

The nature of God

Belief in a higher power and manifestation

The center of human character has frequently been believed to be human moral presence, and, in like manner, theists have frequently taken this reality to be the fundamental hint to how they are to consider divine flawlessness and to the acknowledgment of an impossible to miss divine contribution on the planet. Noticeable quality is hence concurred to the high moral educating and character of holy people and prophets, who play a unique part to play in sending the heavenly message. In certain religions this propensity finishes in conventions of manifestation, of God showing himself explicitly in refined or idealized human structure. This pattern is particularly set apart in the Christian religion, in which the case is typically made that a one of a kind and "once for all" manifestation of God has happened in Jesus Christ. Islam, then again, focuses on an otherworldly individual divinity yet imagines the blessedness and grandness of God so that it rejects incarnational precepts as a type of impiety. Notwithstanding, it in some cases addresses activities by a human person as the activity of God inside him. This recognizable proof of humankind with God is most apparent in the magic of the Sufis, yet in its reflection and profound aspects it likewise concurs with belief in a higher power.

Incarnational claims appear absolutely to have their spot effectively in a few fundamental types of belief in a higher power. The justification of such cases, nonetheless, depends a lot of on thought of the individual calculate religion by and large. For these and related reasons, the theist might wind up calling to his guide specific different disciplines that middle upon the individual, like brain science and human studies. Not the structures in general and discoveries of these examinations favor the theist, and he ought to take unique note of their test when they appear to be unfriendly, for they might contact him at his tenderest spot. The Vicarious Humanity of Christ and the Reality of Salvation

Christian D. Kettler, 2011-03-01 In this book the problem of the reality of salvation is addressed by T F Torrance's doctrine of the vicarious

The Primacy of God: The Virtue of Religion in Catholic Theology R. Jared Staudt, 2022-02-08 To contemporary minds the notion of justice toward God is seldom considered and often foreign Far more discussed is how God might either undermine or motivate social justice The Primacy of God by R Jared Staudt offers an important intervention With the aid of St Thomas Aquinas Staudt argues that it is vital for both contemporary society and contemporary Catholic theology to return to the traditional view of God as the one to whom all human and social action must be ordered and to recover the virtue of religion as the virtue which orders all other virtues to God Not only does Staudt helpfully remind readers of the ancient philosophical and biblical notion of worship as a dictate of the natural law he also illuminates the way in which Christian liturgy as an enactment of Christ s high priesthood is the great fulfillment of natural and biblical worship Accordingly Staudt secures religion as essential for the virtue of love This brings Staudt to criticize modern theologians like Karl Barth who claimed that religion is inherently idolatrous as well as Karl Rahner who claimed that love of neighbor is the highest moral act Staudt also considers the question of religious truth in light of the plurality of religions soliciting the assistance of Hans Urs von Balthasar and Joseph Ratzinger as well as the way in which religion relates to the development of culture engaging the great Catholic social historian Christopher Dawson The Primacy of God is a much needed work that ought to set the agenda for Catholic theology in the twenty first century

The Impact Of Reason On Faith, Ethics And Belief Geran F. Dodson, 2020-10-06 The purpose of the book is to examine the theological claims of ethics faith and belief from a philosophical perspective The Abrahamic and Mosaic covenants of the Old Testament Jesus of the synoptic gospels and Paul s writings serve as the frame of reference in examining a biblical expression of reason and structured logic The message of Jesus centered on the Kingdom of God defined the meaning of faith and belief established a new ethic and framed the message in logic forms The life and death of Jesus brought the realization of God s final covenant as prophesied by the Old Testament However Paul appropriated and developed the Jesus of history into the mythological eschatological Christ figure The clash of philosophy and theology is evident with theological presuppositions that are based on spiritual insight and divine revelation Logic in scripture employs propositions based primarily on revealed proof that is within the context of that which cannot be proven absolutely Uncovering the identity of YHWH in the manuscripts and religious practices of Canaanite culture clearly associated YHWH with the polytheism of the Ugarit texts YHWH was one of the seventy sons of the Canaanite Most High God El and took on a unique identity that was rooted in El and the polytheistic nature of the pantheon of gods Theological truths stand within the context of faith and reason stands apart from faith and infers only that which can be proven based on evidence That which is knowable by faith cannot be known by reason since reason cannot validate that

Black theology tends to be a theology about no body. Though one might assume that black and womanist theology have already given significant attention to the nature and meaning of black bodies as a theological issue, this inquiry has primarily taken the form of a focus on issues relating to liberation, treating the body in abstract terms rather than focusing on the experiencing of a material, fleshy reality. By focusing on the body as a physical entity and not just a metaphorical one, Pinn offers a new approach to theological thinking about race, gender, and sexuality. According to Pinn, the body is of profound theological importance. In this first text on black theology to take embodiment as its starting point and its goal, Pinn interrogates the traditional source materials for black theology, such as spirituals and slave narratives, seeking to link them to materials such as photography that highlight the theological importance of the body. Employing a multidisciplinary approach spanning from the sociology of the body and philosophy to anthropology and art history, *Embodiment and the New Shape of Black Theological Thought* pushes black theology to the next level. *Rural Manhood* Henry Israel, 1916 **Rural Manhood**, 1916
