What's Really Important, **Introduction to Knowledge Management** Todd Groff, Thomas Jones, 2012-06-25 This book introduces readers to a wide range of knowledge management KM tools, techniques, and terminology for enhancing innovation, communication, and dedication among individuals and workgroups. The focus is on real-world business examples using commonly available technologies. The book is set out in a clear and straightforward way with definitions highlighted. Brief case studies included that illustrate key points. Dialogue sections that probe for practical applications and written exercises. Each chapter concludes with discussion questions, review questions, and a vocabulary review. An Online Instructor's Guide is available. **The Strengths Path Time Manager** Dale Cobb, 2017-02-27 This book is for anyone interested in delivering the Best Version of Themselves at work. People naturally manage their time well when they are working from their strengths. Most of the time management programs are designed to help learners muster the discipline to work from weakness. This program begins with your natural strengths and then integrates that philosophy through each piece of your life. This book is a terrific resource if you are setting goals that aren't authentic. Selecting strategies that don't fit. Struggling with procrastination. Stuck in classic time management methods. **Leading Schools Successfully** Christopher Day, David Gurr, 2013-07-24 Leading Schools Successfully: Stories from the field considers international research focussing on leadership in schools. Based on the ISSPP International Successful School Principalship Project which has conducted over one hundred multiple perspective case studies of successful school principals from more than a dozen countries, the book captures the exhilaration of being a principal who grows and sustains success from those practitioners who are acknowledged as exhibiting outstanding leadership. Whilst much is known about successful school leaders, the book reinforces the argument that it is neither possible nor appropriate to generalise specific strategies that should be adopted to ensure success for all schools at all times in all settings. Instead, success calls for a high level of judgement, wisdom, artistry, and sheer hard work on the part of principals adapting for their particular context. The knowledge about leading schools successfully. Reflection sections in each chapter ask the reader to consider further issues which each chapter raises. Topics considered include the importance of school principals to school success, turning around underperforming schools, values-led leadership, sustaining successful leadership, leading in multi-cultural settings, issues and implications for the future. With international contributions from experts in the field, the book offers a new perspective on leadership in schools and will be of interest to school principals and researchers. **The Basecamp Manifesto** Terence C. Young, 2024-10-31 It is often said that it is lonely at the top. But this loneliness can be dangerous, not only to the leader but also to the led. It turns out we hold our environments as we are

held If we are not held in a caring and daring fashion it shows up in how we live and lead The Basecamp Manifesto is a formative work on developing and sustaining leadership skills Here Terence Young outlines the development of a changed narrative around leading organizations Rather than the often stereotyped perception of leadership as a solitary ascent to the top followed often by an equally solitary descent down the leadership peak Young has created a framework for leadership that relies on developing a basecamp of companions Like the familiar basecamps of extraordinary physical ascents of Mount Everest and other spectacular and spectacularly challenging peaks a leader's basecamp is a secure base of trusted and trusting peers that shape and nurture you during the ascent to leadership Young presents the gifts that current and future leaders should find in a secure base greater clarity in the sense making process enhancement of agility in navigating dynamic situations building endurance to face challenges and fostering generativity for greater productivity and innovation in one's life quest The Basecamp Manifesto is written for leaders of all organizations whether for profit or nonprofit Whether a business leader an educational leader a political leader a religious leader or other society facing leader all leaders face particular and specific challenges in leadership How do I lead and navigate with those in my circle through a world of increasing volatility uncertainty complexity and ambiguity For the sake of those you lead Young's groundbreaking work says to leaders find your people find your secure base find and shape and nurture the circle of trust that can make you a quality leader The Basecamp Manifesto can help you to become intentional about shaping relationships where clarity agility durability and generativity can be found and fostered
