit of analysis More importantly however regions serve as the fundamental spatial units of management and planning by specifying a territory or a part of it for which a certain spatial development or regulatory plan is sought This book addresses the complex processes in different regions of the world particularly South Asia

to perceive the regional development planning involved and the sustainable management practiced there The book is a useful resource for socio economic planners policymakers and policy researchers
