Going Solo Jean

Renvoize,2023-08-09 Originally published in 1985 this at the time controversial book explores the fundamental changes in personal relationships that had taken place over the previous decade focusing on women who had deliberately chosen to have children outside a permanent relationship After travelling widely throughout Britain the United States and Holland meeting those personally involved Jean Renvoize discusses why a growing number of women were deciding to become single mothers She discovers the implications of this for the future of the family and for old style love and commitment between the sexes She analyses the position both of the children of these single families and of their mothers She looks at men s feelings

about being used a stud and uncovers the desire of some men to have a family without being financially and emotionally involved with a long term partner Importantly Jean Renvoize places the new style of personal relationship in the context of the advance of the women s movement It is clear that ordinary and non political women s and men s lives have been more fundamentally changed by feminism than they may realise But few of the mothers interviewed by the author are actively feminist lesbians apart they all have in common past relationships with men and would happily settle with the right man could their high expectations be met Without exception all those who made the deliberate choice to go solo have loving joyful and rewarding experiences of motherhood Having a child alone has been fraught with problems for all but those who have met the challenge have found such great fulfilment that one is faced with an inevitable question are a woman and her child better off without a man When so many marriages end in divorce is a stable unit of two better than a broken unit of three But also might those without the motivation of successful solo mothers rush thoughtlessly into motherhood and find themselves exhausted broke and very unhappy Presenting in their own words the experiences of those directly involved this was above all a practical book It provided welcome and necessary insights into the changing pattern of relationships at the time for the married and unmarried for parents and non parents Today it can be read and enjoyed in its historical context **Single Mothers by Choice and the Large Social Context** Valerie S. Reconstructing Single Motherhood Karin E. McBride,1999 *When Baby Makes Two* Jené Stonesifer,1994 [The Case for Single Motherhood](#) Katherine Elizabeth Mack,2023-12-05 Delves into the rhetorical work of elective single mothers ESMs in the late twentieth and early twenty first centuries as they sought and continue to seek to legitimize their maternal identities and family formations Scholars of rhetoric have largely overlooked the inherent rhetoricity of family In *The Case for Single Motherhood* Katherine Mack posits family as a central concern of rhetorical studies by reflecting on how language is used by single mothers who seek to reenvision the personal social and political meanings of family Drawing on intersectional and rhetorical theories Mack demonstrates how the category of elective single motherhood emerged in response to the historically differential treatment of unwed mothers along racial and class lines Through her readings of a range of self sponsored ESM texts guidebooks memoirs and interactive digital media written by and primarily for other ESMs and from her perspective as an elective single mother herself Mack evaluates the rhetorical power as well as the exclusions and hierarchies that the ESM label effects She analyzes how ESMs envision motherhood visions that entail their musings about who can and should mother Ultimately Mack offers women who are considering nonnormative paths to motherhood a way to affirm their maternal identities and paths without disparaging others Scholars in the fields of rhetoric and feminist rhetorical studies will find in this volume an illuminating perspective on the rhetorical power of self sponsored texts in particular Crafting a methodology to identify and evaluate the goals and effects of legitimacy work and selecting sources that bring academic attention to varied genres of self sponsored writings Mack paves the way for future rhetorical studies of motherhood and family
