In Search of the Good Society Malcolm McIntosh, 2017-11-09 Compelling reading this book both reinforces and elevates the role of art in the exploration and analysis of the concepts of democracy globalization and capitalism In the book the author describes a post human world a state we have already entered But how should we think about it given we have already been co-opted Can we articulate the future outside the false discipline that the market often dictates beyond the clutches of a few social media companies and maintain our rich diversities while holding on to those things that make life possible and worthwhile love hope and art Running throughout the book is the central theme of uncertainty and divergence It is uncompromising in asking the question about the need for a new global creation story which has at its core not the certainties of one defined creation myth but the need to feel comfortable with the uncertainty principle both in physics and the political economy It is up to artists scientists and philosophers to articulate this wonder and to help us write a new global creation story based on art the arts uncertainty diversity risk and wonder and of course knowledge This book has the capacity to both clarify and re-shape your thinking

Trees in Paradise Jared Farmer, 2013-10-21 From roots to canopy a lush verdant history of the making of California California now has more trees than at any time since the late Pleistocene This green landscape however is not the work of nature It's the work of history In the years after the Gold Rush American settlers remade the California landscape harnessing nature to their vision of the good life Horticulturists boosters and civic reformers began to improve the bare brown countryside planting millions of trees to create groves wooded suburbs and landscaped cities They imported the blue green eucalypts whose tangy fragrance was thought to cure malaria They built the lucrative Orange Empire on the sweet juice and thick skin of the Washington navel an industrial fruit They lined their streets with graceful palms to announce that they were not in the Midwest anymore To the north the majestic coastal redwoods inspired awe and invited exploitation A resource in the state the durable heartwood of these timeless giants became infrastructure transformed by the saw teeth of American enterprise By 1900 timber firms owned the entire redwood forest by 1950 they had clear-cut almost all of the old growth trees In time California's new landscape proved to be no paradise the eucalypts in the Berkeley hills exploded in fire the orange groves near Riverside froze on cold nights Los Angeles's palms harbored rats
