Relativistic Naturalism A Cross Cultural Approach To Human Science:

Relativistic Naturalism Quin McLoughlin, 1991-09-30 McLoughlin proposes a new set of disciplines for human science based on a relativist view of knowledge and a naturalist view of human nature He addresses the major current issues of the philosophy of social science and designs his theory for cross cultural application

Concepts of Cabralism Reiland Rabaka, 2014-07-16 By examining Amilcar Cabral's theories and praxes as well as several of the antecedents and major influences on the evolution of his radical politics and critical social theory *Concepts of Cabralism* Amilcar Cabral and *Africana Critical Theory* simultaneously reintroduces chronicles and analyzes several of the core characteristics of the *Africana* tradition of critical theory Reiland Rabaka's primary preoccupation is with Cabral's theoretical and political legacies that is to say with the ways in which he constructed deconstructed and reconstructed theory and the aims objectives and concrete outcomes of his theoretical applications and discursive practices The book begins with the Negritude Movement and specifically the work of L opold Senghor Aim C saire and Jean Paul Sartre Next it shifts the focus to Frantz Fanon's discourse on radical disalienation and revolutionary decolonization Finally it offers an extended engagement of Cabral's critical theory and contributions to the *Africana* tradition of critical theory Ultimately *Concepts of Cabralism* chronicles and critiques revisits and revises the black radical tradition with an eye toward the ways in which classical black radicalism informs or should inform not only contemporary black radicalism African nationalism and Pan Africanism but also contemporary efforts to create a new anti racist anti sexist anti capitalist anti colonialist and anti imperialist critical theory of contemporary society what has come to be called *Africana critical theory*

Forms of Fanonism Reiland Rabaka, 2010-03-08 When Frantz Fanon's critiques of racism sexism colonialism capitalism and humanism are brought into the ever widening orbit of *Africana critical theory* something unprecedented in the annals of *Africana* intellectual history happens five distinct forms of Fanonism emerge *Forms of Fanonism* Frantz Fanon's *Critical Theory and the Dialectics of Decolonization* is discursively distinguished from other engagements of Fanon's thought and texts insofar as it is the first study to consciously examine his contributions to *Africana Studies* and critical theory or rather the *Africana* tradition of critical theory *Forms of Fanonism* identifies and intensely analyzes Fanon's contributions to the deconstruction and reconstruction of *Africana Studies* radical politics and critical social theory In highlighting his unique solutions to the problems of racism sexism colonialism capitalism and humanism five distinct forms of Fanonism materialize These five forms of Fanonism allow contemporary critical theorists to innovatively explore the ways in which his thought and texts can be dialectically put to use in relieving the wretched experience of this generation's wretched of the earth Critics can also apply these forms to deconstruct and reconstruct *Africana Studies* radical politics and critical social theory using their anti imperialist interests Throughout *Forms of Fanonism* Reiland Rabaka critically dialogues with Fanon incessantly asking his corpus critical questions and seeking from it crucial answers This book in short solemnly keeps with Fanon's own predilection for connecting critical theory to

revolutionary praxis by utilizing his thought and texts as paradigms and points of departure to deepen and develop the
 Africana tradition of critical theory *Qualitative Inquiry* Rosemarie Rizzo Parse,2001 **American Journal of Theology

 Though the people of Burma now called Myanmar are formally Buddhist their folk religion a type of animism or
 supernaturalism is so unlike classical Buddhism that it seems contradictory For years scholars of religion and anthropology
 have debated the questions Do these folk beliefs make up a separate religious system Or is there a subtle merging of
 supernaturalism and Buddhism a kind of syncretism In either case how exactly does folk religion fit into the overall religious
 pattern Melford Spiro s *Burmese Supernaturalism* has been one of the major works in this debate both for its position on the
 two religions question and for its arguments concerning the psychological basis of religion The book begins with an
 introduction to the study of supernaturalism The next section of the work covers various types of supernaturalism including
 witches ghost and demons Other areas of discussion include supernaturally caused illness and its treatment the shaman the
 exorcist and the relationship between supernaturalism and Buddhism In the introduction to this expanded edition Spiro
 further develops the underlying logic of his argument and evaluates the most recent contributions to the field of the
 anthropology of religion *Burmese Supernaturalism* is an intriguing study and will provide insightful reading for
 anthropologists sociologists theologians as well as those interested in supernaturalism in Burma Myanmar and other cultures
Whitaker's Book List ,1991 *Anthropology for Christian Witness* Charles H. Kraft,1996 *Anthropology for Christian
