Regionalism Multilateralism And Economic Integration The Recent Experience:

Regionalism, Multilateralism, and Economic Integration Gary P. Sampson, Stephen Woolcock, 2003 This publication considers whether regional trade agreements have led to a new form of economic co operation by promoting deeper integration in the regulatory structures of participating countries An examination of recent experiences are found to show that although there is no single model for deeper integration regional trade agreements have generally more effective than more remote WTO procedures in facilitating trade and improving transparency Regional processes and rules are found to have been consistent with the multilateral obligations of each party with additional commitments in the regional agreements complementing WTO rules The Politics of Economic Regionalism K. Cai, 2010-01-20 While major theories of economic regionalism in the existing literature are primarily constructed to explore institutionalized regional integration European integration in particular the analytical framework developed in this work explains the unique process and pattern of regional integration in East Asia Regionalism, Multilateralism, and the Politics of Global Trade Donald Barry, Ronald C. The European Union in the Security of Europe

Steve Marsh, Wyn Rees, 2012-03-12 This book examines the European Union's contribution to providing security in Europe amidst an increasingly complex and challenging environment In this new and comprehensive guide to the EU's role in security since the end of the Cold War the authors offer an explanation of EU internal and external security regimes and argue that the Union has become an important exporter of security within its region However the Union's rhetorical ambitions and commitments continue to outstrip its capabilities and it lacks both a common conceptualisation of security and a meaningful shared strategic culture Drawing extensively on primary sources the book examines the Union's relations with the US and Russia in a time of shifting geostrategic calculations and priorities With the EU capacity for enlargement slowing this text presents a detailed assessment of EU security policies towards Central Europe the Mediterranean the Western Balkans Eastern Europe and South Caucasus European Union Security will be of interest to students and scholars of the EU security studies and international relations
