Seductive Forms Womens Amatory Fiction From 1684 To 174:

Seductive Forms Ros Ballaster, 1992-07-02 Historicist and feminist accounts of the rise of the novel have neglected the phenomenon of the professional woman writer in England prior to the advent of the sentimental novel in the 1740s *Seductive Forms* explores the means by which the three leading Tory women novelists of the late seventeenth and early eighteenth centuries challenged and reworked both contemporary gender ideologies and generic convention The seduction plot provided Aphra Behn Delarivier Manley and Eliza Haywood with a vehicle for dramatizing their own appropriation of the masculine power of fiction making Seduction is employed in these fictions as a metaphor for both novelistic production the seduction of the reader by the writer and party political machination the seduction of the public by the politician This challenging and lively book also explores the debts early prose fiction owed to French seventeenth century models of fiction writing and argues that Behn Manley and Haywood succeed in producing a distinctively English and female form for the amatory novel

Seductive Forms Rosalind Ballaster, 1989 *The Oxford Handbook of Eighteenth-Century Satire* Paddy Bullard, 2019-07-30 Eighteenth century Britain thought of itself as a polite sentimental enlightened place but often its literature belied this self image This was an age of satire and the century s novels poems plays and prints resound with mockery and laughter with cruelty and wit The street level invective of Grub Street pamphleteers is full of satire and the same accents of raillery echo through the high scepticism of the period s philosophers and poets many of whom were part time pamphleteers themselves The novel a genre that emerged during the eighteenth century was from the beginning shot through with satirical colours borrowed from popular romances and scandal sheets This Handbook is a guide to the different kinds of satire written in English during the long eighteenth century It focuses on texts that appeared between the restoration of the Stuart monarchy in 1660 and the outbreak of the French Revolution in 1789 Outlier chapters extend the story back to the first decade of the seventeenth century and forward to the second decade of the nineteenth The scope of the volume is not confined by genre however So prevalent was the satirical mode in writing of the age that this book serves as a broad and characteristic survey of its literature The Oxford Handbook of Eighteenth Century Satire reflects developments in historical criticism of eighteenth century writing over the last two decades and provides a forum in which the widening diversity of literary intellectual and socio historical approaches to the period s texts can come together *New Contexts for Eighteenth-Century British Fiction* Christopher D. Johnson, 2011-04-18 *New Contexts for Eighteenth Century British Fiction* is a collection of thirteen essays honoring Professor Jerry C Beasley who retired from the University of Delaware in 2005 The essays written by friends collaborators and former students reflect the scholarly interests that defined Professor Beasley s career and point to new directions of critical inquiry The initial essays which discuss Tobias Smollett Elizabeth Singer Rowe and Samuel Richardson suggest new directions in biographical writing including the intriguing discourse of life writing explored by Paula Backscheider Subsequent essays enrich understandings of eighteenth century

fiction by examining lesser known works by Jane Barker Eliza Haywood and Charlotte Lennox Many of the essays especially those that focus on Smollett use political pamphlets material artifacts and urban legends to place familiar novels in new contexts The collection s final essay demonstrates the vital importance of bibliographic study The Oxford Handbook of the Eighteenth-Century Novel J. A. Downie,2016-07-21 Although the emergence of the English novel is generally regarded as an eighteenth century phenomenon this is the first book to be published professing to cover the eighteenth century English novel in its entirety This Handbook surveys the development of the English novel during the long eighteenth century in other words from the later seventeenth century right through to the first three decades of the nineteenth century when with the publication of the novels of Jane Austen and Walter Scott the novel finally gained critical acceptance and assumed the position of cultural hegemony it enjoyed for over a century By situating the novels of the period which are still read today against the background of the hundreds published between 1660 and 1830 this Handbook not only covers those masters and mistresses of early prose fiction such as Defoe Richardson Fielding Sterne Burney Scott and Austen who are still acknowledged to be seminal figures in the emergence and development of the English novel but also the significant number of recently rediscovered novelists who were popular in their own day At the same time its comprehensive coverage of cultural contexts not considered by any existing study but which are central to the emergence of the novel such as the book trade and the mechanics of book production copyright and censorship the growth of the reading public the economics of culture both in London and in the provinces and the re printing of popular fiction after 1774 offers unique insight into the making of the English novel **The Cambridge Companion to Aphra Behn** Derek Hughes,Janet Todd,2004-11-25 Traditionally known as the first professional woman writer in English Aphra Behn has now emerged as one of the major figures of the Restoration She provided more plays for the stage than any other author and greatly influenced the development of the novel with her ground breaking fiction especially Love Letters between a Nobleman and his Sister and Oroonoko the first English novel set in America Behn s work straddles the genres beside drama and fiction she also excelled in poetry and she made several important translations from French libertine and scientific works This Companion discusses and introduces her writings in all these fields and provides the critical tools with which to judge their aesthetic and historical importance It also includes a full bibliography a detailed chronology and a description of the known facts of her life The Companion will be an essential tool for the study of this increasingly important writer and thinker Presenting Gender Chris Mounsey,2001 A collection of essays that concerns writers or real people of the early modern period who presented their protagonists or themselves as members of the opposite biological sex The collection demonstrates the variety of motives for such acts of gender passing and offers interpretations that shed some light on the probable intentions of the gender passers **Literature Criticism from 1400 to 1800** ,2007 **The Prospect Before Her: 1500-1800** Olwen H. Hufton,1995 This book is the first history of women to integrate the history of women into general history In it Hufton a

distinguished historian and award winning author brings together a mass of detailed material on women in early modern Europe **Aphra Behn (1640-1689)** ,2000 It was Aphra Behn who opened up new paths for women in their quest for an identity to know themselves better by discovering the other As the many books published in Britain and in the United States over the last years this volume reveals the numerous facets of the writer while stressing her ambiguity **The History of British Women's Writing, 1690 - 1750** Jennie Batchelor,Cora Kaplan,Caroline Bicks,Jennifer Summit,Rosalind Ballaster,Jacqueline M. Labbe,2010-09-10 Rethinking the history of women s writing and literary history itself this volume 2 examines the diversity of early women s writing from verse and songs to household records and recipes offering a new paradigm for understanding women s shaping roles in the literary religious and political movements of the sixteenth century
