In the Eyes of God Brian C. Howell, 2013-09-24 Throughout the Bible divine interaction with humanity is portrayed in almost embarrassingly human terms He sees hears thinks feels runs rides chariots laughs wields weapons gives birth and even repents Many of these expressions taken at face value seem to run afoul of much classical theology including divine simplicity transcendence omniscience omnipotence omnipresence and especially immutability Traditionally these texts have been seen as accommodations to human intellectual and moral limitations That is they were deemed as giving God a more

approachable feel but not as representing any real part of his character being or interaction with humanity For example references to God seeing or hearing are not deemed to represent real acts as God already knows everything However this view is largely based on an Aristotelian conception of metaphors as rhetorical devices not vehicles that carry any truth content Since the 1970s the understanding of how metaphors convey meaning has taken great strides These advances can help unlock how divine action often inadvertently flattened under theological presuppositions functions within a text This book aims to explore the biblical metaphor of divine sight and how current understandings of metaphorical function can enrich our reading of the text and its theology

T&T Clark *Handbook of Theology and the Arts* Stephen M. Garrett, Imogen Adkins, 2025-04-24 This volume presents the theology arts conversation from a distinctly Christian perspective as a witness of the Gospel of Christ to the world A widespread interest in the historical socio cultural and political embeddedness of theology and the arts permeates it This theme of embeddedness tracks through several overarching and interlocking concerns the relationship between form and content in both art and theology the intensification of the metaphysical and the theological contra materialist and positivist reductionisms the expansion of the epistemological possibilities of the theology art conversation and a robust understanding of the world as the theatre of God's glory Several chapters have been co written by theologians and artists as part of demonstrating the kind of conversation that this book commends A thorough going commitment to Scripture is also woven into the many different habits of thought represented in this volume Part I surveys different approaches to the theology arts conversation Part II focuses on how particular art forms bring theological issues to the surface and how theological and denominational traditions shape the making and receiving of the arts Part III delves into key topics in the current theology arts scene and asks how artistic and theological performance can both speak to theological and artistic knowing and help to celebrate and interrogate embodied lived reality

The Value of Human Life P.J. Harland, 2014-09-03 This book examines the way in which the story of the flood in Genesis 6-9 presents the ethical question of the value of human life The sources J and P are examined to see how their combination in the canonical text enhances interpretation Several themes of the story are studied including the causes of the flood the righteousness of Noah God's repentance creation and uncreation the covenant and the image of God The work concludes by arguing that the value of human life is found in man's relation to God Gen 9:6

The Theologian's Craft John Warwick Montgomery, 2017-03-09 What is it to do theology Numerous conflicting and inadequate answers e.g Bultmannian existentialism the post Bultmannian New Hermeneutic hold the field today these have in common a basic misunderstanding as to the relation of theological theologizing to theory construction in other fields of knowledge and a fundamental misconception in regard to the proper way of confirming or disconfirming theological judgments In this essay a detailed comparison between scientific and theological methodologies is set forth and the artistic and sacred dimensions of theological theorizing are explicated by way of an original structural model suggested by Wittgensteinian philosophical and linguistic analysis

Educational Ministry in

the Logic of the Spirit James E. Loder Jr.,2018-07-20 In November 2001 James E Loder Jr Professor of the Philosophy of Christian Education for forty years at Princeton Theological Seminary suddenly died He was a creative and profound thinker who had just completed a promising book In it he developed a compelling interdisciplinary model to disclose how the divine Spirit affirms reconstitutes and transforms the human spirit to bring new energy and creativity into human experience He called it redemptive transformation You now hold that book in your hands Those who know Loder s work are confident that Educational Ministry in the Logic of the Spirit though delayed for over fifteen years will still become the best introduction to his complex thought More important it offers the imaginative means by which we may learn to attune ourselves and our faith communities to what God is doing in our fractured distracted and self destructive world to bring about a revolution of love the fruit of Christ s Spirit and the center of our human vocation *Speaking the Incomprehensible God* Gregory P Rocca,2004 Aimed at specialists in Aquinas and others interested in the God talk dialogue this book finds that Aquinas analogy is more a matter of judgement and truth than of concept and meaning despite his own presuppositions Aquinas bases his theological analogy more on the insights of faith than reason Doubt, Faith, and Certainty Thiselton, Anthony C.,2017 Doubt faith certainty In this book celebrated theologian Anthony Thiselton provides clarity on these complicated long misunderstood theological concepts and the practical pastoral problems they raise for Christians He reminds us that doubt is not always bad faith can have different meanings in different circumstances and certainty is fragile Drawing on his expertise in the fields of exegesis and hermeneutics biblical studies and the history of Christian thought Thiselton works his way through the labyrinth of past definitions while offering better more nuanced theological understandings of these three interrelated concepts The result is a book that speaks profoundly to some of our deepest existential concerns Christian Dogmatics van der Kooi & van den Brink,2017 A fresh inviting text on the content of Christian faith in our contemporary context This one volume systematic theology presents an accessible orthodox overview of the Christian faith for students teachers pastors and serious lay readers Cornelis van der Kooi and Gijsbert van den Brink not only cover all the traditional themes creation sin Jesus Christ Scripture and so on but also relate those classical themes to contemporary developments like Pentecostalism postfoundationalism and evolutionary theory Consisting of sixteen chapters the book is ideal for classroom use Each chapter begins with engaging questions and a statement of learning goals and concludes with a list of recommended further reading Written in a student friendly tone and style and expertly translated and edited van der Kooi and van den Brink s Christian Dogmatics splendidly displays the real practical relevance of theology to the complexities of our world today **Explanation** Giora Hon,Sam S. Rakover,2013-04-17 For some years we have been conducting at the University of Haifa an interdisciplinary seminar on explanation in philosophy and psychology We habitually begin the seminar with some philosophical reflections on explanation an analysis of the concept and its metaphysical underpinnings We discuss the various models and proceed to examine explanation in the setting of psychology Thus from the outset we have focused

not only on the concept itself but also on its application The objective that we have set for the seminar attended by students from both departments Philosophy and Psychology has been a critical understanding of the concept of explanation its use and limitations We were keen on deepening our understanding of the concept and on exploring its applications in fields of knowledge other than psychology This was the motivation for convening an international conference on explanation and its application The conference took place in the spring of 1998 under the auspices of the University of Haifa The present book is the fruit of this meeting The reader should note that the second part of the Introduction presents a detailed analytical account of the book We hope that this overview will facilitate efficient use of the book by directing the reader's attention to those issues that might be of interest to him or her
