Religious Education In A Secular Setting:

Religious Education in a Secular Setting James Walter Dickson Smith,1969 **Religion and Secular Education** James Walter Dickson Smith,1975 Previously entitled Religious education in a secular setting **Religious Education and Critical Realism** Andrew Wright,2015-11-19 Religious Education and Critical Realism Knowledge Reality and Religious Literacy seeks to bring the enterprise of religious education in schools colleges and universities into conversation with the philosophy of Critical Realism This book addresses the problem not of the substance of our primal beliefs about the ultimate nature of reality and our place in the ultimate order of things but of the process through which we might attend to questions of substance in more attentive reasonable responsible and intelligent ways This book unpacks the impact of modern and post modern thought on key topics whilst also generating a new critically realistic vision Offering an account of the relationship between Religious Education and Critical Realism this book is essential reading for students scholars and practitioners interested in philosophy theology and education *New Directions in Religious Education* John Hull,2018-12-21 First published in 1982 This book brings together some of the most influential articles which had moulded British religious education The articles are divided into specialised sections dealing with various aspects of the subject so that the main developments are clearly indicated The first section of the book deals with research into the religious psychology of childhood This is followed by two collections of articles dealing with the search for a philosophy of religious education and with the problems created for the teaching of religion in Britain by our pluralist society The fourth section deals with the problems of designing a curriculum in religious education while the final part gives some examples of methods in the teaching of religion The book thus provides both the general reader the student teacher and the specialist religious education teacher an easily accessible collection of many of the materials which had created British religious education **Crisis, Controversy and the Future of Religious Education** L. Philip Barnes,2019-12-05 Crisis Controversy and the Future of Religious Education sets out to provide a much needed critical examination of recent writings that consider and respond to the crisis in religious education and more widely to a crisis in non confessional forms of religious education wherever practised The book is critical wide ranging and provocative giving attention to a range of responses some limited to the particular situation of religious education in England and some of wider application for example that of the role and significance of human rights and that of the relevance of religious studies and theology to religious education It engages with a variety of positions and with recent influential reports that make recommendations on the future direction of religious education Constructively it defends both confessional and non confessional religious education and endorses the existing right of parental withdrawal Controversially it concludes that the case for including non religious worldviews in religious education and for the introduction of a statutory objective national religious education curriculum for all schools are both unconvincing on educational philosophical and evidential grounds Timely and captivating this book is a must read for

Religion, Education and Post-Modernity Andrew Wright, 2003-12-16 This book the first to explore religious education and post modernity in depth sets out to provide a much needed examination of the problems and possibilities post modernity raises for religious education At once a general introduction to this topic and a distinctive contribution to the debate in its own right Religion Education and Post modernity explores and illuminates the problems and possibilities opened up for religious education by postmodern thought and culture The book describes the emergence of post modernity considers the impact of post modernity on religion addresses its impact on the philosophy of religion and considers the nature of religious education in the post modern world Andrew Wright argues that although post modernity has much to offer the religious educator there are also many pitfalls and dangers to be avoided Steering clear of the extreme of post modern hyper realism he constructs a religious pedagogy sensitive to post modern concerns for alterity difference and the voice of the Other whilst insisting on the importance of reasons in cultivating religious literacy

Religious Education in a Post-Secular Age Olof Franck, Peder Thalén, 2020-09-27 This book analyzes the changes and shifts in religious education in Europe over the past 50 years In a post secular age it has become increasingly difficult to make sharp distinctions between what is religious and non religious confessional and non confessional Reforms in religious education in Sweden in the 1960s appeared as part of a process of wider secular liberalization giving more credence to the idea of absolute neutrality in religious education However drastic shifts in society culture and the European religious landscape raise the need for a reevaluation of the foundations of religious education Drawing on a range of case studies from across Europe this book will appeal to students and scholars of religious education as well as post secular

Education, Religion and Diversity L. Philip Barnes, 2014-02-05

In this thoughtful and provocative book, Philip Barnes challenges religious educators to re-think their field and proposes a new post-liberal model of religious education to help them do so. His model both confronts prejudice and intolerance and also allows the voices of different religions to be heard and critically explored. While *Education, Religion and Diversity* is directed to a British audience, the issues it raises and the alternative it proposes are important for those educators in the United States who believe that the public schools have an important role in teaching students about religion.

Walter Feinberg, Professor Emeritus of Education Policy, Organization and Leadership at the University of Illinois Urbana-Champaign

Philip Barnes offers a penetrating and lucid analysis of the strengths and weaknesses of modern religious education in Britain. He considers a range of epistemological and methodological issues and identifies two contrasting models of religious education that have been influential: what he calls a liberal and a postmodern model. After a detailed review and criticism of both, he outlines his own new post-liberal model of religious education, one that is compatible with both confessional and non-confessional forms of religious education yet takes religious diversity and religious truth claims seriously.

Essential reading for all religious educators and those concerned with the role of religion in schools.

Bernd Schröder, Professor of Practical Theology and Religious Education, University of Göttingen

What place, if any, does religious education have in the schools of an increasingly diverse society? This lucid and authoritative book makes an incisive contribution to this crucial debate.

Roger Trigg is Emeritus Professor of Philosophy, University of Warwick, and Senior Research Fellow, Ian Ramsey Centre, Oxford.

The challenge of diversity is central to education in modern liberal democratic states, and religious education is often the point where these differences become both most acute and where it is believed that all curriculum subjects resolutions are most likely to be found.

Education, Religion and Diversity identifies and explores the commitments and convictions that have guided post-confessional religious education and concludes controversially that the subject as currently theorised and practised is incapable of challenging religious intolerance and of developing respectful relationships between people from different communities and groups within society. It is argued that despite the rhetoric of success, which religious education is obliged to rehearse in order to perpetuate its status in the curriculum and to ensure political support, a fundamentally new model of religious education is required to meet the challenge of diversity to education and to society. A new framework for religious education is developed which offers the potential for the subject to make a genuine contribution to the creation of a

responsible respectful society Education Religion and Diversity is a wide ranging provocative exploration of religious education in modern liberal democracies It is essential reading for those concerned with the role of religion in education and for religious and theological educators who want to think critically about the aims and character of religious education

Discourses of Religion and Secularism in Religious Education Classrooms Karin Kittelmann Flensner,2017-07-07 This book answers the question on how students and teachers talk about religion when the mandatory and nonconfessional school subject of Religious Education is on the schedule in the world s most secular country To do this it analyses discourses of religion as they occur in the classroom practice It is based on findings from participant observation of Religious Education lessons in several upper secondary schools in Sweden The book discusses different aspects of the role and function of nonconfessional integrative Religious Education in an increasingly pluralistic multireligious yet also secularized society at a general level It looks at the religious landscape different perspectives on school subjects various models and the development of Religious Education and discourses of religion of a secularist spiritual and nationalistic nature Religious Education is a school subject that manoeuvres in the midst of a field that on the one hand concerns crucial knowledge in a pluralistic society and on the other hand deals with highly contested questions in a society characterized by diversity and secularity In the mandatory integrative and non confessional school subject of Religious Education in Sweden all students are taught together regardless of religious or secular affiliation The subject deals with major world religions important non religious worldviews and ethics from a non confessional perspective Thus in the classroom individuals who identify with diverse religious and non religious worldviews with a different understanding of what religion could be and what it might mean to be religious are brought together The book examines questions raised in this pluralistic context What discourses of religion become hegemonic in the classroom How do these discourses affect the possibility of reaching the aim of Religious Education which concerns understanding and respect for different ways of thinking and living in a society characterized by diversity
