Sinews Of Empire A Short History Of British Slavery:

Sinews of Empire Michael Craton, 2012-01-01 A history of British slavery that covers its origins organization and the attitudes of stakeholders **A Short History of Transatlantic Slavery** Kenneth Morgan, 2016-04-25 From 1501 when the first slaves arrived in Hispaniola until the nineteenth century some twelve million people were abducted from west Africa and shipped across thousands of miles of ocean the infamous Middle Passage to work in the colonies of the New World Perhaps two million Africans died at sea Why was slavery so widely condoned during most of this period by leading lawyers religious leaders politicians and philosophers How was it that the educated classes of the western world were prepared for so long to accept and promote an institution that would later ages be condemned as barbaric Exploring these and other questions and the slave experience on the sugar rice coffee and cotton plantations Kenneth Morgan discusses the rise of a distinctively Creole culture slave revolts including the successful revolution in Haiti 1791 1804 and the rise of abolitionism when the ideas of Montesquieu Wilberforce Quakers and others led to the slave trade s systemic demise At a time when the menace of human trafficking is of increasing concern worldwide this timely book reflects on the deeper motivations of slavery as both ideology and merchant institution A Brief History of Slavery Jeremy Black, 2011-08-18 A thought provoking and important book that raises essential issues crucial not only for understanding our past but also the present day In this panoramic history Jeremy Black tells how slavery was first developed in the ancient world and reaches all the way to the present in the form of contemporary crimes such as trafficking and bonded labour He shows how slavery has taken many forms throughout history and across the world from the uprising of Spartacus the plantations of the West Indies and the murderous forced labour of the gulags and concentration camps Slavery helped to consolidate transoceanic empires and helped mould new world societies such as America and Brazil Black charts the long fight for abolition in the nineteenth century looking at both the campaigners as well as the harrowing accounts of the enslaved themselves Slavery is still with us today and coerced labour can be found closer to home than one might expect **The British in the Americas 1480-1815** Anthony McFarlane, 2014-07-15 Of northern European nations the British had the greatest impact on the Americas Their history there embraces far more than the colonies that became the United States England had been in the New World for a century before those colonies were established and the British presence long outlived their loss This integrated account of that involvement spans the entire arc of British territories from the Caribbean to Canada and the entire period from the first appearance of the English to the disintegration of the British and other Euro American empires A fascinating story engrossingly told it fills a major gap in current historiography From Slavery to Freedom Seymour Drescher, 1999-05-17 The entries in this volume focus upon the rise and fall of the Atlantic slave system in comparative perspective The subjects range from the rise of the slave trade in early modern Europe to a comparison of slave trade and the Holocaust of the twentieth century dealing with both the history and historiography of slavery and abolition They include essays on British French Dutch and Brazilian

abolition as well as essays on the historiography of slavery and abolition since the publication of Eric Williams's *Capitalism and Slavery* more than fifty years ago *Traders, Planters and Slaves* David W. Galenson, 2002-07-18 This book explores the operation of the Atlantic slave trade industry in the late seventeenth and early eighteenth centuries focusing on the market behaviour of the Royal African Company the largest English company engaged in the slave trade and the sugar planters of the Caribbean The Harvard Guide to African-American History Evelyn Brooks Higginbotham, 2001 This massive guide sponsored by the W E B Du Bois Institute for Afro American Research at Harvard University and compiled by renowned experts offers a compendium of information and interpretation on over 500 years of black experience in America The Politics of Slave Trade Suppression in Britain and France, 1814-48 P. Kielstra, 2000-07-25 Britain's rarely examined nineteenth century diplomatic efforts for abolition took contemporary pre-eminence over most questions and almost sparked war with France in 1845 Kielstra examines the issue in Anglo French relations how conflicting moral economic and nationalist pressures and lobby groups affected domestic politics and high diplomacy To preserve peace and their positions statesmen had little margin for error as they framed policies which attacked the trade and satisfied mutually incompatible domestic opinions in a struggle which holds lessons for current efforts to include human rights concerns in foreign policy

Chattel House Blues Hilary Beckles, 2004 The remaking of colonial Barbados as a postmodern nation state has its political roots buried deep within the past In *Chattel House Blues* Hilary Beckles sets out to rewrite modern Barbadian history by centring the evolution of the nation in centuries of grassroots struggle Democracy in Barbados he argues as a social political and cultural reality has its origins principally within working class demands for freedom justice and equality and not as a bestowal upon the masses by elites at moments of imperial and colonial enlightenment In the second volume of his trilogy *Great House Rules* *Landless Emancipation* and *Workers Protest in Barbados 1838-1938* Prof Beckles convincingly shows that for the first one hundred years after emancipation an unbroken chain of resistance protest and agitation for democratic governance resulted in a decisive breach in the walls of the structures of white supremacy culminating in the Clement Payne Movement and the Riots of 1937 Black workers and their middle class allies secured Universal Adult Suffrage in 1950 and finally political independence in 1966 ending the Great House Rule that had begun three hundred years earlier This process he further argues reached maturity in 1994 when Owen Arthur a young man from the chattel house in the plantation tenantry became prime minister Independence and nationhood though critical markers in the journey towards social justice and equity did not mean an end to the struggle The politically enfranchised workers have since risen to an appreciation of their economic rights and the issue of popular economic democracy is now seen as the next step I civil rights development that Barbadians must confront *Chattel House Blues* connects current political thinking with the historical process In producing this work of historical literature that emphasises a people centred culture of change and transformation Prof Beckles' thesis is challenging if not controversial and is bound to result in widespread debate among Barbadians at home and in the diaspora

Colonialism and Gender Relations from Mary Wollstonecraft to Jamaica Kincaid Moira Ferguson, 1993 Against the historical background of slavery and colonialism this study investigates how white and Afro Caribbean women writers have responded to feminist abolitionist and post emancipationist issues It aims to reveal a relationship between colonial exploitation and female sexual oppression
