Pergamon and Rome: Culture, Identity, and Influence , 2025-06-19 This interdisciplinary volume provides the first comprehensive study of Rome's relationship with the kingdom and city of Pergamon It surveys the rich and diverse interactions between these two cities from the late third century BCE to the fourth century CE ranging across multiple cultural spheres including art and architecture history and politics literature and poetry philosophy and thought scholarship and rhetoric The book reassesses the nature scope and extent of Pergamon and Rome's so called special relationship shedding light on much discussed problems offering new evidence for their cultural interactions and questioning long established assumptions One recurrent theme concerns the limitations of our knowledge extant evidence is limited and often skewed by later Roman sources and it is frequently very difficult to identify and define cultural features that are distinctively Pergamene Nevertheless there was certainly an important relationship between these two cities which this volume seeks to map out with greater nuance precision and breadth setting it within a wider interconnected Hellenistic context As a whole the volume reflects on the scholarly reception of Pergamon uncovering how and when a certain view of a cohesive Pergamene culture took shape among modern scholarship and what factors prejudices and assumptions undergirded its creation It also challenges and rethinks the frameworks that shape our view of cultural activity in the Hellenistic world emphasizing the porousness of cultural movements across political boundaries This book will be of interest not only to scholars of Roman culture but also to those interested in the impact of Hellenistic culture on Rome more generally and to scholars engaged with theories and models of cultural influence **Ancient Women Philosophers** Katharine R. O'Reilly, Caterina Pellò, 2023-08-31 Despite the common misconception that ancient philosophy was the domain of male thinkers sources confirm that ancient women engaged in philosophical activity Bringing together a collection of essays on ancient women thinkers with special focus on their ideas and contributions to the history of philosophy this volume is about the earliest women philosophers their breakthroughs and the methods we can use to excavate them The essays survey the methodological strategies we can use to approach the surviving evidence retrieve the largely unresearched thought and the original ideas of ancient women philosophers and carve out a space for them in the canon The broad focus includes women thinkers in ancient Indian Chinese and Arabic philosophy as well as in the Greek and Roman philosophical traditions The volume will be valuable for a wide range of researchers teachers and students of ancient philosophy **A Select Library of**

Nicene and Post-Nicene Fathers of the Christian Church: St. Ambrose: Select works and letters. 1896 Philip Schaff, Henry Wace, 1896 *A Select Library of the Nicene and Post-Nicene Fathers of the Christian Church, Second Series, Volume 10* Philip Schaff, Henry Wace, 2022-05-10 Philip Schaff's classic work colloquially known as The Early Church Fathers is an invaluable resource filled with the primary documents and early theological building blocks for the Christian church. Comprised of thirty-eight volumes, it is broken into three parts: the Ante-Nicene Fathers and Nicene and Post-Nicene Fathers First and Second Series. **The Ethos of the Cosmos** William P. Brown, 1999 Recent studies of the biblical story of creation try to uncover its roots in ancient Near Eastern myths or its compatibility with modern science and ecology. In contrast, this work by William Brown investigates how the various pictures of creation found in Scripture helped shape the ancient faith community's moral character. Bridging the fields of biblical studies and ethics, this interdisciplinary work demonstrates how certain creation traditions of the Old and New Testaments were developed from the community's moral imagination for the purpose of forming and preserving both Israel's and the early church's identity in the world. Bringing to light insights largely overlooked by modern treatments of biblical ethics and creation, *The Ethos of the Cosmos* ends by recommending the formative power of creation for the contemporary church. **The Holy Bible**, 1852 **A Complete Concordance to the Holy Scriptures ... By Alexander Cruden ... The eighth edition, carefully revised and corrected ... To which is added, A Life of the author. [With a portrait.]**, 1815
