The Religion of the Etruscans Nancy Thomson de Grummond, Erika Simon, 2006-02-01 Devotion to religion was the distinguishing characteristic of the Etruscan people the most powerful civilization of Italy in the Archaic period From a very early date Etruscan religion spread its influence into Roman society especially with the practice of divination The Etruscan priest Spurinna to give a well known example warned Caesar to beware the Ides of March Yet despite the importance of religion in Etruscan life there are relatively few modern comprehensive studies of Etruscan religion and none in English This volume seeks to fill that deficiency by bringing together essays by leading scholars that collectively provide a state of the art overview of Etruscan religion The eight essays in this book cover all of the most important topics in Etruscan religion including the Etruscan pantheon and the roles of the gods the roles of priests and divinatory practices votive rituals liturgical literature sacred spaces and temples and burial and the afterlife In addition to the essays the book contains valuable supporting materials including the first English translation of an Etruscan Brontoscopic Calendar which guided priests in making divinations Greek and Latin sources about Etruscan religion in the original language and English translation a concordance to Etruscan inscriptions and a glossary Nearly 150 black and white photographs and drawings illustrate surviving Etruscan artefacts and inscriptions as well as temple floor plans and reconstructions

Votives, Places and Rituals in Etruscan Religion Margarita Gleba, Hilary Becker, 2008-11-30 Etruscans were deemed the most religious of men by their Roman successors and it is hardly surprising that the topic of Etruscan religion has been explored for some time now This volume offers a contribution to the continued study of Etruscan religion and daily life by focusing on the less explored issue of ritual Ritual is approached through fourteen case studies considering mortuary customs votive rituals and other religious and daily life practices The book gathers new material interpretations and approaches to the less emphasized areas of Etruscan religion especially its votive aspects based on archaeological and epigraphic sources

Votives, Places,

and Rituals in Etruscan Religion Margarita Gleba, Hilary Becker, 2009 By considering votive mortuary and secular rituals the volume offers a contribution to the continued study of Etruscan culture and gathers new material interpretations and approaches to the less emphasized areas of Etruscan religion

Religious Architecture in Latium and Etruria, C. 900-500 BC Charlotte Rose Potts, 2015 Religious Architecture in Latium and Etruria c 900 500 BC presents the first comprehensive treatment of cult buildings in western central Italy from the Iron Age to the Archaic Period By analysing the archaeological evidence for the form of early religious buildings and their role in ancient communities it reconstructs a detailed history of early Latial and Etruscan religious architecture that brings together the buildings and the people who housed them

The Handbook of Religions in Ancient Europe Lisbeth Bredholt Christensen, Olav Hammer, David Warburton, 2014-09-11 The Handbook of Religions in Ancient Europe surveys the major religious currents of Europe before Christianity the first continental religion with hegemonic ambition wiped out most local religions The evidence whether archaeological or written is notoriously difficult to interpret and the variety of religions documented by the sources and the range of languages used are bewildering The Handbook brings together leading authorities on pre Christian religious history to provide a state of the art survey The first section of the book covers the Prehistoric period from the Paleolithic to the Bronze Age The second section covers the period since writing systems began Ranging across the Mediterranean and Northern Celtic and Slavic Europe the essays assess the archaeological and textual evidence Dispersed archaeological remains and biased outside sources constitute our main sources of information so the complex task of interpreting these traces is explained for each case The Handbook also aims to highlight the plurality of religion in ancient Europe the many ways in which it is expressed notably in discourse action organization and material culture how it is produced and maintained by different people with different interests how communities always connect with or disassociate from adjunct communities and how their beliefs and rituals are shaped by these relationships The Handbook will be invaluable to anyone interested in ancient History and also to scholars and students of Religion Anthropology Archaeology and Classical Studies
