Cole Durham, Rik Torfs, 2016-05-06 Islam Europe and Emerging Legal Issues brings together vital analysis of the challenges that Europe poses for an expanding Islam and that Islam poses for Europe within their ever evolving religious legal and social environments This book gathers some of the best thinking on Islam and the law affecting current and contested issues that can no longer be ignored particularly as they have found their way before the European Court of Human Rights Contributors include leading authorities who are working at the heart of this generation s law and religion questions in Europe and across the world This book outlines implications for all those who look to Europe from both within and without for models of human rights implementation and multi cultural accommodation **Religious Conversion** M. P. Raju, 1999 **State Management of Religion in Indonesia** Myengkyo Seo, 2013-07-18 Although Indonesia is generally considered to be a Muslim state and is

indeed the world's most populous Muslim majority nation it has a sizeable Christian minority as a legacy of Dutch colonialism with Christians often occupying relatively high social positions This book examines the management of religion in Indonesia It discusses how Christianity has developed in Indonesia how the state though Muslim in outlook and culture is nevertheless formally secular and how the principal Christian church the Java Christian Church has adapted its practices to fit local circumstances It examines religious violence and charts the evolution of the state's religious policies analysing in particular the impact of the 1974 Marriage Law showing how it enabled extensive state regulation but how in practice rather than reinforcing religious divisions inter religious marriage involving the conversion of one party is widespread Overall the book shows how Indonesia is developing its own brand of secularism neither a full blooded Islamic state like Saudi Arabia nor an outright secular state like Turkey

Religious Rules, State Law, and Normative Pluralism - A Comparative Overview
 Rossella Bottoni, Rinaldo Cristofori, Silvio Ferrari, 2016-07-07 This book is devoted to the study of the interplay between religious rules and State law It explores how State recognition of religious rules can affect the degree of legal diversity that is available to citizens and why such recognition sometime results in more individual and collective freedom and sometime in a threat to equality of citizens before the law The first part of the book contains a few contributions that place this discussion within the wider debate on legal pluralism While State law and religious rules are two normative systems among many others the specific characteristics of the latter are at the heart of tensions that emerge with increasing frequency in many countries The second part is devoted to the analysis of about twenty national cases that provide an overview of the different tools and strategies that are employed to manage the relationship between State law and religious rules all over the world

religious tension and a struggle that will shape not only just India's future but also the world's Religious Freedom and Mass Conversion in India Laura Dudley Jenkins, 2019-05-31 Hinduism is the largest religion in India encompassing roughly 80 percent of the population while 14 percent of the population practices Islam and the remaining 6 percent adheres to other religions. The right to freely profess practice and propagate religion in India's constitution is one of the most comprehensive articulations of the right to religious freedom. Yet from the late colonial era to the present mass conversions to minority religions have inflamed majority-minority relations in India and complicated the exercise of this right. In *Religious Freedom and Mass Conversion in India* Laura Dudley Jenkins examines three mass conversion movements in India: among Christians in the 1930s, Dalit Buddhists in the 1950s, and Mizo Jews in the 2000s. Critics of these movements claimed mass converts were victims of overzealous proselytizers promising material benefits, but defenders insisted the converts were individuals choosing to convert for spiritual reasons. Jenkins traces the origins of these opposing arguments to the 1930s and 1940s when emerging human rights frameworks and early social scientific studies of religion posited an ideal convert: an individual making a purely spiritual choice. However, she observes that India's mass conversions did not adhere to this model and therefore sparked scrutiny of mass converts' individual agency and spiritual sincerity. Jenkins demonstrates that the preoccupation with converts' agency and sincerity has resulted in significant challenges to religious freedom. One is the proliferation of legislation limiting induced conversions. Another is the restriction of affirmative action rights of low-caste people who choose to practice Islam or Christianity. Last, incendiary rumors are intentionally spread of women being converted to Islam via seduction. *Religious Freedom and Mass Conversion in India* illuminates the ways in which these tactics immobilize potential converts, reinforce damaging assumptions about women, lower castes, and religious minorities, and continue to restrict religious freedom in India today.

Routledge Handbook of Religious Laws Silvio Ferrari, Rossella Bottoni, 2019-04-09 Much has been written on specific religious legal systems, yet substantial comparative studies that strive to compare systems, identifying their analogies and differences, have been relatively few. This absence undermines the capacity to understand religions and becomes particularly serious when the faithful of these religions live together in the same geographical space, as happens today with increasing frequency. Both interreligious dialogue and dialogue between States and religions presuppose a set of data and information that only comparative research can provide. This book seeks to address this gap in the literature by presenting a comparative analysis of Christian, Jewish, Islamic, and Hindu laws and traditions. Divided into five parts, the first part of the book offers the historical background for the legal analysis that is developed in the subsequent parts. Part II deals with the sources of law in the four religions under discussion. Part III addresses the dynamics of belonging and status, and Part IV looks at issues relating to the conclusion of marriage and its dissolution. The fifth and final part discusses how each religion views the legal other. Each part concludes with exploring what we can learn from a comparative examination of the topic that is dealt with in that part. Written by leading experts in the field.

this book presents a clear and comprehensive picture of key religious legal systems along with a substantial bibliography It provides a state of the art overview of scholarship in this area accompanied by a critical evaluation As such it will be an invaluable resource for all those concerned with religious legal systems multiculturalism and comparative law
