The Glaucoma Book Paul N. Schacknow, John R. Samples, 2010-06-10 Putting together a comprehensive multiauthored text is a daunting task However the benefits may justify the effort Such is the case with regards to the present Glaucoma Book It is not likely that many ophthalmologists or others will decide at the end of a busy day to pour themselves a cocktail and settle into a comfortable chair with this large tome in hand with the intent of reading it from start to finish A pity It would make several enjoyable and profitable days of good reading The text starts with comments by an individual who is strongly grounded in the fundamentals of being a good physician Ivan Goldberg has used his brilliance his wide international experiences and knowledge and his commitment to assuring that physicians know their craft to provide a penetrating perspective on ophthalmology today and tomorrow The Glaucoma Book ends with commentaries by the editors John Samples a true physician scientist and Paul Schacknow an experienced community based clinician Samples essay What Really Causes Glaucoma nicely describes the leading theories underlying the cell biology of glaucoma In What Do We Know Now What Do We Need to Know About Glaucoma Schacknow offers an essay on some of the controversial ideas raised within the book and speculates on future research

Fundamentals of Geriatric Medicine Rainier P. Soriano, 2007-05-26 Prior to the evolution of modern medicine with its superabundance of diagnostic and therapeutic medical technology and the rise of the litigious society the value of clinical skills was evident in both history taking and the physical examination Even today physicians can make a correct diagnosis solely by utilizing their clinical skills in about 90% of patient encounters Furthermore in the past physicians understood their role as a psychologist and were more apt to be familiar with the social context of their patients House calls were common The doctor was also a placebo who at his best inspired hope and probably sped recovery Geriatricians use both clinical skills and take advantage of modern technology sparingly for they know they are dealing with the most challenging and frail of patients older patients who so often present with multiple complex interacting behavioral social and physical problems In contrast to medicine for young people working with the older patient is much more demanding Furthermore the complex issue of societal attitudes toward old people can come into play especially the physician s need to deal with natural fears of aging dependency depression dementia and death Ageism is the enemy of effective medical treatment At its best geriatrics exemplifies ways that medical care for all ages can become more humane problem oriented and holistic
