Rekindling Development Lee A. Tavis, 1988 **Is the Good Corporation Dead?** John W. Houck, Oliver F. Williams, 1996 Can corporations remain socially responsible in today's fiercely competitive global economy For several decades after World War II companies like IBM which exemplified what journalist Robert J Samuelson called the good corporation poured forth material comforts and technological ideas while guaranteeing full employment and adequate retirement In the 1980s all of that changed as corporations moved to downsize and become lean mean global competitors In this collection thirteen prominent scholars in business ethics finance management and religion and six corporate leaders respond to a new essay by Samuelson that sounds the death knell of the good corporation They propose new approaches to corporate integrity and social responsibility in the global economy The book will be useful in corporate workshops and will make an excellent business ethics text in philosophy departments and business schools **Dealing with Debt, Rekindling Development**, 1985 **International Debt and the Third World**, 1989 **Global Development and Poverty Reduction** John-ren Chen, David Sapsford, 2005-01-01 Explores the various ways in which the institutions of the global economy might rise to the challenges posed by the twin goals of increasing the pace of global development and alleviating poverty This book also provides a much needed analysis of the successes and failures of international institutions in achieving these aims Debt and Transfiguration David Felix, 2019-05-23 Collection of essays representing the analysis and policy proposals of a wide range of economists and dealing with many contentious issues about the re structuring strategies of Latin American debtor countries their economic and political adjustments and schemes for external financing Visits to customers by a cross functional team of marketers and engineers play an important role in new product development entry into new markets and in exploring customer satisfaction and dissatisfaction The new edition of this widely used professional resource provides step by step instructions for making effective use of this market research technique Using a wealth of specific examples Edward F McQuarrie explains how to set feasible objectives and how to select the right number of the right kind of customers to visit One of the leading experts in the field McQuarrie demonstrates how to construct a discussion guide and how to devise good questions and offers practical advice on how to conduct face to face interviews Extensively updated throughout this third edition includes three new chapters as well as expanded coverage of the analysis of visit data It also discusses which industries and product categories are most and least suitable to the customer visit technique The author also covers how the customer visit technique compares to other market research techniques such as focus groups **Thinking about Development** Paul Patrick Streeten, 1997-07-24 Paul Streeten is recognised as one of the profession's most eminent authorities on economic development In these lectures he provides a major statement on his approach to the development problem stressing that human development not simply income growth should be the focus of all strategies to eradicate hunger and poverty in the world His argument assigns an important role to reformed government both in providing social

services and in facilitating the functioning of markets in opposition to the prevailing idea that minimal government is more often than not the optimal solution. The role of small and larger firms, institutions, central and local government is also carefully examined. Streeten outlines a normative political economy, how to mobilise reformist alliances, how to use interest groups, how to harness coalition in the pursuit of effective development.

International Development Policies Sidney Samuel Dell, 1991 In this survey of the field of international development policies, Sidney Dell challenges conventional wisdom and provides a rationale for a more cooperative and constructive approach to world development. Assessing the management of the global economy by the major economic powers and the policies that caused the world economy to lose momentum in the 1970s and 1980s, Dell directs his study to industrial countries which, he claims, take responsibility for creating an environment favorable to Third World development. Tracing the fundamental changes of the last forty years in international development policies toward the Third World, Dell details the transformation from a policy of collective responsibility on the part of the international community to the current status in which the commitment of governments of industrial countries to Third World development is greatly diluted. He examines the growing conflicts in world trade and analyzes the failure of the international economic community to develop a long-run strategy for dealing with the world debt crisis. Other topics addressed include the future of the international monetary system, the viability of small countries, strategies for development of basic needs, and the prospects for foreign private investment.

Third World Resources, 1985 **International Review of Modern Sociology**, 1991

Ökologieorientierte Führung multinationaler Unternehmen in Entwicklungsländern, 2013-03-09 Umweltzerstörung und Schutz der natürlichen Umwelt im globalen Maßstab sind in den letzten Jahren zunehmend in den Blickpunkt der Weltöffentlichkeit gerückt. Die bisher unternommenen internationalen Bemühungen, die mit der Konferenz der Vereinten Nationen über Umwelt und Entwicklung in Rio de Janeiro im Jahre 1992 ihren vorläufigen Höhepunkt erreicht haben, konnten allerdings noch zu keiner umfassenden Verbesserung im Umweltschutz führen. Im Gegenteil: Die Umweltsituation hat sich in vielen Teilen der Welt, insbesondere aber in den Entwicklungsländern, weiter rapide verschlechtert. Neben der Globalisierung der Umweltpolitik ist in den letzten Jahren auch eine zunehmende Internationalisierung der Wirtschaft feststellbar. Die daraus folgende Bedeutungszunahme multinationaler Unternehmen im System der Weltwirtschaft bringt zusätzliche potentielle Gefahren für die Ökologie mit sich, etwa in Form der Verlagerung umweltschädigender Produktion in Entwicklungsländer. Andererseits sind viele der Umweltprobleme in Entwicklungsländern nicht ohne eine Zusammenarbeit mit dem Westen zu lösen. Da Programme der staatlichen Technologiekooperation in vielen Fällen versagt haben, steigen die Erwartungen an

eine privatwirtschaftliche Zusammenarbeit Vor dem Hintergrund dieser Entwicklungen geht Walter St ckl in seiner wirt
schaftswissenschaftlichen Dissertation der Frage nach welche neuartigen Problemstellungen sich daraus f r das Management
von multinationalen Unternehmen ergeben Die Intention der Arbeit ist es aber nicht nur die ko logierelevanten
Problembereiche herauszuarbeiten sondern insbesondere theoretisch fundierte Gestaltungsaussagen abzuleiten welche ein
planvolles Handeln zur L sung bzw Verminderung der negativen betrieblichen Umweltbeeintr chtigung erm glichen sollen

the United Nations Decade of International Law is the promotion of the means and methods for the peaceful settlement of
disputes between states In the previous volume The United Nations Decade of International Law Reflections on International
Dispute Settlement the editors contributed to this aim by bringing together a variety of opinions by international legal
experts on the topic with an emphasis on the role of the International Court of Justice This time the editors turn their
attention to international arbitration and the role of the Permanent Court of Arbitration It also explores the prospects for pre
constituted non ad hoc arbitral institutions which may be considered in the general framework of peaceful settlement of
disputes between states as well as between states and other actors commercial arbitration in the present day international
system through the process of international adjudication Like the previous volume this book is a valuable contribution
