Science Technology And The Labour Process Marxist Studies Vol 1:

Science, Technology and the Labour Process, 1983 *Science, Technology, and the Labour Process* Les Levidow, 1981 **The SAGE Handbook of Marxism** Beverley Skeggs, Sara R. Farris, Alberto Toscano, Svenja Bromberg, 2021-11-17 The past decade has witnessed a resurgence of interest in Marxism both within and without the academy Marxian frameworks concepts and categories continue to be narratively relevant to the features and events of contemporary capitalism Most crucially an attention to shifting cultural conditions has lead contemporary researchers to re confront some classical and essential Marxist concepts as well as elaborating new critical frameworks for the analysis of capitalism today The SAGE Handbook of Marxism showcases this cutting edge of today s Marxism It advances the debate with essays that rigorously map and renew the concepts that have provided the groundwork and main currents for Marxist theory and showcases interventions that set the agenda for Marxist research in the 21st century A rigorous and challenging collection of scholarship this book contains a stunning range of contributions from contemporary academics writers and theorists from around the world and across disciplines invaluable to scholars and graduate students alike Part 1 Reworking the critique of political economy Part 2 Forms of domination subjects of struggle Part 3 Political perspectives Part 4 Philosophical dimensions Part 5 Land and existence Part 6 Domains Part 7 Inquiries and debates *Primate Visions* Donna J. Haraway, 2013-01-11 Haraway s discussions of how scientists have perceived the sexual nature of female primates opens a new chapter in feminist theory raising unsettling questions about models of the family and of heterosexuality in primate research **The Terror of the Machine** Devon G. Peña, 2014-10-14 Born of thirteen years of field research this interdisciplinary work explores the complex intersections of technology class gender and ecology in the transnational milieu of Mexico s maquiladoras foreign owned assembly plants located along the U S border Devon Pe a examines workplace and community struggles from the perspective of the women who work in the maquiladoras He describes the workers struggles for workplace democracy social justice and sustainable development He also observes the circulation of struggle from the factory to the community highlighting the efforts to establish worker owned cooperatives in the border region during the 1970s and 1980s Female maquila workers are typically portrayed as passive apolitical and easily exploited This book however presents an opposing view investigating the subaltern life of the shop floor the workers informal methods of resistance to hazardous conditions sexual harassment and managerial tyranny Using survey research oral history discourse analysis and site ethnography the author develops a cogent critique of labor process theory a critique grounded on his extensive study of actual workplace politics in the maquiladoras The Terror of the Machine is a trenchant analysis of the political cultural and environmental effects of maquila industrialization and an eloquent and persuasive call for alternatives in the direction of ecologically sustainable and culturally appropriate modes of development **Darwin's Metaphor** Robert Maxwell Young, 1971 **Anti-Capitalism** Lecio Morais, 2002-12-20 This book is a collection of essays from some of the

world's leading Marxist economists on the problems of globalisation and the evolution of modern capitalism. With contributions from Suzanne de Brunhoff, Ellen Meiksins Wood, Ben Fine, Simon Clarke, John Holloway and John Weeks among others, it provides a cohesive critique of the weaknesses of the existing system and puts forward a new agenda for anti-capitalist thought and action. Covering key issues such as globalisation, the nation state, money and finance, conflict and war, technological change, the environment, class struggle, economic crisis, capitalism in the Third World, the collapse of the USSR and the transcendence of capitalism, this is an ideal introduction to some of the most pressing problems of our time.

The Political Economy of Information Vincent Mosco, Janet Wasko, 1988. The information society is real. Information as a marketable commodity is quickly taking up the powerful role once held by heavy industry and manufactured products. How this revolution is affecting society and how society and government are responding to it is the subject of this book. Its lessons and conclusions are of critical importance as we enter the last decade of this century. Every dimension of social life, whether in the home or the workplace, is affected by information and the technologies that give it market value. Along with the positive aspects of these broad changes, there are inevitable problems: the growing gap between the information-rich and information-poor, the need for widespread access to communication and information technology, the threat to individual privacy and the potential of the technology to create global instabilities. The editors have enlisted specialists and scholars in business, communications studies, computing and information science, economics, law, library science, political science and sociology to examine these changes and problems by looking at information specifically as a commodity to be traded, protected and desired.

Labour Process Theory David Knights, Hugh Willmott, 2016-07-27. How are we to make sense of the way work is organised and controlled? To what extent is its design the result of technological demands, the interests of capital or processes of negotiation and struggle? In recent years, labour process analysis, revived by Braverman's *Labor and Monopoly Capital*, has been most influential in shaping our thinking about this question. With contributions from leading authorities in the field, this book reviews the contribution of the labour process theory to the study of work organisation. Providing a fresh response to criticisms of Bravermania and lost momentum, the volume explores the theoretical foundations of labour process analysis and suggests new directions for its development.

The Darwinian Heritage David Kohn, 2014-07-14. Representing the present rich state of historical work on Darwin and Darwinism, this volume of essays places the great theorist in the context of Victorian science. The book includes contributions by some of the most distinguished senior figures of Darwin scholarship and by leading younger scholars who have been

transforming Darwinian studies The result is the most comprehensive survey available of Darwin's impact on science and society Originally published in 1986 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

The Anatomy of Neoliberalism and Education Maria Nikolakaki, 2022-01-01 This book is about the Anatomy of Neoliberalism and Education from a Marxist perspective It is the dialectical materialism of neoliberal ideas examining the material conditions of how these ideas and practices emerged and under what conditions Each of these elements is related to the other and can only be properly understood as part and parcel of the whole system of capitalism which links them together This book investigates neoliberalism's political cultural and financial tools It goes deep in the forces who have supported neoliberalism and how it became common sense It explores the imperialist outcomes and the social devastation it created It then goes to see how these ideas and policies have been implemented in education In short it is the materialist conception of the history of the American empire It then uses the analytic tools developed through this investigation to re-read the neoliberal educational reforms

Writers' Rights Nicole S. Cohen, 2016-11-01 As media industries undergo rapid change the conditions of media work are shifting just as quickly with an explosion in the number of journalists working as freelancers Although commentary frequently lauds freelancers as ideal workers for the

information age adaptable multi skilled and entrepreneurial Nicole Cohen argues that freelance media work is increasingly precarious marked by declining incomes loss of control over one's work intense workloads long hours and limited access to labour and social protections Writers Rights provides context for freelancers struggles and identifies the points of contention between journalists and big business Through interviews and a survey of freelancers Cohen highlights the paradoxes of freelancing which can be simultaneously precarious and satisfying risky and rewarding She documents the transformation of freelancing from a way for journalists to resist salaried labour in pursuit of autonomy into a strategy for media firms to intensify exploitation of freelance writers labour power and presents case studies of freelancers efforts to collectively transform their conditions A groundbreaking and timely intervention into debates about the future of journalism organizing precariously employed workers and the transformation of media work in a digital age Writers Rights makes clear what is at stake for journalism's democratic role when the costs and risks of its production are offloaded onto individuals **The**

Biologising of Childhood John R. Morss, 2017-12-06 Originally published in 1990 this book looks at the history of developmental psychology in order to locate and evaluate the role played by biology in its most influential formulations First Charles Darwin's own writings on child development are examined It is shown that Darwin endorsed such ideas as the recapitulation of evolutionary ancestry in the developing child even though this is inconsistent with his natural selection theory The first great developmentalists Hall Baldwin Freud adopted and applied these non Darwinian evolutionist ideas The next generation Vygotsky Piaget Werner applied similar ideas in a variety of ways Alongside this evolutionism but interconnected with it sensationist empiricist forms of epistemology were directing developmentalists from Rousseau onwards to see the child as having to work himself out of sense bound experience to develop further and further from the here and now Contemporary developmental theory retains these influences biological approaches ethological psychobiological remain pre Darwinian in spirit lifespan theories remain attached to biology formal cognitive approaches remain attached to sensationism Social context approaches are rather half hearted and it is only the social constructionist orientation which seems to offer a real alternative to biology Major conclusions are stated in chapter ten which includes a re evaluation of Darwin's role

Marx's 'Capital' Ben Fine, Alfredo Saad-Filho, 2016-07-20 This expert guide to the political economy of Marx's Capital has always been the very best available David Harvey This brilliantly concise book is the classic companion to Karl Marx's most well known work Capital In print now for over a quarter of a century and translated into many languages this new edition has been fully revised and updated making it an ideal modern introduction to one of the most important texts in political and economic thought today The authors cover all central aspects of Marx's economics They explain the structure of Marx's analysis and the meaning of the key categories in Capital showing the internal coherence of Marx's approach and their relevance today Marx's method and terminology are explored in detail with supporting examples Short chapters set out the significance of Marx's main concepts and can be grasped easily making it a practical text for

anyone with an interest in understanding Marx's magnum opus *Discussing Capital's* relevance today the authors keep abstract theorising to a minimum This readable introduction highlights the continuing relevance of Marx's ideas in the light of the problems of contemporary capitalism *Working Life* Paul Thompson,Chris Smith,2017-09-16 Labour process theory is consolidated in *Working Life* to develop a credible account of the relationships between capitalist political economy work systems and the strategies and practices of actors in the employment relationship Beyond this the book explores the future of labour process analysis Technology and Employment Practices in Developing Countries Hubert Schmitz,2018-04-09 Originally published in 1985 this book analyses the extent and way in which technological change determines the utilisation of labour in less developed economies The book compares firms which are technologically very advanced with firms which use less sophisticated machinery and equipment and analyses how technology shapes their demand for labour It is concerned with the impact of technological change on the utilisation of labour in terms of number of jobs recruitment training skill requirements labour turnover wages and internal mobility it also investigates the impact on the utilisation of external labour in the form of subcontracting of small producers and employment of outworkers
