Single Obsession:

The Men and the Sane Embaye Melekin, 2015-10-07 This book is highly enlightening and would be criticized by many I write from the inspiration of God and many of my stories are just my own perceptions as envisioned to me by the Lord Many will ponder critically after reading this book and will learn somethings they had not anticipated The history of the Jews is something all Christians should know about The true Israelites are the white and black races and not necessarily the Jews of today The end time prophecies have been fulfilled now and all the authentic Israelites whites and blacks will be gathered from the four corners of the earth and know their true identities The history of Adolph Hitler is told in full length Other contents of the book also delve into scientific perceptions and some experiences of humanity in different parts of the world with some biblical and historical narrations of different topics Overall the reader will learn a few subjects that have never been delved into before that would trigger the minds of every soul of whatever persuasion and race Extremism Quassim Cassam, 2021-09-01 Extremism is one of the most charged and controversial issues of the twenty first century Despite myriad programs of deradicalization and prevention around the world it remains an intractable and poorly understood problem Yet it is also sometimes regarded as a positive force according to Martin Luther King Jr the question is not whether we will be extremists but what kind of extremists we will be In this much needed and lucid book Quassim Cassam identifies three types of extremism ideological methods and psychological extremism and discusses the following fundamental topics and issues What is extremism What are the methods adopted by extremists Is there an extremist mindset and if so what is it What role do ideas of purity victimhood and humiliation play in understanding extremism How does extremism differ from fanaticism and fundamentalism How does one become an extremist and how should we understand deradicalization Throughout the book Quassim Cassam uses many compelling examples ranging from the Khmer Rouge the IRA Al Qaeda and Timothy McVeigh to Philip Roth s novel *American Pastoral* and counter extremism programmes including the UK s Prevent strategy Clear headed and engaging *Extremism A Philosophical Analysis* is essential reading for anyone interested in this important topic not only in Philosophy but related disciplines such as Politics and International Relations Conflict and Terrorism Studies Law Education and Religion It will also be of great interest to policy makers and those engaged in understanding extremism at any level A Trauma Artist Mark A. Heberle, 2001-04 Based on recent conversations with Tim O Brien previously published interviews and new readings of all his works including *Tomcat in Love* this book is the first study to concentrate on the role and representation of trauma as the central focus of all O Brien s works Book jacket *Latinization of America* Eliot Tiegel, 2007-10-01 *Latinization of America* provides a contemporary overview of the Hispanic population s cultural impact in the United States The author explores the growth of this community in show business at large as well as in the Spanish speaking entertainment industry Focusing on music television film theater and sports while also considering economic and political factors the author tracks developments over the first decade of the 21st century Encompassing the various groups of

immigrants who create new vistas of opportunity for both Spanish speaking and mainstream entrepreneurs this volume highlights the crossover and integration of Hispanics into competitive mainstream show business and the rush by Anglo companies to grab their piece of the Latin pie The Immortal Comedy Agnes Heller,2005-10-17 Immortal Comedy is the first book to think philosophically about the comic phenomenon in general Although author Agnes Heller had written a book that is both deeply scholarly and meditative on the subject of the comic form in film literature and life her writing is eminently approachable In both its subject and style Immortal Comedy is a seminal book In it Heller takes us on a journey through theories of comedy beginning with classical thought She then detours through foundational political thinkers who refer to for instance laughter and power We are also introduced to modern systematic approaches to thinking comedy psychological approaches and existential approaches The discerning combination of Heller s individual taste for the pantheon of comedic work and also what critics may consider less significant work gives this book a character apart from all others It is the detail with which Heller makes her discussion how and where she locates the comic and probably most significantly her discussion of comedy and our own lives that makes Immortal Comedy a principal book for the entire range of humanities scholars and enthusiasts Obsessed Allison Britz,2017-09-19 A brave teen recounts her debilitating struggle with obsessive compulsive disorder and brings readers through every painful step as she finds her way to the other side in this powerful and inspiring memoir Until sophomore year of high school fifteen year old Allison Britz lived a comfortable life in an idyllic town She was a dedicated student with tons of extracurricular activities friends and loving parents at home But after awakening from a vivid nightmare in which she was diagnosed with brain cancer she was convinced the dream had been a warning Allison believed that she must do something to stop the cancer in her dream from becoming a reality It started with avoiding sidewalk cracks and quickly grew to counting steps as loudly as possible Over the following weeks her brain listed more dangers and fixes She had to avoid hair dryers calculators cell phones computers anything green bananas oatmeal and most of her own clothing Unable to act normal the once popular Allison became an outcast Her parents questioned her behavior leading to explosive fights When notebook paper pencils and most schoolbooks were declared dangerous to her health her GPA imploded along with her plans for the future Finally she allowed herself to ask for help and was diagnosed with obsessive compulsive disorder This brave memoir tracks Allison s descent and ultimately hopeful climb out of the depths

Tristes Tropiques Claude Levi-Strauss,2012-01-31 A magical masterpiece Robert Ardrey A chronicle of the author s search for a civilization reduced to its most basic expression **James Ellroy** Steven Powell,2016-01-26 James Ellroy Demon Dog of Crime Fiction is a study of all of Ellroy s key works from his debut novel Brown s Requiem to the epic Underworld USA trilogy This book traces the development of Ellroy s writing style and the importance of his Demon Dog persona to carving out his unique place in American crime fiction Narrative Podcasting in an Age of Obsession Neil Verma,2024-06-03 It has been a decade since Serial brought the narrative podcast to the center of popular culture In that

time there has been an enormous boom in the production of podcasts that tell stories particularly in the fields of true crime storytelling history and narrative fiction Now that the initial glow around the medium has begun to fade it is time to reevaluate the medium's technological political economic and cultural rise in particular what types of storytelling accompanied that rise Narrative Podcasting in an Age of Obsession is the first book to look back on this prodigious body of material and attempt to make sense of it from a structural historical and analytic point of view Focusing on more than 350 podcasts and other audio works released between Serial and the COVID pandemic the book explores why so many of these podcasts seem obsessed with obsession why they focus not only on informing listeners but also dramatizing the labor that goes into it and why fiction podcasts work so hard to prove they are a brand new form even as they revive features of radio from decades gone by This work also examines the industry's reckoning with its own implication in systemic racism misogyny and other forms of discrimination Employing innovative new critical techniques for close listening including pitch tracking software and spectrograms Narrative Podcasting in an Age of Obsession makes a major contribution to podcast studies and media studies more broadly

Psychology of the Extreme Arie W. Kruglanski, Sophia Moskalenko, 2025-02-26 What does extremism mean How does it show up in our daily lives What drives people to extreme behaviors and how can we learn to live and thrive in the age of overdrive The Psychology of the Extreme provides an accessible introduction to extremism as a force that can affect all aspects of culture and people's choices in everyday settings It explores the underlying psychology behind what makes people act in extreme ways whether this is in destructive ways such as gambling terrorism and political violence or in constructive ways such as successful creators and scientists The book features an array of case studies that show how extremism can be both pro social and anti social and includes interventions to reduce extremism or redirect them toward more positive and constructive tendencies Offering a new understanding of the individual psychology of extremism the book will appeal to all those interested in how extremism plays out in people's and cultures day to day lives
