Simple Living For Women:

Short Essays on Women and Society Nunglekpm Premi Devi, 2018-05-25 This book deals with the personal experiences and feelings of the author. These poems describe the eventful life's journey of the author where she finds life a beautiful blank sheet of waves and whenever she stepped upon her unknowingly trying to overcome the instances. The book defines the vast momentum and love of the author where she loves to explore the ardent emotional powers and loves to write about the admiring violent impetus curbing the whole wild nature as well as the unique female cosmos holiness. The author describes the experiences she had during her childhood period where she was permanently forced to wear the same old school forks, shirts, and socks and she happily describes the joyous moments when she walks down the street crossing the water-filled paddy field deep into the water on the rainy day with those old rubber shoes. The book also beautifully highlighted the nature's epitome of unconditional love and how men trample upon through the nature's beauty. The author seems to describe the numbers of affection developed within her consciousness with the environment. There are innumerable instances of the poet's feelings describing the quantum moments of her sisterhood with their sisters and brothers, relationship of her emotions describing how she rules her own self and her kingdom where she beautifully describes her wilderness without egos. The book also describes the author's love for the animals, rainy seasons, and snowy winter and she also hunts for the reasons of the reasoning truth of the society of the humanity and of the self-destruction. There are beautiful instances where the author expresses her illusionist moments which she finds herself lost into the vast unpredicted desires and effort less to handle but just letting go of all those moments and never giving up of herself remembering little things in her life. This book is indeed a beautiful master piece of the writer all sum up in one go.

The Simple Life David E. Shi, 2001 Looking across three centuries of want and prosperity, war and peace, this work introduces a cast of practitioners and proponents of the simple life among them Thomas Jefferson, Scott and Helen Nearing, Jimmy Carter, and Jane Addams. It finds that nothing is simple about our mercurial devotion to the ideal of plain living and high thinking. Though we may hedge a bit in practice and are now and then driven by motives no deeper than nostalgia, this work stresses that the diverse efforts to avoid anxious social striving and compulsive materialism have been essential to the nation's spiritual health.

Inarticulate Longings Jennifer Scanlon, 2020-10-28 *Inarticulate Longings* explores the contradictions of a social agenda for women that promoted both traditional roles and the promises of a growing consumer culture by examining the advertising industry in the early 20th century.

Herlands Keridwen N. Luis, 2018-10-23 How women-only communities provide spaces for new forms of culture, sociality, gender, and sexuality. Women's lands are intentional collective communities composed entirely of women. Rooted in 1970s feminist politics, they continue to thrive in a range of ways from urban households to isolated rural communes, providing spaces where ideas about gender, sexuality, and sociality are challenged in both deliberate and accidental ways. *Herlands*, a compelling ethnography of women's land networks in the United States, highlights the ongoing relevance of these

communities as vibrant cultural enclaves that also have an impact on broader ideas about gender women's bodies lesbian identity and right ways of living As a participant observer Keridwen N Luis brings unique insights to the lives and stories of the women living in these communities While documenting the experiences of specific spaces in Massachusetts Tennessee New Mexico and Ohio Herlands also explores the history of women's lands and breaks new ground exploring culture theory gender theory and how lesbian identity is conceived and constructed in North America Luis also discusses how issues of race and class are addressed the ways in which nudity and public hygiene challenge dominant constructions of the healthy or aging body and the pervasive influence of hegemonic thinking on debates about transgender women Luis finds that although changing dominant thinking can be difficult and incremental women's lands provide exciting possibilities for revolutionary transformation in society
