Remembering Forgetting:

Complexities and Dangers of Remembering and Forgetting in Rwanda Olivier Nyirubugara, 2013 Can a society a culture a country be trapped by its own memories The question is not easy to answer but it would not be a bad idea to cautiously say It depends This book is about one society Rwanda and its culture traditions identities and memories More specifically it discusses some of the ways in which ethnic identities and related memories constitute a deadly trap that needs to be torn apart if mass violence is to be eradicated in that country It looks into everyday cultural practices such as child naming and oral traditions myths and tales proverbs war poetry etc and into political practices that govern the ways in which citizens conceptualise the past Rwanda was engulfed in a bloody war from 1990 until 1994 the last episode of which was a genocide that claimed about a million lives amongst the Tutsi minority This book the first in the Memory Traps series provides a new understanding of how a seemingly quiet society can suddenly turn into a scene of the most horrible inter ethnic crimes It offers an analysis of the complexities and dangers resulting from the ways in which memories are managed both at a personal level and at a collective level The main point is that Rwandans have become hostages of their memories of the long gone and the recent past The book shows how these memories follow ethnic lines and lead to a state of cultural hypocrisy on the one hand and to permanent conflict either open and brutal or latent and beneath the surface on the other hand Written from a memory studies perspective and informed by critical theory philosophy literature oral history and psychology amongst others this book deals with some controversial subjects and deconstructs some of the received ideas about the recent and the long gone past of Rwanda About the author Olivier Nyirubugara is a lecturer of New Media and Online Journalism at the Erasmus School of History Culture and Communication Erasmus University Rotterdam In 2011 he completed a PhD in Media Studies at the University of Amsterdam with a dissertation entitled Surfing the Past Digital Learners in the History Class in which he empirically explored ways in which pupils use the Web to find historical information Nyirubugara has also been practicing journalism since 2002 and has been training and coaching journalists in mobile reporting in Africa since 2007

The Memory Illusion Dr Julia Shaw, 2016-06-16 THE INTERNATIONAL BESTSELLER Truly fascinating Steve Wright BBC Radio 2 Have you ever forgotten the name of someone you've met dozens of times Or discovered that your memory of an important event was completely different from everyone else's Or vividly recalled being in a particular place at a particular time only to discover later that you couldn't possibly have been We rely on our memories every day of our lives They make us who we are And yet the truth is they are far from being the accurate record of the past we like to think they are In *The Memory Illusion* forensic psychologist and memory expert Dr Julia Shaw draws on the latest research to show why our memories so often play tricks on us and how if we understand their fallibility we can actually improve their accuracy The result is an exploration of our minds that both fascinates and unnerves and that will make you question how much you can ever truly know about yourself Think you have a good memory Think again A spryly paced fun sometimes frightening

exploration of how we remember and why everyone remembers things that never truly happened Pacific Standard

The Feeling of Forgetting John Corrigan, 2023-07-06 A provocative examination of how religious practices of forgetting drive white Christian nationalism The dual traumas of colonialism and slavery are still felt by Native Americans and African Americans as victims of ongoing violence toward people of color today In *The Feeling of Forgetting* John Corrigan calls attention to the trauma experienced by white Americans as perpetrators of this violence By tracing memory's role in American Christianity Corrigan shows how contemporary white Christian nationalism is motivated by a widespread effort to forget the role race plays in American society White trauma Corrigan argues courses through American culture like an underground river that sometimes bursts forth into brutality terrorism and insurrection Tracing the river to its source is a necessary first step toward healing

Forgetting to Remember Jenna Kemp, 2025-09-22

The Collected Works of Gertrude Stein Gertrude Stein, 2022-11-13 *The Collected Works of Gertrude Stein* is a comprehensive anthology showcasing the innovative and experimental prose and poetry of one of the most significant figures of modernist literature Stein's work defies conventional narrative techniques through her use of repetition fragmentation and unique structuring presenting a kaleidoscopic view of identity language and existence This collection encapsulates her most iconic texts including *Three Lives* and *Tender Buttons* allowing readers to explore Stein's revolutionary approach to narrative and her exploration of the fluidity of meaning in a rapidly changing world post World War I Gertrude Stein 1874-1946 an American avant garde writer and art collector played a pivotal role in the development of modernist art and literature Residing in Paris during a time of artistic upheaval Stein became a central figure in the expatriate community befriending celebrated artists and writers including Picasso and Hemingway Her keen intellect and innovative spirit compelled her to challenge traditional literary forms leading her to create works that reflect her profound engagement with the contemporary artistic milieu This meticulously compiled collection is highly recommended for readers seeking to engage with the complexities of modernist literature Stein's unique voice and perspective on art and language offer invaluable insights into the human condition Whether you are a seasoned scholar or a curious newcomer *The Collected Works of Gertrude Stein* is essential for understanding the evolution of 20th century literature

Barnier, 2018 We remember in social contexts We reminisce about the past together collaborate to remember shared experiences and remember in the context of our communities and cultures This book explores the topic of collaborative remembering across a wide range of fields including developmental cognitive and social psychology

Memory, Forgetting and the Moving Image Caterina Albano, 2016-09-30 Throughout this book we discover what our idea of memory would be without the moving image This thought provoking analysis examines how the medium has informed modern and contemporary models of memory The book examines the ways in which cinematic optic procedures inform an understanding of memory processes Critical to the reciprocity of mind and screen is forgetting and the

problematic that it inscribes into memory and its relation to contested histories Through a consideration of artworks film video and sound installation by artists whose practice has consistently engaged with issues surrounding memory amnesia and trauma the book brings to bear neuro psychological insight and its implication with the moving image as both image and sound to a consideration of the global landscape of memory and the politics of memory that inform them The artists featured include Kerry Tribe Shona Illingworth Bill Fontana Lutz Becker Yervant Gianikian and Angela Ricci Lucchi Harun Faorcki and Eyal Sivan

Forgetting Scott A. Small, 2021-07-13 Fascinating and useful The distinguished memory researcher Scott A Small explains why forgetfulness is not only normal but also beneficial Walter Isaacson bestselling author of *The Code Breaker* and Leonardo da Vinci Who wouldn't want a better memory Dr Scott Small has dedicated his career to understanding why memory forsakes us As director of the Alzheimer's Disease Research Center at Columbia University he focuses largely on patients who experience pathological forgetting and it is in contrast to their suffering that normal forgetting which we experience every day appears in sharp relief Until recently most everyone memory scientists included believed that forgetting served no purpose But new research in psychology neurobiology medicine and computer science tells a different story Forgetting is not a failure of our minds It's not even a benign glitch It is in fact good for us and alongside memory it is a required function for our minds to work best Forgetting benefits our cognitive and creative abilities emotional well being and even our personal and societal health As frustrating as a typical lapse can be it's precisely what opens up our minds to making better decisions experiencing joy and relationships and flourishing artistically From studies of bonobos in the wild to visits with the iconic painter Jasper Johns and the renowned decision making expert Daniel Kahneman Small looks across disciplines to put new scientific findings into illuminating context while also revealing groundbreaking developments about Alzheimer's disease The next time you forget where you left your keys remember that a little forgetting does a lot of good

Shakespeare and Forgetting Peter Holland, 2021-06-03 What does it signify when a Shakespearean character forgets something or when Hamlet determines to wipe away all trivial fond records How might forgetting be an act to be performed or be linked to forgiveness such as when in *The Winter's Tale* Cleomenes encourages Leontes to forget your evil With them forgive yourself And what do we as readers and audiences forget of Shakespeare's works and of the performances we watch This is the first book devoted to a broad consideration of how Shakespeare explores the concept of forgetting and how forgetting functions in performance A wide ranging study of how Shakespeare dramatizes forgetting it offers close readings of Shakespeare's plays considering what Shakespeare forgot and what we forget about Shakespeare The book touches on an equally broad range of forgetting theory from antiquity through to the present day of forgetting in recent novels and films and of creative ways of making sense of how our world constructs the cultural meaning of and anxiety about forgetting Drawing on dozens of productions across the history of Shakespeare on stage and film the book explores Shakespeare's dramaturgy from characters who forget what they were about to say to characters who leave the stage never

to return from real forgetting to performed forgetting from the mad to the powerful from playgoers to Shakespeare himself

Proust, Beckett, and Narration James H. Reid, 2003-10-13 This is a comprehensive comparison of the narrative techniques of two of the twentieth century's most important writers of prose. Using a combination of theoretical analysis and close readings of Proust's *A la recherche du temps perdu* and Beckett's trilogy of novels *Molloy*, *Malone Dies*, and *The Unnamable*, James H. Reid compares the two novelists' use of first person narration in constructing and demystifying fictions of consciousness. Reid focuses on the narrator's search to represent the voice that speaks the novel; a search, he argues, that structures first person narration in the works of both novelists. He examines in detail the significant impact of Proust's writing on Beckett's own work as well as Beckett's subtle reworkings of Proust's themes and strategies. This study is an important contribution to critical literature and offers fresh perspectives on the crucial importance of the *Recherche* and the trilogy in the context of the twentieth century novel.
