Relegation And Stock Control In Libraries:

Relegation and Stock Control in Libraries J. A. Urquhart, N. C. Urquhart, 1976 **Relegation and stock control in libraries** J. A. Urquhart, N. C. Urquhart, 1978 **Library Services in Theory and Context** Michael K. Buckland, 2014-05-09

Library Services in Theory and Context provides a theoretical framework for considering the nature of library services. This book is organized into four parts encompassing 16 chapters that focus on the management of library services. The first part presents some basic problems in librarianship along with the scope and probable nature of appropriate theory. The second part considers the five key aspects and use of library services including inquiries, retrieval, the process of becoming informed, the demand for library services, and the allocation of resources to and within library services. The third part deals with the connection and extensions of library services, specifically the problem of achieving internal consistency and the generalizability of conceptual framework to information services. The fourth part reconsiders some of the basic conceptual problems in library services. This book will be of great value to school administrators and librarians.

Communication Informatics and Librarianship in India S. P. Agrawal, Pushpa Rani Sharma, 1992 *Encyclopedia of Library and Information Science* Allen Kent, Harold Lancour, Jay E. Daily, 1980-05-01

The Encyclopedia of Library and Information Science provides an outstanding resource in 33 published volumes with 2 helpful indexes. This thorough reference set, written by 1300 eminent international experts, offers librarians, information computer scientists, bibliographers, documentalists, systems analysts, and students convenient access to the techniques and tools of both library and information science. Impeccably researched, cross-referenced, alphabetized by subject, and generously illustrated, the Encyclopedia of Library and Information Science integrates the essential theoretical and practical information accumulating in this rapidly growing field.

Double Fold Nicholson Baker, 2002-08-13

The ostensible purpose of a library is to preserve the printed word. But for fifty years, our country's libraries, including the Library of Congress, have been doing just the opposite: destroying hundreds of thousands of historic newspapers and replacing them with microfilm copies that are difficult to read, lack all the color and quality of the original paper, and deteriorate with age. With meticulous detective work and Baker's well-known explanatory power, *Double Fold* reveals a secret history of microfilm lobbyists, former CIA agents, and warehouses where priceless archives are destroyed with a machine called a guillotine. Baker argues passionately for preservation, even cashing in his own retirement account to save one important archive: all twenty tons of it. Written in the brilliant narrative style that Nicholson Baker fans have come to expect, *Double Fold* is a persuasive and often devastating book that may turn out to be *The Jungle* of the American library system.
