School Social Work Practice Policy And Research Perspectives:

School Social Work Robert Constable, 2021-08-18 The 9th edition of School Social Work Practice Policy and Research marks the further development of school social work as a social work specialization as well as this venerable textbook itself. American school social work is well into its second century now and despite ever present concerns about limited resources, budgets, and school social worker student ratios, school social work continues to grow both in the U S and internationally. Throughout the U S and globally, school social work is becoming increasingly essential to the educational process as families and communities strive to make schools safe and inclusive places for children to learn, to grow, and to flourish. This 9th edition strives to reflect how school social work practice in the third decade of the 21st century effectively impacts academic, behavioral, and social outcomes for youth and the school communities they serve.

Theory & Practice in Clinical Social Work Jerrold R. Brandell, 2010-02-16 Today's clinical social workers face a spectrum of social issues and problems of a scope and severity hardly imagined just a few years ago and an ever widening domain of responsibility to overcome them. *Theory and Practice in Clinical Social Work* is the authoritative handbook for social work clinicians and graduate social work students that keeps pace with rapid social changes and presents carefully devised methods, models, and techniques for responding to the needs of an increasingly diverse clientele. Following an overview of the principal frameworks for clinical practice including systems theory, behavioral and cognitive theories, psychoanalytic theory, and neurobiological theory, the book goes on to present the major social crises, problems, and new populations the social work clinician confronts each day. *Theory and Practice in Clinical Social Work* includes 29 original chapters, many with carefully crafted and detailed clinical illustrations by leading social work scholars and master clinicians who represent the widest variety of clinical orientations and specializations. Collectively, these leading authors have treated nearly every conceivable clinical population in virtually every practice context using a full array of treatment approaches and modalities. Included in this volume are chapters on practice with adults and children, clinical social work with adolescents, family therapy, and children's treatment groups. Other chapters focus on social work with communities affected by disasters and terrorism, clinical case management, cross cultural clinical practice, psychopharmacology, practice with older adults, and mourning and loss. The extraordinary breadth of coverage will make this book an essential source of information for students in advanced practice courses and practicing social workers alike.
